SYCOM Managers

SYCOM III De-Commissioning

Following the successful implementation of SYCOM® IV, including its disaster recovery capabilities, the Exchange intends to de-commission the SYCOM® III infrastructure beginning Monday, 13 September 1999.

This will assist Members in freeing up dealing room space in preparation for additional SYCOM® IV infrastructure.

The Exchange's IT department will be in contact with Members' IT personnel to co-ordinate the removal of equipment.

Paul Stonham
Deputy Screen Dealing Manager
