TRANSCENDENCE TECHNOLOGIES LIMITED MARCH 2017 QUARTERLY ACTIVITIES REPORT

The Board of Transcendence Technologies Limited ('Transcendence' or 'the Company') provides the following report on its activities and operations for the quarter ended 31 March 2017.

E-Collate

The Company is currently developing a product (**E-Collate**) for use in the individual Self-Managed Superannuation Funds (**SMSF**) industry. The SMSF industry alone controls over \$500 billion in assets and is a sector of the wider heavily regulated super fund industry which holds over \$2 trillion in assets.

E-Collate is an innovative product for document aggregation to streamline the administration of individual Self-Managed Superannuation Funds. E-Collate utilises unique proprietary software and interfaces to enable rapid arrangement, secure storage and efficient export of compliance sensitive documentation.

Work carried out during the reporting quarter includes:

- **Modularisation of Web Platform**
A highly modular web platform suitable to be used on an ongoing basis and flexible enough to snap in and out revisions of the major functionality of the E-Collate app has been developed. Work on the Web Platform began toward the end of CY2016 and is a core element of the system that will enable the Company to rapidly build out E-Collate's industry specific features.
- **User Experience Improvement**
Customer experience in the E-Collate app has been improved, adding help functionality, feedback and bug reporting. In addition, user control and streamlining for common actions in the app has been achieved. This has included copywriting and partial restructuring of the app to align with required optimisations.
- **Prototype Testing and Product Optimisation**
Simultaneous with technical development, the underlying E-Collate app functionality has been extensively tested and simulated for audit and

accounting documentation collections using manual and semi-automatic methods. Further, as the software systems have been improving, they have been tested by current and former SMSF trustees and members at each stage.

- **App Development Resource Selection**

Communication with major software houses has been maintained to ensure that they are aware of the initial development of the product and the Company selects the optimal partner to assist with the development of generation 2 of the product, as it is commercialised.

Post the end of the reporting quarter, work on the secure back-end database with the Microsoft login system and the E-Collate front-end web app has been completed. These major parts are now fully functional on the live website which means that live field trials can now take place.

Accordingly, the Company is now primed to launch a strategy for connecting with accounting and auditor providers in parallel to the ongoing technology development. It is estimated that surveys and presentations to smaller accounting providers will occur during the following quarter. From there, it is anticipated that formal arrangements concerning the deployment of the app will be entered into.

Corporate

During the quarter, the half-year review for the six months ended 31 December 2016 was completed and the Company lodged its interim report with ASX on 24th February 2017. The Company continues to manage its cash reserves carefully and in a manner that matches the commercialisation phase of E-Collate.

- Ends -

For and on behalf of the Board,

A handwritten signature in black ink, appearing to read "Sarah Smith", is positioned above the printed name.

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
