ASX Release
Byron Energy SM 6 #1 Drilling Update – No. 4

Byron Energy Limited (“Byron”) advises that the contracted jack-up drilling rig, Spartan Rig 202, spudded the Byron Energy SM 6 #1 (“SM 6 #1”) well located in South Marsh Island Block 6 (“SM 6”) on Saturday, 24 May 2014, at approximately 3.15 PM (USA Central Time).

Current operations at the SM 6 #1 well are preparing to run 10 ¾” conductor casing at 1,535 feet (468 metres) measured depth (1,531 feet true vertical depth).

Byron, through its wholly owned subsidiary Byron Energy Inc. (the operator), has a 100% working interest and a 81.25% net revenue interest in SM 6. SM 6 is located offshore Louisiana, 216 km southwest of New Orleans, Louisiana, USA.

Byron will provide further progress drilling reports as material information becomes available.
