

ASX ANNOUNCEMENT

ASX: RBO | 20 June 2017

# First International Purchase Order Received & Distribution Update

## HIGHLIGHTS

- One of Europe's largest 3D printer suppliers, SOTEC3D, kicks off Robo's European expansion placing first purchase order for Robo printers
- Ongoing discussions with distributors and re-sellers across more than 20 countries
- Robo international sales team now actively pursuing orders coinciding with increased marketing initiatives
- Recently announced funding allows ramp up of stock purchases to meet demand

Robo 3D Limited ("Robo" or the "Company"), the emerging company delivering award-winning products for the desktop segment of the 3D printing industry, is pleased to advise it has received its first order for Robo printers from its first major European distributor, SOTEC3D, one of Europe's largest 3D printer suppliers across 3D printers, filaments, and accessories.

Robo is pleased that SOTEC3D has strengthened its commitment to Robo by now adding Robo products for sale across its European sales channels. Since the start of the calendar year, Robo has entered key international markets including Canada and Mexico, and is pleased with the progress being made on its international expansion efforts since the appointment of International Sales Director, Tomasz Wykowski.

As previously advised, Robo announced that it had received pre-orders of over A\$800,000 for the Robo R2, which excluded sales to international wholesalers (see ASX announcement "Significant Pre-Orders for Robo R2" on 11 May 2017).

Further, Management is pleased to confirm that the Company continues to advance discussions with distributors and re-sellers across more than 20 countries, and is confident of securing additional distribution channels in the coming months.

Commenting on the announcement, VP of Revenue Randy Waynick stated:

*"Receiving the first purchase order from our European distributor, SOTEC3D, is a significant milestone and a credit to our international sales team. Based upon demand and interest from international markets, the Company is pressing ahead with expanding its international footprint in the global 3D printing industry at an accelerated pace. The level of interest we are receiving from distributors and re-sellers from more than 20 countries is exceptional. We are excited and confident about Robo's potential in the European and Asian markets."*

## About Robo 3D Limited

Robo 3D Limited (**ASX: RBO**) is a company based in California, USA, focused on the design and distribution of 3D printers and associated products for the desktop segment of the 3D printing industry (**Robo**).

The company was founded in 2012 by a group of students from San Diego State University and delivered its first model to customers in 2013. Since then, Robo has grown into a leading brand in the desktop segment of the 3D printing industry, gaining significant traction online and through retail partners including Amazon and Best Buy. Robo commenced trading on the ASX on 22 December 2016.
