JUNE 2015 QUARTERLY ACTIVITIES REPORT

Castillo Copper Limited ("Castillo" or "the Company") provides its report for the quarter ended 30 June 2015.

Chilean Copper Projects

Rio Rocin

The Rio Rocin project is located 140 km north of Santiago, within the Central Chilean copper belt, and consists of about 2,200 hectares of exploration concessions. The exploration target is high grade supergene copper mineralisation located within and adjacent to the Andres-Amos porphyry copper deposit. Castillo's tenements include the leached cap and structurally contiguous ground.

Due to the difficulties in developing this project in remote location, the Company continues to seek a joint venture partner for this high value project.

Posada

The Posada copper project is 60 km south of Copiapo, within the northern Chilean copper-iron belt, and consists of 2,188 hectares of exploration tenements.

During a previous drilling programme, based on high-resolution geophysics and alteration mapping, the Company successfully tested a large scale zone of mineralised hydrothermal alteration which has possible porphyry copper affinities. As a result, the Company proposes a campaign for deeper drilling, targeting copper mineralisation. To this end, the Company is seeking a joint venture partner.

NSW Projects

The Company continued to review its tenement holdings in New South Wales.

Nicholas Lindsay Managing Director

Competent Person Statement

The information in this report that relates to Mineral Resources and Exploration Results are based on information compiled by Dr Nicholas Lindsay who is a Member of the Australian Institute of Geoscientists and the AusIMM. Dr Lindsay is a Director of Castillo Copper Limited. Dr Lindsay has sufficient experience, which is relevant to the style of mineralisation and type of deposit under consideration and to the activity, which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Dr Lindsay consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

APPENDIX 1: INTEREST IN MINING TENEMENTS HELD

Australia (NSW)

TENEMENT	NAME	PROJECT	INTEREST AT THE BEGINNING OF THE QUARTER %	INTEREST AT THE END OF THE QUARTER %	STATUS
EL 7980	Wongoni	Ordovician	100	100	Granted

Chile

There have been no changes in interests in mining tenements held in Chile during the quarter.
