Production and Growth
Disclaimer & Competent Person's Statement

General Disclaimer

- This presentation has been prepared by Pantoro Limited ("Pantoro" or the "Company"). It should not be considered as an offer or invitation or inducement to subscribe for or the purchase of any securities in the Company. This presentation may contain forecasts and forward looking statements.
- Such forecasts, projections and information are not a guarantee of future performance, and involve unknown risks and uncertainties. Actual results and developments may differ materially from those expressed or implied.
- Pantoro has not audited or investigated the accuracy or completeness of the information, statements and opinions contained in this presentation. Accordingly, to the maximum extent permitted by applicable laws, Pantoro makes no representation and can give no assurance, guarantee or warranty, express or implied, as to, and takes no responsibility and assumes no liability for, the authenticity, validity, accuracy, suitability or completeness of, or any errors in or omission from any information, statement or opinion contained in this presentation.
- This overview of Pantoro does not purport to be all-inclusive or to contain all information which its recipients may require in order to make an informed assessment of the Company's prospects. You should conduct your own investigation and perform your own analysis in order to satisfy yourself as to the accuracy and completeness of the information, statements and opinions contained in this presentation before making any investment decision.

Compliance Statements

- **Halls Creek Project – Exploration Targets, Exploration Results and Mineral Resources** – The information in this report that relates to Exploration Targets, Exploration Results and Mineral Resources is based on information compiled by Mr. Scott Huffadine B.Sc. (Hons) MAusIMM who is an employee of Pantoro Limited. Mr. Huffadine has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a competent person as described by the 2012 Edition of the “Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves”. Mr. Huffadine consents to the inclusion in this report of the matters based on his information in the form and context in which it appears. Mr. Huffadine is eligible to participate in short and long term incentive plans of and holds shares and options in the Company as has been previously disclosed.

- **Halls Creek Project – Ore Reserves** – The information in this report that relates to Ore Reserves is based on information compiled by Mr. Paul Cmrlec (B. Eng (Mining) (Hons)),MAusIMM who is the Managing Director of Pantoro Limited. Mr. Cmrlec has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a competent person as described by the2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves”. Mr. Cmrlec consents to the inclusion in this report of the matters based on his information in the form and context in which it appears. Mr. Cmrlec is eligible to participate in short and long term incentive plans of and holds shares and options in the Company as has been previously disclosed.

- **Halls Creek Project – Nicolsons Mine – Mineral Resources & Ore Reserves** – The information is extracted from Pantoro’s 2016 Annual Report which is available to view on Pantoro’s website (www.pantoro.com.au). The company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of estimates of Mineral Resources or Ore Reserves, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The company confirms that the form and context in which the Competent Person’s findings are presented have not been materially modified from the original market announcement.

- **Halls Creek Project – Open Pit Mineral Resources & Ore Reserves** - The information is extracted from the report entitled ‘Open Pit Mining to Expand Nicolsons Production’ created on 12 May 2016 and is available to view on Pantoro’s website (www.pantoro.com.au). The company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of estimates of Mineral Resources or Ore Reserves, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The company confirms that the form and context in which the Competent Person’s findings are presented have not been materially modified from the original market announcement.
Rapidly Growing Gold Production Company

• Pantoro is a new gold production company which owns 100% of the Nicolsons Gold Project in Western Australia.

• Rapid growth in production is underway and planned to continue in the coming year with profit as key driver. Works to deliver growth are well advanced.

• Excellent financial metrics which improve as growth targets are achieved.

• Excellent hands-on management and operations team focussed on profit and margins.

