

## ASX Announcement and Media Release

16 March 2015

### Dicker Data to undertake \$40m floating rate corporate bond offering

Dicker Data Limited (ASX: DDR) (Dicker) is pleased to announce it will undertake a 5 year floating rate unsecured corporate bond offering to raise \$40 million.

The bond offering will increase the tenure of Dicker Data's debt maturity profile and diversify its debt funding sources. The net proceeds of the offering will be used to reduce existing bank debt and for general corporate purposes.

The Lead Arranger for the transaction is FIIG Securities Limited. The bond offering is only open to eligible professional and sophisticated investors. No prospectus or other disclosure documents in relation to the bond will be lodged with the Australian Securities and Investment Commission or any other regulatory authority.

Chairman and CEO David Dicker said the issue reflected the company's active approach to capital management.

"This bond issue is an important initiative for our company which reflects our determination to ensure that we have multiple sources of funding and the security of longer term debt," Mr Dicker said.

"We look forward to establishing relationships through the bond issue with many new investors who will have a stake in the ongoing success of our company."

FIIG Securities CEO Mark Paton said the company was pleased to assist Dicker Data to diversify and lengthen the duration of its debt funding.

"Dicker Data is a clear leader in its industry and its offering is another positive development for the expanding Australian bond market for midsized corporates," Mr Paton said.

For full terms and conditions of the offering please refer to the Information Memorandum to be lodged with the ASX once the terms have been finalised. This Information Memorandum is not a prospectus or other disclosure document for the purposes of the Corporations Act 2001 and, as noted above, the offering is only open to eligible professional and sophisticated investors.
