TikForce Limited has now completed the "Phase 1 contractor onboarding" roll out with MTM/Metro.

In addition, Tikforce has expanded its agreement with MTM Metro. The new version of the Metro identity validation and access process provides a more complete solution, that streamlines the full onboarding ID process for an additional 750 contractors working on the Metro train network.

Tikforce is now directly engaged with over 1,000 contract suppliers to expand the delivery of the current onboarding system.

Kevin Baum, TikForce CEO, commented "I am very pleased that the TikForce / Metro relationship is strengthening, with a commitment to jointly exploring new projects that may broaden the scope of our collaboration, beyond the original remit. The opportunity to work with a company servicing over 400,000 people per day provides Tikforce with considerable operational depth. The live trial has proven an invaluable experience to meet the challenges of working with large and forward focused clients."
