Provision of Financial Support to Navaho Gold Limited

The Board of Directors of DGR Global Limited (ASX: DGR) advise of the provision of a written offer of financial support to 19.9% owned Navaho Gold Limited (Navaho) on commercial terms. The offer of financial support essentially replicates a similar arrangement struck between the parties on a number of previous occasions.

In accordance with the written offer, DGR Global has agreed to provide funds to Navaho to a maximum amount of \$1,000,000 to enable Navaho to continue to meet all of its project and corporate expenses. The funding will be provided for a period being the earlier of 12 months or completion by Navaho of a capital raising.

The funding arrangement will be unsecured but attract interest at the rate charged by the bankers for Navaho on any overdraft accommodation for an amount of \$100,000 or more, and shall be capitalised and only repayable when the facility is repaid.

The independent Directors of DGR Global and Navaho respectively agreed the terms of the funding arrangement, with Messrs Mather and Moller abstaining.

This is achieved through:

- The identification of commodities with a favorable 20 year price outlook.
- Geological terranes with:
 - A demonstrated strong endowment for that commodity;
 - An under-explored history;
 - Opportunity for the application of recently developed exploration techniques;
 - Jurisdictions with improving socio-economic and regulatory frameworks;
 - Extensive available tenures.

DGR provides initial seed funding and management support to secure these assets in subsidiaries and develop these assets to more advanced funding stages. The Company has a pipeline of projects in daughter companies at various stages of emergence, and has recently crystallised a significant return through the sale of its 15% holding in Orbis Gold for \$26million. Further development of its holdings in AIM listed SolGold and IronRidge Resources and ASX Listed AusTin Mining, Navaho Gold and Armour Energy and unlisted Archer Resources, are expected over the coming years.

The Company is currently involved in the search for safe high grade, high-yielding production operations in which to invest the bulk of its available cash resources.

DGR Global has commenced an intended program of judicious dividend payments to its shareholders. The future of the dividend program will depend on circumstances from time to time.

The previous resource exploration and funding activities of DGR's key personnel underscore the opportunities provided by the DGR business model.
