Articles & By-Laws on Disk

Members are advised that the enclosed 3.5" disk is the eighth edition of business rules on disk for the SFE, SFECH and NZFOE. The content of the disk is current as at April 1998. The disk is suitable for any IBM compatible personal computer with Windows 3.1 or higher.

This disk is distributed to Members on the same basis as the hard copy of the business rules. The first disk is free and subsequent disks are available from the SFE's Resource Centre at a charge of \$40.00.

It is hoped that your office will endeavour to use this technology as a more efficient means of searching business rules. The software will allow for searches to be made either of a word or phrase and will instantly guide the users to the relevant text through a "hyperlink" feature. This should make it significantly easier for Members to research the relevant portions of the SFE's and SFECH's rules so as to make compliance with the provisions an easier task. These features should make the disk an invaluable tool for your Compliance Officer or In-house Counsel.

If you have any queries or comments, please direct them to the writer.
