

SFE NOTICE NO.

020/08

Date of Issue: 11 February 2008

Effective Date: 1 July 2008

---

## New self-certification requirements for Participants accessing SFE Markets

As advised in SFE Notice 010/08, all MFWS Trading Applications will have trading rights removed from 1 July 2008. Participants will be required to self-certify that they maintain a range of functional and operational capabilities.

The operational capabilities will require all Participants to ensure adequate risk management and market integrity across their client base. Details of this requirement will be published to all Participants via a Notice during Q108.

To assist Participant's in compliance with their functional self-certification obligation this notice details the specific functionality that Participant's will be required to maintain following the removal of the MFWS Trading Application. This functionality is required to allow continuation of market communication and allow compliance with trading procedures.

Specifically as it relates to functionality, Participants will be required to self-certify that they maintain capability to interact and display the SYCOM ® Message Facility and utilise the Request for Quote (RFQ) Facility.

Participants with in-house developed trading applications are requested to confirm with ASX Market Access whether they provide, or when they intend to provide, the SYCOM ® Message Facility and / or Request for Quote (RFQ) Facility for SFE access by emailing [TMI@asx.com.au](mailto:TMI@asx.com.au).

Should Participants require assistance in development of the SYCOM® Message Facility and Request for Quote (RFQ) Facility they should contact ASX Market Access using the details below.

For further information please contact ASX Market Access on 1800 663 053 (+61 2 9227 0372 International) or [TMI@asx.com.au](mailto:TMI@asx.com.au)

A handwritten signature in black ink that reads 'David Raper'.
