DRILLING ASSAY UPDATE

Latin Resources Limited (ASX: LRS) (“Latin” or “the Company”) provides an update on the Catamarca drilling program assays. There has been a delay in receiving assay results due to transporting of the samples from the ALS laboratory in Mendoza to the ALS lab in Vancouver. The samples are prepared by the ALS in Mendoza then flown to Vancouver for final analysis.

The samples have now been received by the Vancouver laboratory and assaying has commenced. The results are expected to be released to Latin Resources in the coming days.
