SFEIN Day 2 Module Upgrade - Implementation Information

In response to feedback from members, the SFEIN Day 2 module has been upgraded to correct some issues existing with the current production system:

The latest version of SFEIN will provide a number of improvements. Members will be able to:

- approve and reject Day 2s simultaneously *on the same processing page*. There is no need to approve or reject Day 2s separately
- create Day 2s containing references that are entered in the "Ref" pop-up box. The need to enter references using the reference field only for Day 2s on the 2nd or 3rd line of the table in the Create Day 2 page is no longer necessary. Information entered in the reference pop-up box for all Day 2s are correctly attached to the appropriate Day 2s
- e-mails are now consistently sent to members when Day 2s are awaiting their action or have been cancelled.

When will the Upgrade be implemented?

The new version of SFEIN is scheduled for implementation on **Friday 30th July, 1999**. The usual implementation procedure will be followed requiring all Day 2s to be entered and approved to "AS" (awaiting SFECH) status **prior to 3pm Friday 30th July 1999**. Any Day 2's not having a status of "AS" as at 3pm will need to be re-entered by the From Party and processed by the To Party on the following Monday 2nd August, 1999.

Contacts

If you have any queries regarding this upgrade please do not hesitate to contact Matthew Chan on 9256 0457, fax 9256 0426, e-mail mchan@sfe.com.au or if you require technical assistance phone 9256 0111.