Management
Paul Cmrlec – Managing Director
Scott Huffadine – Operations Director
David Okeby – Company Secretary
Scott Balloch - CFO

Board
Paul Cmrlec – Managing Director
Scott Huffadine – Operations Director
Michael Jefferies – Non-Executive Chairman
Kyle Edwards – Non-Executive Director
Corporate Overview of Pantoro

### Share Price

- Share Price (6/10/16): 16.0 cps
- Ordinary Shares: 739 million
- Listed Options: 36 million
- Other options and rights: 17 million
- Fully Diluted: 792 million
- Market Capitalisation: $115 million
- Cash and gold (30/9/16): $12.1 million
- Debt: 8,179 oz Au
Nicolsons Gold Mine
Halls Creek Project

- 100% owner of the Halls Creek Project, which includes the Nicolsons Gold Mine
- September 16 Quarter – 7,372 Oz produced – at pre-commencement capacity and continuing to expand production.
- Open pit mining fully permitted with works underway.
- High Grade Reserve (Nicolsons Proven Reserve @ 9.97g/t including metallurgical recovery). Produced at +9g/t for last two months.
- Excellent facilities in Halls Creek
- Mine development, exploration and growth focus is continuing to deliver
Significant Catalysts

INITIAL GROWTH
TARGET ~50-60kozpa, AISC < $1,000/oz

- **Sep 14 – Feb 15**
  - Feasibility @ 30Kozpa
  - Bank Finance Project Permitting

- **Sep 15 – Jul 16**
  - Production Ramp Up
  - Developed stocks: 62Kt @ 11.2g/t for 22.5KOz
  - Reserve Update

- **Q3 FY17**
  - Ramping to Expanded Capacity
  - +200KtPa, 50,000 Oz Pa.
  - Works underway

- **Q2 FY17**
  - Open Pit mining Underway

- **Q3/Q4 FY 17**
  - Increased UG Output
  - Underground options Rowdies/Wagtail
  - Additional feed source options
  - Regional exploration in full swing

- **FY 2017**
  - Continued Extensional Drilling at Nicolsons

Acquisition of Nicolsons and 12 hole drill program May-Aug 2014
• Ongoing drilling returning high grades at depth
• Developing new platforms that will allow depth extension across the resource
Mineral Resource and Ore Reserve  
Last Upgrade May 2016

Changes include:

- Mother Lode Resource
- Remodelling developed zone
- Mining Depletion

Mining has delivered massive grade and ounce overcalls compared with the original resource

- >100% resource-reserve conversion ratio to date

2170 Level – Darcy Lode
Rowdies and Wagtail: A Repeat of Nicolsons?

• Only 1.5 km south of Nicolsons
• Reserve 96.5kt @ 5.55g/t
• 9 month life with positive cash flow from month 2
• Fully permitted, contractor mobilised to site with works underway
• Ore mining from November 2016
• Outstanding infill drilling results including*:
  ➢ 13 m @ 17.66 g/t Au including 8 m @ 26.97 g/t Au.
  ➢ 3 m @ 12.42 g/t Au.
  ➢ 6 m @ 6.20 g/t Au.
  ➢ 12m @ 7.2 g/t Au.
  ➢ 2m @ 16.43 g/t Au.
  ➢ 3 m @ 44.34 g/t Au, including 1 m @ 130 g/t Au.
  ➢ 4 m @ 8.10 g/t Au.

*Announced to ASX on 29/8/2016 and 22/9/2016
Plant is currently operating well, has achieved and exceeded feasibility expectations

Constrained by ore feed during the ramp-up phase

Expansion well advanced – now capable of operating at ~22tph (~185,000 tpa)

Oxide material from open pits to be processed from November 2016

August 16 AISC $1077/Oz, targeting <$1,000/Oz in the near term

Average 97.7% recovery for last quarter
Unlocking the Future
• Ongoing drilling returning high grades at depth
• Developing new platforms that will allow depth extension across the resource
Archer Fault Exploration

- Underground development and drilling has defined the Archer Fault
- Spatial control on mineralisation
- Strong zone mapped in Wagtail pits
- Effectively untested north and south of known deposits
Understanding the Structure

High grade zones east of Forrest Structure

Hall Lode

Johnston Lode
