No:

URGENT - SFE Information Network (SFEIN) - Resumption of Day 2 Processing

SFECH would like to advise members that processing of Day 2 transactions will resume on SFEIN from Tuesday 17 March 1998.

During the downtime on Friday and yesterday we have taken the opportunity to address the following issues from the first week of operation:

1. A patch has been installed to allow Day 2s to be entered with an effective date of the next day. Day 2's entered this way can only be entered by the From Party on the day prior to the Effective date. The To Party will not be able to authorise the transaction until the Effective date.

2. The Server "freezes" encountered last week have been tracked to a problem within Lotus Domino software (not the SFEIN application software) and a fix has been loaded to the production system to address this issue.

SFECH would like to thank members for their continued support and patience during the start up phase for SFEIN. Should you have any questions please do not hesitate to call me on 9256 0636.
