SYCOM IV Features

INTER-COMMODITY SPREADS

Members are advised that the Exchange has received a fix to the inter-commodity spread problem experienced on Monday, 26 July 1999.

It is anticipated that following successful testing, this fix will be implemented on Friday morning, 30 July 1999, allowing the inter-commodity spread facility to be available on Friday evening, 30 July 1999.

MASS CANCELLATIONS

Members are advised that at this time, when a non-shared order participant executes a mass cancellation, the system is cancelling all shared orders within the firm.

To successfully mass cancel on a per-terminal basis, the trader should block highlight the orders to be cancelled.
