16. APPROVAL OF 10% PLACEMENT FACILITY

ASX Listing Rule 7.1A enables eligible entities to issue Equity Securities up to 10% of its issued share capital through placements over a 12 month period after the annual general meeting (10% Placement Facility). The 10% Placement Facility is in addition to the Company's 15% placement capacity under Listing Rule 7.1. An eligible entity for the purposes of Listing Rule 7.1A is an entity that:

- (a) is not included in the S&P/ASX 300 Index; and
- (b) has a market capitalisation of \$300 million or less (excluding restricted securities and securities quoted on a deferred settlement basis).

The Company is an eligible entity.

The Company is now seeking shareholder approval by way of a special resolution to have the ability to issue Equity Securities under the 10% Placement Facility. The exact number of Equity Securities to be issued under the 10% Placement Facility will be determined in accordance with the formula prescribed in Listing Rule 7.1A.2. Further information is set out in section (c) below.

The effect of Resolution 5 will be to allow the Directors to issue the Equity Securities under Listing Rule 7.1A during the 10% Placement Period without using the Company's 15% placement capacity under Listing Rule 7.1.

Resolution 5 is a special resolution and therefore requires approval of 75% of the votes cast by Shareholders present and eligible to vote (in person, by proxy, by attorney or, in the case of a corporate Shareholder, by a corporate representative).

Description of Listing Rule 7.1A

- (a) **Shareholder Approval**
The ability to issue Equity Securities under the 10% Placement Facility is subject to shareholder approval by way of a special resolution at an annual general meeting.
- (b) **Equity Securities**
Any Equity Securities issued under the 10% Placement Facility must be in the same class as an existing **quoted** class of Equity Securities of the Company. At the date of the Notice, the Company only has quoted shares on issue and no quoted options or convertible securities.
- (c) **Formula for calculating 10% Placement Facility**
Listing Rule 7.1A.2 provides that eligible entities which have obtained shareholder approval at an annual general meeting may issue or agree to issue, during the 12 month period after the date of the annual general meeting, a number of Equity Securities calculated in accordance with the following formula:

$$(A \times D) - E$$

A is the number of shares on issue 12 months before the date of issue or agreement:

- (i) plus the number of fully paid shares issued in the 12 months under an exception in Listing Rule 7.2;
- (ii) plus the number of partly paid shares that become fully paid in the 12 months;

- (iii) plus the number of fully paid shares issued in the 12 months with approval of holders of shares under Listing Rule 7.1 and 7.4. This does not include an issue of fully paid shares under the entity's 15% placement capacity without shareholder approval;
- (iv) less the number of fully paid shares cancelled in the 12 months.

Note that A has the same meaning in Listing Rule 7.1 when calculating an entity's 15% placement capacity.

D is 10%

E is the number of Equity Securities issued or agreed to be issued under the Listing Rule 7.1A.2 in the 12 months before the date of the issue or agreement to issue that are not issued with the approval of shareholders under Listing Rule 7.1 or 7.4.

Number of Shares on Issue

At the date of the Notice, the Company has a total of 135,152,403 Shares on issue.

Minimum Issue Price

The issue price of Equity Securities issued under Listing Rule 7.1A must be not less than 75% of the volume weighted average price (VWAP) of Equity Securities in the same class calculated over the 15 Trading Days on which trades in that class were recorded immediately before:

- (a) the date on which the price at which the Equity Securities are to be issued is agreed; or
- (b) if the Equity Securities are not issued within 5 Trading Days of the date in paragraph (a) above, the date on which the Equity Securities are issued.

