## Breakaway Research Report Released - Connected IO Launches New Company Website

---

Connected IO Limited ("CIO") is delighted to announce it is featured in a research report titled "Delivering SIM card connectivity to devices and hardware" by Breakaway Research which has been released with a copy available on the Company's website under the Investor Relations section at: [www.connectedio.com.au/broker-reports/](http://www.connectedio.com.au/broker-reports/)

It is also pleased to officially announce the launch of its newly designed website which is focused to create a superior interface with its growing range of customers and stakeholders and to promote online sales of the Company's products.

The new site which also reflects the Company's change of name as previously announced on 5 December 2016 is now available at: <http://www.connectedio.com.au>.

At CIO, our goal for the new website is to provide our clients, customers, shareholders, analysts and other visitors with a user friendly and comprehensive website to help them better understand the rapidly expanding industry and the company.

The new innovative site will offer more functionality and easier navigation with more in-depth information about M2M (Machine-to-Machine) and CIO's growing influence and sales pipe-line in this industry.

For personal use only

## About Connected IO

Connected IO Limited has its operations based in Silicon Valley, in the USA. Its business is a wireless technology innovator and manufacturer operating in the multi-trillion-dollar “IOT” (Internet of Things) sector. CIO specializes in machine to machine (“M2M”) connectivity, providing hardware and software solutions to some of the world’s largest companies – including Coca Cola, Verizon and AT&T. CIO’s software solutions also include a customised cloud management interface and a variety of support services. Cisco predicts there will be 50 billion connected devices by 2020.
