## 8 RESOLUTION 5 - ISSUE OF SECURITIES

### 8.1 Introduction

On 15 April 2015 the Company announced the acquisition of two exploration licences in New South Wales known as the Torrington Project from Resolve. The transaction with Resolve was completed on 24 August 2015. The Torrington Project is considered prospective for tungsten. The purchase price for the licences is to be settled as follows:

- (a) A\$135,000, to be paid within 5 days of the acquisition agreement being signed and being agreed reimbursement to the vendor for past exploration expenditure (this payment has been made);
- (b) the issue of 12,000,000 Shares (**Tranche 1**) upon satisfaction of the Condition Precedent (with 5% of these Shares to be issued to a nominee of Resolve) (these Shares have been issued);
- (c) the issue of a further 6,000,000 Shares within 20 Business Days of the Company completing a preliminary feasibility study or 30 January 2016, whichever occurs first (**Tranche 2**); and
- (d) the issue of a further 6,000,000 Shares 20 Business Days after the Company both prepares:

- For personal use only
- (i) a Final Investment Decision (as defined in the agreement under which licences are being acquired) affecting the licences; and
  - (ii) applying for one or more mineral leases over the area/s of mineralisation described in the Final Investment Decision (as defined in the agreement) (**Tranche 3**);

and in any event, no later than 31 December 2017 (approval was obtained from shareholders on 14 August 2015 to issue these Shares where the issue conditions are met before the expiry date).

The sale and purchase of the licences was subject to a number of terms and conditions, including:

- (a) the licences being transferred to, and registered in the name of the Company or its subsidiary (**Conditions Precedent**);
- (b) the Company and the Vendor both funding expenditure requirements during the Pre-Completion Period (as defined in the agreement), including any mutually agreed exploration costs;
- (c) the Vendor signing over its voting rights to the Company for its upcoming shareholder meeting to approve the Capital Return to shareholders and also agreeing not to be entitled to participate in the Capital Return; and
- (d) the Vendor giving the following warranties:
  - (i) its 100% ownership of the Torrington Project;
  - (ii) the good standing of the tenements comprising the Torrington Project;
  - (iii) all environmental laws and other laws have been complied with; and
  - (iv) there are no existing or threatened claims or demands that have been made affecting the tenements.

The terms and conditions were met and the Tranche 1 Shares issued on 24 August 2015.

Resolution 5 seeks Shareholder approval to issue up to 6,000,000 Shares to Resolve or their nominees comprising the Tranche 2. Approval to issue the Tranche 2 Shares could not be obtained from Shareholders at the EGM held on 14 August 2015 as they were to be issued more than three months after the meeting and the issue was unconditional. At the time of issuing the Notice of Meeting for the EGM, the intention was to issue the Tranche 2 Shares from the Company 15% Placement Capacity. On the basis that shareholders are meeting for the purposes of the Annual General Meeting, your directors have taken this opportunity to obtain pre-approval for the issue of these Shares in order to retain the full 15% Placement Capacity (see 8.2 below for details of the Listing Rule).

## 8.2 Listing Rules

Listing Rule 7.1 limits the number of securities a company can issue in a 12 month period to 15% of its issued share capital (**15% Placement Capacity**), except for certain issues, including where first approved by Shareholders. The effect of passing Resolution 5 will be to allow the Directors to issue securities in accordance with the Resolution without those securities being included in the 15% limit.

## 8.3 Advantages and disadvantages of the Issue of Securities

The Board considers the principle advantage of the Issue of Securities is as follows:

- (a) Shareholder approval for the issuance of securities allows the Company to maintain its 15% placement capacity under Listing Rule 7.1. This gives the Company the flexibility to raise further capital at future dates as appropriate or complete other potential acquisitions to the benefit of shareholders.

The Board considers the principle disadvantage of the Issue of Securities is as follows:

- (a) Resolve increases its shareholding in the Company, holding approximately 14.8% after the Tranche 2 issue (assuming no further Shares are issued other than for the conversion of the Listed Options which expire on 23 January 2016).

