Step 1 – Editing Accounts

1. Log onto any Workstation as the Generic Firm ID
2. Go to [Account Administration Activities] then [Account Maintenance]. This will list all accounts available for maintenance to be performed.
3. Highlight the necessary account and select [Edit]
4. Scroll down until you find the GN code
5. Click in “Volume Per Order” column and enter required volume
6. Tab to the next column and enter the “Aggregate Net Session” limit
7. Tab to the “Loss” column and enter amount. This will bring up default values in the next column
8. Select [Apply Changes] then [Exit]

Repeat the above steps for all additional accounts required then exit the Account Maintenance window. This maintenance only needs to be performed on one machine.

Repeat the above steps for all additional products that are required.

Step 2 – Adding Limits

Limit maintenance is machine specific and will need to be performed on all necessary Interfaces and Workstations.

1. Log onto all Interfaces and/or Workstations as the Generic Firm ID
2. Once in Sycom go to [Tools] → [Options] → [Limits] → [Add]
3. Highlight the GN code
4. Tick Future and Spreads
5. Select ‘Ok’ in the [Add Limit] window
6. If further contracts are require repeat steps 1 – 5 for each additional contract
7. Once all the required contracts have been added, select [Apply] [OK]

PLEASE NOTE:

Step 1 needs only to be done on one workstation.
Step 2 will need to be performed on each workstation that will trade the new contracts.
