52/07

Date of Issue: 3rd May 2007
Effective Date: 3rd May 2007

SYCOM London Interface Issues

Participants are advised that ASX Limited has identified an issue with London SYCOM Interfaces which will require the ASX to perform a scripted application restart of all London Interfaces after the Market close of core products.

The restart is scheduled to occur at 4:35pm (AEST) each afternoon for the remainder of this week (3rd & 4th May) and will affect all London Interfaces.

Required Participant Actions

Participants are advised to reconnect their Third Party Applications (MFOS) to their SYCOM Interfaces after 4:50pm (AEST) on completion of the restart.

Please note that all orders not set to Retain will be purged as a result of the restart.

Should you have any queries, please contact the ASX Service Desk on +612 9256 0677 or service.desk@asx.com.au

A handwritten signature in black ink, appearing to read 'Suzanne Munro', is written over a horizontal blue line.
