Extension of Official Market Making to New ISF's

In order to provide market depth, liquidity and integrity across all ISF's, Official Market Makers will extend their market making services to include all new ISF's.

ISF Official Market Makers are Optiver Australia, Timber Hill Australia and UBS Warburg Equities Australia.

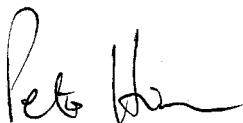

Change to Trading Hours

As part of the continued development of the ISF market, the day session trading hours for this product will be changed from 9:50am – 4:30pm and become 9:50am – 4:00pm. No adjustment will be made to the trading hours of the night session at this time.

A change to trading hours will bring ISF availability into line with underlying physical market. This will enable Official Market Makers to provide continuous coverage until market close and thereby improve market integrity and credibility, particularly with regard to the generation of daily settlement prices.
