## **About Marindi Metals Limited**

Marindi Metals is an emerging ASX-listed zinc company which is executing an exploration and growth strategy designed to take advantage of what most commodity analysts predict will be a significant supply shortage of this critical industrial metal over the coming years.

The two main projects underpinning Marindi's development strategy are the Newman Base Metal Project, located 60km south-west of Newman in WA's Pilbara region, and the McArthur River tenements in the Northern Territory, where it owns 100% of the Caranbirini project and is in an exploration joint venture with global miner Teck at Yalco (Teck earning 70% by spending \$3.5m before August 2018).
