

## ASX ANNOUNCEMENT

Company Announcement Office  
ASX Limited

**31 January 2017**

### **TikForce signs commercial agreement with leading mining consultancy**

#### **Highlights**

- **TikForce signs commercial agreement with ResourcesWA, a mining consultancy with operations in Australia, South Africa and Chile**
- **The first of multiple potential project is to verify credentials of up to 400 shut down specialist**
- **The agreement provides a strong foundation for both companies to expand and grow business in the consistent resource shutdown & maintenance sector**

**TikForce Limited** (ASX: TKF, 'the Company') is pleased to announce that it has entered a commercial agreement with ResourcesWA utilising the TikForce platform.

ResourcesWA delivers specialist technical, operational and financial consulting services and has expanded into shutdown and maintenance services. TikForce is providing a tiered candidate collection, screening, and verification solution to meet the time-critical and regulatory requirements involved in mine site shutdowns.

Following completion of documentation and identification by Tikforce, it is proposed that the first of multiple operational exercises and completions will be completed in the first quarter of 2017.

ResourcesWA Director Gres Vukman commented, "we are thrilled to be partnering with TikForce in providing ResourcesWA and our clients with a nimble, low-cost verification solution. The scope and nature of our contracts required a solution that allows for the "Catch All" of relevant credentials for a large number of prospective candidates. The TikForce platform provides for multiple levels of verifications, with a simplistic engagement portal."

The TikForce platform will reduce the costs and administration associated with ensuring candidates meet the requirements for each position and importantly provide ResourcesWA with a point of difference to attract new clients.

TikForce CEO Kevin Baum commented “we are very pleased to announce a strategically influential contract in the mining resource & maintenance sector. This an extremely important area of business to the company as it showcases cost savings and time efficiencies of the TikForce workforce compliance platform.

We are confident that with this project now commencing, it will trigger other companies in this sector will taking advantage of the TikForce platform shortly.”

#### **About ResourcesWA** <https://www.resources-wa.com.au/>

ResourcesWA is focused on delivering an approach that closes the divide between technical, operational and financial consulting, providing advanced asset development and operations solutions to developers and operators in the Mining and Energy Sectors. The business is expanding into the delivery of shutdown and maintenance services to assist in furthering our support to clients in operational improvement.

The head office and founding location of ResourcesWA, Western Australia, is leading the globe in technological applications, advanced communications and remote tasking and monitoring, making it our centre of excellence for multi-asset and operational efficiency.

ResourcesSA, based in Pretoria South Africa, provides a unique and specialised understanding of underground mining operations across a plethora of mining techniques.

ResourcesLA, based in Santiago Chile, is our centre of excellence for mineral processing, with a focus on water and tailings management, energy efficiency, control and process optimisation, sustainability and mineral economics.