10% Placement Period

Shareholder approval of the 10% Placement Facility under Listing Rule 7.1A is valid from the date of the annual general meeting at which the approval is obtained and expires the earlier to occur of:

- (a) the date that is 12 months after the date of the annual general meeting at which approval is obtained; or
- (b) the date of the approval by shareholders of a transaction under Listing Rules 11.1.2 (a significant change to the nature or scale of activities) or 11.2 (disposal of main understanding). (**10% Placement Period**)

Specific Information required by Listing Rule 7.3A

Pursuant to and in accordance with Listing Rule 7.3A, the following information is provided in relation to the approval of the 10% Placement Facility:

- (a) the Equity Securities will be issued at an issue price of not less than 75% of the VWAP for the Company's Equity Securities over the 15 Trading Days on which trades in that class were recorded immediately before:
 - (i) the date on which the price at which the Equity Securities are to be issued is agreed; or
 - (ii) if the Equity Securities are not issued within 5 Trading Days of the date in paragraph (i) above, the date on which the Equity Securities are issued.

For personal use only

(b) If Resolution 5 is approved by Shareholders and the Company issues Equity Securities under the 10% Placement Facility, the existing Shareholders' voting power in the Company will be diluted as shown in the below table (in the case of options, only if the options are exercised). There is a risk that:

- (i) the market price for the Company's Equity Securities may be significantly lower on the date of the issue of the Equity Securities than on the date of the Meeting; and
- (ii) the Equity Securities may be issued at a price that is at a discount to the market price for the Company's Equity Securities on the issue date

which may have an effect on the amount of funds raised by the issue of the Equity Securities.

For personal use only

The table below shows the dilution of existing Shareholders on the basis of the current market price of Shares and the current number of ordinary securities for variable "A" calculated in accordance with the formula in Listing Rule 7.1A.2 as at the date of this Notice.

The table also shows:

- (i) two examples where variable "A" has increased, by 50% and 100%. Variable "A" is based on the number of ordinary securities the Company has on issue. The number of ordinary securities on issue may increase as a result of issues of ordinary securities that do not require Shareholder approval (for example, a pro rata entitlements issue or scrip issued under a takeover offer) or future specific placements under Listing Rule 7.1 that are approved at a future Shareholders' meeting; and
- (ii) two examples of where the issue price of ordinary securities has decreased by 50% and increased by 100% as against the current market price.

Variable 'A' in Listing Rule 7.1A.2	Issue price examples	Number of Shares examples		Variable		
				50% decrease in Issue Price	Issue Price	100% Increase in Issue Price
				\$0.035	\$0.070	\$0.140
Current Variable A		135,152,403	10% Voting Dilution	13,515,240	13,515,240	13,515,240
			Funds raised	\$473,033	\$946,067	\$1,892,134
50% increase in Current Variable A		202,728,605	10% Voting Dilution	20,272,860	20,272,860	20,272,860
			Funds raised	\$709,550	\$1,419,100	\$2,838,200
100% increase in Current Variable A		270,304,806	10% Voting Dilution	27,030,481	27,030,481	27,030,481
			Funds raised	\$946,067	\$1,892,134	\$3,784,267

The table has been prepared on the following assumptions:

- (i) The Company issues the maximum number of Equity Securities available under the 10% Placement Facility.
- (ii) No options (including any options issued under the 10% Placement Facility) are exercised before the date of the issue of the Equity Securities;
- (iii) The 10% voting dilution reflects the aggregate percentage dilution against the issued share capital at the time of issue. This is why the voting dilution is shown in each example as 10%.

For personal use only

- (iv) The table does not show an example of dilution that may be caused to a particular Shareholder by reason of placements under the 10% Placement Facility, based on that Shareholder's holding at the date of the Meeting.
- (v) The table shows only the effect of issues of Equity Securities under Listing Rule 7.1A, not under the 15% placement capacity under Listing Rule 7.1.
- (vi) The issue of Equity Securities under the 10% Placement Facility consists only of Shares. If the issue of Equity Securities includes options, it is assumed that those options are exercised into Shares for the purpose of calculating the voting dilution effect on existing Shareholders.
- (vii) The issue price is 7.0 cents (\$0.070), being the opening price of the Shares on the ASX 30th September 2013.

(c) The Company will only issue and allot the Equity Securities during the 10% Placement Period. The approval under Resolution 5 for the issue of the Equity Securities will cease to be valid in the event that Shareholders approve a transaction under Listing Rule 11.1.2 (a significant change to the nature or scale of activities or Listing Rule 11.2 (disposal of main undertaking).

