**History:** Guidance Note 15A reissued 31/03/17. Previous versions of this Guidance Note were issued in 03/11, 01/12, 05/12, 07/13, 02/14, 05/14, 07/14, 07/15, 12/15, 07/16 and 12/16.

### Introduction

This Guidance Note sets out ASX's Schedule of Listing Fees for the purposes of Chapter 16 of the Listing Rules. It should be read in conjunction with Guidance Note 15, which explains how listing fees are calculated and other administrative matters regarding the payment of listing fees.

The fees set out in this Guidance Note apply from the dates indicated in each fee table. Information about fees payable in prior periods can be obtained from your ASX adviser or by consulting earlier editions of this Guidance Note.

Please note that the fees set out in this Guidance Note do not include GST. GST is billed in addition to these fees and itemised on the tax invoices issued for the fees.

In the case of an entity whose securities have been continuously suspended from quotation for 6 months or more as at the calculation date for annual listing fees (31 May), the annual listing fee payable is \$25,000.

<sup>1</sup> The ASX market and the ASX wholesale loan securities market are treated as separate markets for the purposes of charging initial listing fees.

<sup>2</sup> In the case of an entity in the Foreign Exempt Listing category with its primary listing on the NZX Main Board, the value of securities for which quotation is sought means the value of all of the securities in the relevant class which the entity is seeking to have quoted on ASX (see Listing Rules 1.11 condition 6 and 2.4). In any other case, it means the value of the specific securities or CHES Depository Interests ("CDIs") to be included on the entity's Australian register (including its CHES sub-register and its issuer sponsored sub-register) which it is seeking to have quoted on ASX (see Listing Rule 1.11 condition 6).

<sup>3</sup> This includes simple corporate bonds (as defined in note 5 below).

<sup>4</sup> In the case of an entity in the Foreign Exempt Listing category with its primary listing on the NZX Main Board, the value of quoted securities means the value of all of the securities in the relevant class quoted on ASX (see Listing Rules 1.11 condition 6 and 2.4). In any other case, it means the value of the specific securities or CDIs included on the entity's Australian register (including its CHES sub-register and its issuer sponsored sub-register) which are quoted on ASX (see Listing Rule 1.11 condition 6).

### Fees for quotation of additional securities (effective from 1 July 2016)

Table 1C – fee for quotation of additional equity securities and debt securities (other than simple corporate bonds<sup>5</sup>) on the ASX market.

Value of securities for which quotation is sought <sup>6</sup>	Fee

\$100,001 to \$500,000	\$1,750 + 0.5% on excess over \$100,000

Table 1D – fee for quotation of simple corporate bonds on the ASX market (effective from 3 February 2014)

Value of simple corporate bonds issued <sup>7</sup>	Fee
Up to \$25 million	\$8,000
\$25,000,001 to \$50m	\$8,000 + 0.03% on excess over \$25m
\$50,000,001 to \$250m	\$15,500 + 0.01% on excess over \$50m
\$250,000,001 to \$1,000m	\$35,500 + 0.005% on excess over \$250m
Over \$1,000 million	\$73,000 + 0.002% on excess over \$1,000m

<sup>5</sup> The expression 'simple corporate bond' has the meaning given to it in the Corporations Amendment (Simple Corporate Bonds and Other Measures) Act 2014.

<sup>6</sup> Again, in the case of an entity in the Foreign Exempt Listing category with its primary listing on the NZX Main Board, the value of securities for which quotation is sought means the value of all of the securities in the relevant class which the entity is seeking to have quoted on ASX (see Listing Rules 1.11 condition 6 and 2.4). In any other case, it means the value of the specific securities or CDIs included on the entity's Australian register (including its CHESSE sub-register and its issuer sponsored sub-register) which it is seeking to have quoted on ASX (see Listing Rule 1.11 condition 6).

<sup>7</sup> The fee for quotation of simple corporate bonds is calculated annually based on the total value of bonds issued under the entity's overall bond program during the 12 months prior to the calculation date (generally 31 May each year). For example, if an entity has two quoted bond series and issues two tranches of \$50 million in each series during the 12 months prior to the calculation date, then the entity will pay an additional quotation fee calculated and based on \$200 million of bonds issued.

Type of listing	Fee
Quotation of debt securities in each subsequent series (whether or not entity has debt program)	\$5,000

<sup>8</sup> The initial listing fee includes quotation of the first series of debt securities (whether or not issued under a debt program) and the quotation of the first debt program (if relevant).

<sup>9</sup> As mentioned previously, the ASX market and the ASX wholesale loan securities market are treated as separate markets for the purposes of charging initial listing fees.

<sup>10</sup> A fee for quotation of an additional debt program will occur on the first occasion that quotation for a series of debt securities is sought and the debt securities are issued under a program which is separate to any other program of that entity under which the entity has issued securities and for which ASX has granted quotation. A program can include a number of series but the debt securities must be issued under a single document.
