

**ASX ANNOUNCEMENT**

1 March 2016

**SALES CONTRACTS FOR 3D DIGITAL SIGNAGE AND CONTENT MANAGEMENT SYSTEM**

The Directors of China Integrated Media Corporation Limited (“CIMC” or the “Company”) are pleased to announce that the Company’s wholly owned subsidiary, Marvel Digital Limited, has entered into two sale agreements with an independent customer. The agreements relate to the sale of autostereoscopic 3D digital signage products and the proprietary 3D digital signage content management system. The total contract value equivalent is approximately AUD 7,800,000.

The customer and party to the agreements is a Hong Kong based company engaged in the multimedia and advertising business sectors. They are operating primarily in the Greater China region and Asia, and are currently building an extensive out-of-home media network by using Marvel’s autostereoscopic 3D digital signage.

Pursuant to the sale agreements executed, the autostereoscopic 3D digital signage is expected to be delivered progressively throughout the year and be completed by 31 December 2016, while the content management system will be delivered and installed at the customer’s designated location on or before 31 March 2016.

The Company is pleased to have secured these significant sales contracts, the completion of which is considered to be a key earnings and business growth driver of the Company. The Directors remain confident about the potential to secure additional contracts for the sale of 3D products and services in 2016.

On behalf of the Board,

Yours sincerely,

*/s/ Dr. Herbert Ying Chiu Lee*

Dr. Herbert Ying Chiu Lee  
Director