## 8.4 Information required by Listing Rule 7.3

For the purposes of Listing Rule 7.3, the following information is provided about the issue:

- (a) The maximum number of Shares to be issued under Tranche 2 is 6,000,000.
- (b) The Tranche 2 Shares are to be issued to Resolve:
  - (i) within 20 Business Days of TopTung preparing a Preliminary Feasibility Study affecting the Tenements; or
  - (ii) on 30 January 2016,Whichever occurs first.
- (c) The deemed issue price for the Tranche 2 Shares is \$0.025 per Share.
- (d) The securities will be issued to Resolve Geo Pty Ltd ABN 39 100 586 534 or nominee.
- (e) The securities issued are fully paid ordinary shares in the capital of the Company.
- (f) The securities are being issued in part consideration for two exploration licences and no funds will be raised under the issue.
- (g) A voting exclusion statement is included in the Notice.

## 8.5 Directors' recommendation

The Board unanimously recommends that Shareholders vote in favour of Resolution 5. This will give the Company flexibility to issue securities whilst preserving a portion of the Company's 15% annual limit permitted by Listing Rule 7.1.

---

## 9 RESOLUTION 6 - APPROVAL OF 10% PLACEMENT FACILITY

### 9.1 General

ASX Listing Rule 7.1A provides that an Eligible Entity may seek Shareholder approval to allow it to issue Equity Securities up to 10% of its issued capital over a period up to 12 months after the entity's annual general meeting (**10% Placement Capacity**). The 10% Placement Capacity is in addition to the Company's 15% placement capacity under Listing Rule 7.1.

The Company is an Eligible Entity.

If Shareholders approve Resolution 6, the number of Equity Securities the Eligible Entity may issue under the 10% Placement Capacity will be determined in accordance with the formula prescribed in ASX Listing Rule 7.1A.2 (as set out in Section 9.2 below).

The effect of Resolution 6 will be to allow the Directors to issue Equity Securities up to 10% of the Company's fully paid ordinary securities on issue under the 10% Placement Capacity during the period up to 12 months after the Meeting, without subsequent Shareholder approval and without using the Company's 15% annual placement capacity.

**Resolution 6 is a special resolution.** Accordingly, at least 75% of votes cast by Shareholders present and eligible to vote at the Meeting must be in favour of Resolution 6 for it to be passed.

### 9.2 ASX Listing Rule 7.1A

ASX Listing Rule 7.1A came into effect on 1 August 2012 and enables an Eligible Entity to seek shareholder approval at its annual general meeting to issue Equity Securities in addition to those under the Eligible Entity's 15% annual placement capacity.

An Eligible Entity is one that, as at the date of the relevant annual general meeting:

- is not included in the S&P/ASX 300 Index; and
- has a maximum market capitalisation (excluding restricted securities and securities quoted on a deferred settlement basis) of \$300,000,000.

The Company is an Eligible Entity as it is not included in the S&P/ASX 300 Index and has a current market capitalisation of approximately \$2.8 million.

The Equity Securities must be in the same class as an existing class of quoted Equity Securities. The Company currently has only one class of quoted Equity Securities on issue, being Shares.

The exact number of Equity Securities that the Company may issue under an approval under Listing Rule 7.1A will be calculated according to the following formula:

$$(A \times D) - E$$

Where:

A = the number of fully paid ordinary securities (Shares) on issue 12 months before the date of issue or agreement:

- (a) plus the number of Shares issued in the previous 12 months under an exception in ASX Listing Rule 7.2;
- (b) plus the number of partly paid shares that became fully paid in the previous 12 months;
- (c) plus the number of Shares issued in the previous 12 months with approval of holders of Shares under listing rule 7.1 and 7.4;
- (d) less the number of Shares cancelled in the previous 12 months.

D = 10%.

E = the number of Equity Securities issued or agreed to be issued under ASX Listing Rule 7.1A.2 in the 12 months before the issue date or date of agreement to issue that are not issued with the approval of holders of ordinary securities under ASX Listing Rule 7.1 or 7.4.