(d) The Company may seek to issue the Equity Securities for the following purposes:

- (i) non-cash consideration for the acquisition of new resources assets and investments. In such circumstances the Company will provide a valuation of the non-cash consideration as required by Listing Rule 7.1A.3; or
- (ii) cash consideration. In such circumstances, the Company intends to allocate the funds towards additional working capital while the Company progresses development funding for the Dolphin Project.

The Company will comply with the disclosure obligations under the Listing Rules 7.1A.4 and 3.10.5A upon issue of any Equity Securities. The Company's allocation policy is dependent on the prevailing market conditions at the time of any proposed issue pursuant to the 10% Placement Facility.

The identity of the allottees of Equity Securities will be determined on a case-by-case basis having regard to the factors including but not limited to the following:

- (i) the methods of raising funds that are available to the Company, including but not limited to, rights issue or other issue in which existing security holders can participate;
- (ii) the effect of the issue of the Equity Securities on the control of the Company;
- (iii) the financial situation and solvency of the Company; and
- (iv) advice from corporate, financial and broking advisers (if applicable).

The allottees under the 10% Placement Facility have not been determined as at the date of this Notice but may include existing substantial Shareholders and/or new Shareholders who are not related parties or Associates of a related party of the Company.

Further, if the Company is successful in acquiring new resources assets or investments, it is likely that the allottees under the 10% Placement Facility will be vendors of the new resources assets or investments.

(e) The Company previously obtained Shareholder approval under Listing Rule 7.1A at the Company's Annual General Meeting held 21st November 2012:

During the preceding 12 months, a total of 38,615,112 Equity Securities were issued representing 38.2% of total Equity Securities on issue at the commencement of that 12 month period (101,037,291).

In addition to Listing Rule 10.11, approval of Shareholders of the granting of Options (financial benefit) to Johann Jooste-Jacobs and Allan Davies (related parties) is being sought pursuant to Section 208(1)(a) of the Corporations Act. In accordance with Section 219, the Company discloses the following information:

The related party to whom the proposed resolution would permit a financial benefit to be given:

Johann Jooste-Jacobs or his nominee: Johann Jooste-Jacobs is the Chairman of the Company.

Allan Davies or his nominee: Allan Davies is a non-executive Director of the Company.

The nature of the financial benefits:

Mr Jooste-Jacobs 4,500,000 Options

Mr Davies 4,500,000 Options

Directors' recommendations:

Each of Christopher Ellis and Allan Davies recommends that Shareholders vote in favour of Resolution 6. Johann Jooste-Jacobs makes no recommendation regarding Resolution 6 because he has an interest in it.

Each of Christopher Ellis and Johann Jooste-Jacobs recommends that Shareholders vote in favour of Resolution 7. Allan Davies makes no recommendation regarding Resolution 7 because he has an interest in it.

Directors' interests in resolutions:

Neither Christopher Ellis nor Allan Davies has an interest in Resolution 6. Johann Jooste-Jacobs has an interest in Resolution 6 as set out above.

Neither Christopher Ellis nor Johann Jooste-Jacobs has an interest in Resolution 7. Allan Davies has an interest in Resolution 7 as set out above.

All other relevant information:

The proposed granting of Options to Johann Jooste-Jacobs and Allan Davies, or their respective nominees, is in consideration of the provision of his services to the Company in the future and to incentivise their contribution to efforts to lift the Company's share price.

The terms of granting of the Options to Johann Jooste-Jacobs and Allan Davies, the subject of Resolutions 6 and 7, have been approved by the independent Board of Directors.

Valuation: In view of the small trading range in share price and low monthly average turnover on the ASX, it is difficult to provide a definitive valuation of the Options the subject of Resolutions 6 and 7. To provide a valuation, the Company has adopted two valuation methods, the Tax Act and Black Scholes.

Tax Act: the methodology is set out in Division 13A, Subdivision F of the Tax Act.

The value of the Options the subject of Resolutions 6 and 7 is principally a function of:

- the difference between the market price of Shares in the Company and the exercise price of the Option; and
- the term of the Option.

