

ASX Announcement  
ASX Code: DUB

29 September 2016

## **Dubber and MyNetFone confirm agreement to enable cloud call recording for Australian landline customers**

On March 23<sup>rd</sup> 2016 Dubber Corporation Limited (ASX: DUB) (“Dubber”), announced that a Memorandum Of Understanding (MoU) had been agreed with MyNetFone, a subsidiary of MNF Group, to deliver a world-first cloud based call recording solution on a large scale for users of traditional landlines.

The parties are now pleased to report that the terms of that MoU have been ratified following the completion of product development and network engineering by both parties which enables the service to be delivered via MNF’s proprietary infrastructure.

As previously announced, the result is a world first cloud based solution which opens up the market for Australian fixed line PSTN and ISDN users without the requirement for additional lines or hardware.

The first customers have already been engaged and the service will be available in October 2016.

### **About MyNetFone & MNF Group**

MyNetFone is Australia’s largest provider of hosted voice and data communications services for business, enterprise and residential users. Its parent company MNF Group owns and operates Australia’s largest VoIP network and a global Tier 1 voice carrier network.

MyNetFone is part of the MNF Group Limited, an integrated telecommunications software and network operator, specialising in IP voice communications. The Group operates a global IP voice network carrying over 6 billion voice minutes per annum, with Points of Presence (POPs) in Los Angeles, New York, Hong Kong, Singapore, London, Frankfurt, Sydney and Auckland. Domestically, the Group operates the largest, fully interconnected IP Voice network in Australia.

MNF Group has a reputation for quality, value and innovation, being the recipient of numerous awards including the Forbes Asia’s 200 Best Under a Billion (2014 & 2015), Deloitte Technology Fast 50 (2008, 2009, 2010, 2012, 2013, 2014) and CeBIT Outstanding Project Award (2013).
