INTRODUCTION

Manalto Limited (ASX: MTL) (“Manalto” or “the Company”) is pleased to provide an update on the Company’s key goals and strategic focus through Q4 FY17 which will drive Manalto’s revenue goals.

Cloud and Social Media

Increasing adoption of cloud-based applications by businesses, in particular, small-to-medium sized enterprises (SME’s), together with the **increasing business uptake of social media**, are the two most significant drivers that continue to expand Manalto’s addressable market.

Only Certified Cloud Based Social Media Management Solution offered by Odin, AppDirect and WHMCS

Manalto solves an increasing problem for businesses in how they manage an expansive social media presence across multiple social media platforms, by providing a highly scalable cloud-based technology solution. **Most importantly, in a first-to-market move, Manalto offers the only certified cloud based social media management solution integrated with, and available via leading global cloud marketplaces, Odin, AppDirect and WHMCS.**

Manalto has signed agreements with major Hosts and Telco’s

Manalto is successfully building the foundations and is now well positioned to take full advantage of the rapid growth in the use of cloud market places. We have secured relationships with key players, placing Manalto as a leading social media platform in the cloud. In a short period we have secured deals with major Hosters and Telco’s, including but not limited to, Telstra, Globe Telecom and Plesk representing an estimated addressable market of 15m SME’s. Manalto will continue to sign deals with major Hosters and Telco’s and commercialise both Sóshlr and Enterprise.

TWO PRODUCTS

Manalto has two products, which stem from its base technology platform; an **Enterprise Solution** for large disparate businesses and government as well as an SME solution known as **Sóshlr**.

Today the Company is focused on two key distribution channels: **3rd Party distribution via cloud application platforms; and direct sales.**

- **Cloud** – exclusively Cloud based distribution channel partnering with some of world’s largest and leading cloud marketplaces, and Host/ Telco’s Partners offering Sóshlr for resale to SME’s.
- Sóshlr, Manalto’s SME product, is **currently the only certified social media management solution integrated in Odin, AppDirect and WHMCS** – three leading global cloud marketplaces servicing major Hosters and Telco’s who service and sell software to **more than approximately 40 million SME’s businesses.**

- **Direct sales** – targeting large, decentralised organisations across broader market sectors, including, but not limited to, media and entertainment, real estate, automotive, hospitality and health, in addition to the franchise industry
- **Cloud** - Manalto Enterprise Solution is now cloud enabled and will be made available through cloud marketplaces over the next 6 -12 months as an increasing number of corporates transition to purchasing software through the cloud.
