ASX Announcement

FFG's Subsidiary iCandy to acquire games studio Inzen

Subsidiary of Fatfish Internet Group Ltd (ASX:FFG) and leading mobile games studio group iCandy Interactive Limited (ASX:ICI) has announced that it has entered into a termsheet to acquire a 100% interest in Singapore-headquartered Inzen Studio Pte. Ltd. ("Inzen"), a mobile game company and eco-system developer.

Prior to this, Inzen had secured investments from major institutional investors across Asia, namely Incubate Fund (Japan), Hatcher (Singapore) and the Global Mobile Game Confederation (China). It had also secured investment from strategic partner, Baidu Games. Baidu Games is a wholly-owned subsidiary of Baidu Inc, one of the three largest Internet companies in China with a current market capitalisation of US\$63.75 billion (NASDAQ: BIDU).

Inzen has two core strategies that centre around the innovation of mobile games across different cultures. As a mobile game company, Inzen develops games that introduce breakthrough gameplay experiences to players across cultures and partners with publishers in key territories to operate them (such as Baidu Games for China). As an ecosystem developer, Inzen works with strategic partners (such as Baidu Games and Incubate Fund) to establish programmes to incubate new game companies in Southeast Asia and co-publish their games across Southeast Asia and China.

Inzen's founders are games industry veterans and were part of the core team at the Singapore-MIT GAMBIT Game Lab, an organisation formed and funded by the Singapore Government, in collaboration with the Massachusetts Institute of Technology (MIT) to incubate the next generation of games industry talents in Singapore, fund research in games and develop breakthrough game prototypes for commercialisation. Inzen's CEO, Gerald Tock, was the Head of Operations at Game Lab. In addition, Gerald had operated two previous indie-game companies from startup through to commercialisation (including the indie-hit game, [Toribash](#)).

iCandy is proposing to acquire 100% of the issued and voting capital of Inzen, subject to agreement to binding documentation between iCandy and Inzen. The proposed acquisition is valued at SG\$ 6 million, to be satisfied in ordinary shares of iCandy at a issuance price of 5-day Volume Weighted Average Price (VWAP) of iCandy's shares at closing of the transaction. There will be no change in shareholding control of iCandy. The proposed acquisition will also be subject to iCandy obtaining all regulatory, shareholder and other approvals if and as required under the ASX Listing Rules and applicable laws.

The Board of iCandy believes the proposed acquisition, if successful, will bring synergies across the game development and publishing businesses of both iCandy and Inzen. The iCandy Board also believes the acquisition will provide it with new avenues to publish games in the lucrative smartphone games market of China. It will also allow Inzen to leverage upon iCandy's network of more than 17 million mobile-gamers in Asia Pacific for publishing, as well as iCandy's studio network for mentorship, co-publishing options and incubation initiatives.

iCandy will make further announcements to the market in due course in relation to the proposed acquisition.
