**Date of Issue:** 31 Oct 2003

## **SFE AUSTRACLEAR FEES AND CHARGES 2004**

This bulletin is to advise of changes to the SFE Austraclear Fees and Charges schedule. The fees will be effective January 1, 2004. A schedule of the new fees is attached.

SFE Austraclear fees and charges have not changed since 1998 and a number of the fees in the attached schedule will remain unchanged. Where fees and charges have increased, such increases need to be seen in the context of:

- An average of 13.5% fee reductions introduced in 2002 (adding to the cumulative CPI savings since 1998 of over 16%)
- Improved straight through processing service deliveries that have allowed SFE Austraclear participants to realise business restructure benefits
- Additional regulatory oversight responsibilities attributable to SFE Austraclear becoming a licensed clearing and settlement facility and compliance costs associated with recently introduced Financial Stability Standards
- Improved communications infrastructure/security (such as increased band-width, internet access, and digital certification) – due for completion in December 2003
- The necessary replacement of FINTRACS (introduced in 1989), SFE Austraclear's core clearing and settlement with a new generation system (scheduled for implementation in March 2004)

The attached schedule is valid for the 12 month period commencing 1 January, 2004