For example, if the exercise price is lower than the current market price, the Option has an immediate value. Similarly, the greater the term of the Option, the higher is its value. The proposed Options may be exercised in whole or in part at any time prior to or on each Expiry Date.

1. Under the Tax Act, the assessable income of Johann Jooste-Jacobs and Allan Davis would include any 'discount' attributable to the Options. This discount is treated as a measure of the benefit received. The

For personal use only

Tax Act contains a formula for working out the market value of an option at the time of acquisition, although this is not necessarily the taxable "discount". Using this formula, the value of the proposed Options would be nil per Option based on the market value of Shares on 30th September 2013.

2. Messrs Ellis and Davies resolved to recommend to Shareholders the issue of Options to Mr Jooste-Jacobs or his nominee. The aggregate value of 4,500,000 Options (based on the market price of Shares in the Company on 30th September 2013 of 7 cents (\$0.07) is nil.
3. Messrs Ellis and Jooste-Jacobs resolved to recommend to Shareholders the issue of Options to Mr Davies or his nominee. The aggregate value 4,500,000 Options (based on the market price of Shares in the Company on 30th September 2013 of 7 cents (\$0.07) is nil.
4. Black Scholes: the Black Scholes option pricing model has also been applied. Applying the Black Scholes model, and assuming an interest rate of 3.41% and volatility of 110%, the:
 - 4.1. 4,500,000 Options proposed to be granted to Mr Jooste-Jacobs or his nominee are valued at \$196,550, assuming a volatility of 100% the Options are valued at \$181,400; and
 - 4.2. 4,500,000 Options proposed to be granted to Mr Davies or his nominee are valued at \$196,550, assuming a volatility of 100% the Options are valued at \$181,400; and
5. The Black Scholes model is critically dependent upon the volatility of the relevant share price. In this case, the use of the Black Scholes model is seen to be subjective for the following reasons:
 - 5.1. trading in the Shares of the Company has been thin, with only a turnover on the ASX of 6,931,103 Shares, or 5.1% of the current issued Shares, between 1st September 2012 and 31st August 2013;
 - 5.2. shares in the Company are rarely traded; and
 - 5.3. the Black Scholes model assumes that there is a liquid market for options. The proposed Options will not be listed and, accordingly, a marketability discount would generally be applicable.

1. A member entitled to attend and vote at a Meeting is entitled to appoint a proxy to attend and vote on behalf of that member.
2. You should direct your proxy how to vote by placing a mark in one of the boxes opposite each item of business. All your shares will be voted in accordance with such a direction unless you indicate only a portion of voting rights are to be voted on any item by inserting the percentage or number of shares you wish to vote. If you do not mark any of the boxes on the items of business, your proxy may vote as he or she chooses. If you mark more than one box on one item, your vote on that item will be invalid.
3. Any undirected proxies held by the Chairman of the Meeting, other directors or other Key Management Personnel or any of their Closely Related Parties will not be voted on Resolution 1 (Remuneration Report), unless the vote is cast by the Chairman of the Meeting pursuant to an express authorization on the Proxy Form made by a Shareholder who is entitled to vote on Resolution 1.
4. Key management personnel of the Consolidated Entity are the directors of the Company and those other persons having authority and responsibility for planning, directing and controlling the activities of the Consolidated Entity, directly or indirectly. The Remuneration Report identifies the Consolidated Entity's Key Management Personnel for the financial year to 30th June 2013. 5. A duly appointed proxy need not be a member of the Company. This form should be signed by the member. If a joint holding, either member may sign. If signed by the member's attorney, the power of attorney must have been previously noted by the Company or a certified copy attached to this form. 6. Corporate shareholders should comply with the execution requirements set out on the proxy form or otherwise with the provisions of Section 127 of the *Corporations Act*. In particular, a person who witnesses the affixing of a common seal and who is the sole director and sole company secretary of the company must state that next to his or her signature.
8. Completion of a proxy form will not prevent individual shareholders from attending the meeting in person if they wish.
