

ASX Announcement 8 December 2014

Dubber (ASX: CUG) enters into a master distributor and system integrator agreement with NTT Communications ICT Solutions (NTT ICT)

NTT Com ICT Solutions (Australia) Pty Ltd (NTT ICT) is a wholly owned subsidiary company of NTT Communications, the global data and IP services arm of Fortune Global 500 telecom leader, Nippon Telegraph & Telephone Corporation (NTT).

- NTT ICT becomes a distributor and systems integrator for Dubber technology.
- NTT ICT has commenced positioning Dubber's cloud based call recording platform to existing and potential clients in Australia.
- NTT ICT plan to manage systems integration and support of Dubber within its client operations.

Dubber has secured distribution for its transformative cloud based call recording capability through NTT ICT.

Dubber continues to deliver against its strategy of securing distribution through large ICT, Platform and Telecommunication providers. The agreement provides a path to NTT ICT's extensive enterprise clients and further strengthens Dubber's network of system integrator; enabling Dubber management to focus on revenue growth whilst ensuring the scalability of operations in areas of deployment and support.

Steve McGovern, Managing Director of Dubber, commented:

"To attract a company of the scale, expertise and global capability of NTT ICT this early in Dubber's development is a tremendous achievement. We think it speaks to the unique and market leading offering of our cloud based call recording platform. We look forward to working with NTT ICT to drive both of our businesses."

Ashley Gall, Director, VIC Sales, stated:

"NTT ICT continues to implement ICT solutions, which enable technology for the world's most quality-sensitive organisations and look forward to working with the team at Dubber."

About NTT Communications Corporation

NTT Com ICT Solutions (Australia) Pty Ltd is a wholly owned subsidiary company of NTT Communications, the global data and IP services arm of Fortune Global 500 telecom leader, Nippon Telegraph & Telephone Corporation (NTT). The NTT Communications ICT Solutions (NTT ICT) brand was launched in 2013 and comprises of NTT Communications' Australian entities NTT Australia, Frontline Systems Australia, and Harbour MSP.

NTT Com ICT Solutions (Australia) Pty Ltd (NTT ICT) is a fully integrated, one-stop hub for IT services. The company delivers end-to-end information and communication technology solutions supported with professional services, managed services, and ever-ready technical support working with enterprise-size Australian organisations that want to re-imagine IT through infrastructure innovation. Services include a world-class Tier-1 Internet backbone, secure closed networks, security, system integration, network and application management, managed hosting, infrastructure resale, and global content delivery services. In addition, NTT ICT is a data centre service provider, specialising in fully integrated colocation, private cloud, and managed IT services.

About Dubber Pty Ltd

The Dubber technology suite provides call recording and audio asset management in the cloud. Recording will be available across all devices and is instantly accessible for many and varied user cases. Dubber will surpass the limitations of existing systems, enhance the benefits and simplify the ability of all potential users to record calls.

Dubber is a transformative cloud based software technology in a multi-billion dollar hardware centric market place. It provides enhanced service and is flexible to a myriad of applications not easily achievable with current market solutions. These benefits include immediate access to the call recording at any time from any location and the ability to asset manage and utilize recordings within existing enterprise systems as is the case for other forms of content, but largely not for voice recording, until now.