### 9.3 Technical information required by ASX Listing Rule 7.1A

Pursuant to and in accordance with ASX Listing Rule 7.3A, the information below is provided in relation to this Resolution 6:

#### Minimum Price

The minimum price at which the Equity Securities may be issued is 75% of the volume weighted average price of Equity Securities in that class, calculated over the 15 ASX trading days on which trades in that class were recorded immediately before:

- (a) the date on which the price at which the Equity Securities are to be issued is agreed; or
- (b) if the Equity Securities are not issued within 5 ASX trading days of the date in paragraph 9.3(a), the date on which the Equity Securities are issued.

#### Date of Issue

The Equity Securities may be issued under the 10% Placement Capacity commencing on the date of the Annual General Meeting and expiring on the first to occur of the following:

- (a) 12 months after the date of the Annual General Meeting; and

- (b) the date of approval by Shareholders of any transaction under ASX Listing Rules 11.1.2 (a significant change to the nature or scale of the Company's activities) or 11.2 (disposal of the Company's main undertaking); or
- (c) such longer period if allowed by ASX (10% Placement Capacity Period).

#### Risk of voting dilution

Any issue of Equity Securities under the 10% Placement Capacity will dilute the interests of Shareholders who do not receive any Equity Securities under the issue.

If Resolution 6 is approved by Shareholders and the Company issues the maximum number of Equity Securities available under the 10% Placement Capacity, the economic and voting dilution of existing Shares would be as shown in the table below.

The table below shows the dilution of existing Shareholders calculated in accordance with the formula outlined in ASX Listing Rule 7.1A(2), on the basis of the current market price of Shares and the current number of Equity Securities on issue as at the date of this Notice.

The table also shows the voting dilution impact where the number of Shares on issue (variable A in the formula) changes and the economic dilution where there are changes in the issue price of Shares issued under the 10% Placement Capacity.

| Dilution                       |  |   |   |   |
|--------------------------------|--|---|---|---|
| Number of shares on Issue *    | Number of Shares issued under 10% Placement Capacity | Funds Raised based on an issue price of <u>\$0.014</u><br>(50% decrease in the current share price) | Funds Raised based on an issue price of <u>\$0.027</u><br>(current share price) | Funds Raised based on an issue price of <u>\$0.041</u><br>(50% Increase in the current share price) |
| 102,368,478<br>(Current)       | 10,236,848   | \$143,316   | \$276,395   | \$419,711   |
| 153,552,717<br>(50% Increase)  | 15,355,272   | \$214,974   | \$414,592   | \$629,566   |
| 204,736,956<br>(100% Increase) | 20,473,696   | \$286,632   | \$552,790   | \$839,422   |

\*The number of Shares on issue (variable A in the formula) could increase as a result of the issue of Shares that do not require Shareholder approval (such as under a pro-rata rights issue or script issued under a takeover offer) or that are issued with Shareholder approval under Listing Rule 7.1.

**The table above uses the following assumptions:**

1. Resolution 6 is approved.
2. The current shares on issue are the Shares on issue as at 1 October 2015.
3. The issue price set out above is the closing price of the Shares on the ASX on 1 October 2015.
4. The Company issues the maximum possible number of Equity Securities under the 10% Placement Capacity.
5. The Company has not issued any Equity Securities in the 12 months prior to the Annual General Meeting that were not issued under an exception in ASX Listing Rule 7.2 or with approval under ASX Listing Rule 7.1.
6. The calculations above do not show the dilution that any one particular Shareholder will be subject to. All Shareholders should consider the dilution caused to their own shareholding depending on their specific circumstances.
7. This table does not set out any dilution pursuant to approvals under ASX Listing Rule 7.1.
8. Only shares will be issued under the 10% Placement Capacity and none of the Company's Listed Options at 1 October 2015 are converted.

Shareholders should note that there is a risk that:

- (a) the market price for the Company's Shares may be significantly lower on the issue date than on the date of the Annual General Meeting; and
- (b) the Shares may be issued at a price that is at a discount to the market price for those Shares on the date of issue.

#### **Purpose of Issue under 10% Placement Capacity**

The Company may issue Equity Securities under the 10% Placement Capacity for the following purposes:

- (a) as cash consideration, in which case the Company intends to use funds raised for the acquisition of new resources, assets and investments (including expenses associated with such an acquisition), continued exploration expenditure on the Company's current assets and general working capital ; or
