Breakaway Completes Sale of Scotia Project to Minotaur

Breakaway Resources Limited (ASX: BRW –“Breakaway”) advises that the previously announced agreement to sell its Scotia Project, located 65km north of Kalgoorlie in Western Australia, to Minotaur Exploration Limited (ASX: MEP) (Figure 1) has been completed.

Minotaur has paid the $600,000 cash consideration and the transfer of title to the Scotia tenement portfolio to its wholly-owned subsidiary, Minotaur Gold Solutions Ltd, has been completed. The completion of the agreement follows the satisfaction of all conditions precedent to the agreement.

These included the agreement with the Norilsk Nickel Group releasing it from its obligations under a prior Claw-back Agreement (see ASX Announcement – 31 May 2013) and its joint venture partner Aphrodite Gold Limited not exercising its pre-emptive rights to purchase the remaining 20% of the Gold Rights over the tenements.

The proceeds from the sale will bolster Breakaway’s cash position while it completes the recently announced transaction with Minotaur, under which the companies have entered into a binding agreement for Minotaur to acquire Breakaway through an agreed off-market takeover (see ASX Announcement – 15 July 2013).

About Breakaway Resources Limited:
Breakaway Resources aims to generate shareholder wealth through the discovery and development of a high-quality standalone mineral deposit. The Company’s exploration activities are focussed on our priority Eloise Exploration Project (copper-gold) located within the Cloncurry District of North West Queensland, and the Leinster tenements in Western Australia (Gold and base metals), areas that we believe offer the most attractive opportunities for future success.
