ASX Announcement

Repayment of CU2 Global Pty Ltd loan to Motopia

The Board of Motopia Limited ('Motopia' or 'Company') is pleased to confirm that the Company has received a \$500,000 loan repayment from CU2 Global Pty Ltd (CU2G). The payment terms of the \$285,000 balance of the loan payable to Motopia have been extended, and the balance is now expected to be repaid by CU2G in approximately 12 months.

The \$500,000 will be used for working capital purposes and to further invest in the development of the Company's 2SQL software, which is soon scheduled to be commercially deployed via the cloud. (www.convertu2online.com).

The Company's 2SQL software is capable of automatic migration and conversion of Microsoft Access Applications and Databases to Microsoft SQL Server. The cloud offering far extends the capability of the 2SQL platform, allowing businesses in any part of the world to upload their Microsoft Access Applications to the cloud platform, run the 2SQL cloud application and download the converted solution to either an on premise environment or to another private Windows Azure Portal. This will give Motopia the reach and the capacity to scale the 2SQL software to make possible the conversion of thousands or even hundreds of thousands of Microsoft Access Applications yearly.

About CU2 Global, ConvertU2 Technologies and 2SQL

CU2G is the exclusive global distributor for ConvertU2 Technologies 2SQL Software ("2SQL"). CU2G has the worldwide exclusive rights to market and deliver 2SQL and, as previously announced, Fujitsu have entered a Global partnering agreement with CU2G.

CU2G provides the technology for businesses looking to simplify their existing data management systems, reduce the costs of operating those systems and enable implementation in a Cloud environment (previously inaccessible).

ConvertU2 Technologies is an Australian based company and world leader in the automated conversion and migration of Microsoft Access Applications & Databases to Microsoft SQL Server. Its 2SQL program is considered the panacea for automating the migration of Microsoft Access to the SQL Server platform.

2SQL's automation capability consistently delivers not less than 95% and up to 100% conversion completion outcome. Importantly, 2SQL also provides significant journaling and detail to aid developers engaged in the residual 3% - 5% manual clean-up effort.
