

SFE NOTICE NO.

044/10

Date of Issue: 25 March 2010

Effective Date: 1 April 2010

Removal of Australian Power Strip

The Australian Power Strip, SYCOM Commodity Code – SE, that consists of d-cyphaTrade ASX Australian Electricity Futures products is to be removed.

The Australian Power Strip represented a single national electricity strip derived from a basket of electricity futures listed across the National Electricity Market Regions of NSW, VIC, SA & QLD. It included the quarter base load futures contracts for NSW, VIC, SA and QLD, which were 1 year forward from the currently setting spot futures contracts.

Removal of the Australian Power Strip will become effective on and from 1 April 2010.

For further information please contact David Krsevan, Manager Energy and Environmental Markets on +61 2 9227 0538 or david.krsevan@asx.com.au.
