COCA COLA REINSTATES ORDERS WITH G8 COMMUNICATIONS LIMITED ("G8C")

- **Coca Cola orders devices for further expansion into Coca Cola Freestyle Vending Machines.**
- **G8C's product provides wireless communication solutions to Coca Cola vending machines.**
- **Coca Cola has indicated it's aiming for several hundred thousand installations within its Freestyle Vending Machine division, being an addressable potential market of US \$25m.**
- **The G8C units will provide Coca Cola the latest 4G technology which will assist with upgrade of vending hardware.**

G8 Communications Limited ("G8C") is pleased to announce via its US based 100% owned subsidiary Connected IO ("CIO"), that it has received a new purchase order from Coca Cola (via its contract manufacturer Sanmina) to provide its Machine Connect Modem (Lt1002) for use in Coca Cola's Freestyle Vending Machines.

Coca Cola is a Fortune 500 company in the United States with approximately 2.5 million vending machines currently.

The Purchase Order from Sanmina indicates the roll out of the Coca Cola Freestyle Vending Machine using the G8C wireless modem with an estimated potential for installations in up to 250,000 machines in the coming years in the USA alone.

G8C CEO Yakov Temov said "CIO continues to work closely with Sanmina to provide the latest wireless communication solutions available. Our ongoing association with Sanmina provides the company with huge confidence as we continue to develop the Coca Cola relationship".

About G8 Communications

G8 Communications is US based wireless technology innovator and manufacturer operating in the multi billion dollar Internet of Things (“IoT”) space. G8C specialises in machine to machine (“M2M”) connectivity, providing hardware solutions for some of the world’s largest companies including Coca Cola and Verizon. G8C’s software solutions also include a customised cloud management interface and variety of support services. Cisco predicts there will be 50 billion connected devices by 2020.
