Property portfolio

30 Pirie Street, Adelaide, South Australia

Property overview and strategy

- A grade office property that is centrally located in Adelaide's CBD, comprising 23 levels of office space
- Building predominantly leased to Telstra, who have occupied the property since its construction in 1987
- Underwent an extensive c.\$19 million base building refurbishment in accordance with the terms of a new 11 year lease entered into with Telstra in 2012
 - Works included lobby refurbishment, lift, mechanical, electrical and fire service upgrades, toilet and common amenity refurbishments, construction of 'end of trip' facilities etc.

Strategy: Maintain strong tenant relations with Telstra to understand changes to its business which may alter ongoing or future tenancy requirements. Lease the currently vacant top two floors (levels 22 and 23), which have been fully refurbished.

Property portfolio

10 Valentine Avenue, Parramatta, New South Wales

Property overview and strategy

- A grade office property comprising 14 levels of office space, located approximately 100 metres from the Parramatta Bus and Railway Interchange and Westfield Parramatta
- Adjacent to the property is a six level freestanding car park providing parking for 286 vehicles. The property and adjacent car park form an island site with no adjacent properties
- Predominantly leased to the NSW State Government⁽¹⁾ who have occupied the property since construction in 1987
- Limited backfill arising from new commercial developments underway and site competition from residential development is expected to maintain downward pressure on vacancy in the Parramatta market.

Strategy: Refurbish the main foyer and bathrooms and construct new 'end of trip' facilities, improving property amenity. Combined, these works will improve the tenant experience and aid the possibility of future lease renewals. Continue to progress the design and leasing strategy for an office development above the freestanding carpark, subject to the implementation of the Parramatta CBD Planning Proposal. Under this proposal, a ~25,000sqm office development may be permitted on the site.

Property portfolio

5 Eden Park Drive, North Ryde, New South Wales

Property overview and strategy

- A grade office property comprising three levels of office accommodation and a hi-tech production and warehouse area in close proximity to the Macquarie Park railway station on the Sydney Metro Northwest railway link.
- Purpose built for the specific requirements of the major tenant, Contract Pharmaceutical Services Australia (CPSA), which occupies all of the production and warehouse area, and a portion of the office space
- Ongoing withdrawal of office space for conversion to alternative uses has the potential to keep vacancy low into the foreseeable future, with the only substantial supply likely to be substantially pre-committed

Strategy: Continue with a proactive property management strategy targeted at addressing tenant retention and current vacancy. As the Property is a relatively new construction the property services and amenities remain functional and presentable.

Property portfolio

32 Phillip Street, Parramatta, New South Wales

Property overview and strategy

- B grade office building located within the northern portion of the Parramatta commercial precinct in close proximity to the Church Street retail strip
- Fully refurbished in 2013 under the terms of a new 10 year lease to GE.
- Located on Parramatta City Council's proposed 'Civic Link', a public space and cultural spine connecting Parramatta CBD to the river.

Strategy: As the Property was recently fully refurbished, there are no near term capital requirements. Whilst there is no immediate intention given the remaining lease term to GE, the Fund will, in time, investigate the feasibility of alternate redevelopment opportunities, given the changing nature of surrounding development, including residential conversion. Whilst the Fund does not intend to undertake any residential development, it may consider seeking development consent prior to disposal if sufficient value uplift could be achieved by doing so.

Property portfolio

468 St Kilda Road, Melbourne, Victoria

Property overview and strategy

- B grade office building comprising 13 levels, with refurbishments carried out progressively since 2010. St Kilda Road is one of the largest non-CBD office markets in Australia located approximately 3 kms to the South of the Melbourne CBD providing cost effective office accommodation
- There have been no new office developments in the St Kilda Road office market since the mid 1990's and some office buildings in this market have been withdrawn for residential conversion. This withdrawal continues to keep the vacancy within the market low whilst demand for smaller tenancies keeps the leasing market buoyant

Strategy: Continue with a proactive property management strategy, addressing tenant retention and improving WALE. To address current and pending vacancy, the Fund will consider subdivision to attract smaller tenants and further diversify the lease expiry profile. Whilst the Fund considers the ongoing commercial use as currently most suitable, having regard to the fact that residential development in the surrounding area has recently increased, the Fund will continue to monitor the highest and best use and the feasibility of potential redevelopment opportunities.

Property portfolio

241 Adelaide Street, Brisbane, Queensland

Property overview and strategy

- B grade office building also known as "The Brisbane Club Tower" located within the CBD core, being adjacent to Post Office Square and within close proximity to central railway station. ⁽¹⁾
- Progressively refurbished since 2012, including converting a noise attenuation floor, previously used as storage space, into office space and converting ground floor office space into a retail use
- In Brisbane, small tenants remain particularly active, with tenants moving from the fringe to the CBD where better value is now apparent

Strategy: Continue with a proactive property management strategy, addressing tenant retention and improving WALE. To address current and pending vacancy, the Fund will consider subdivision to attract smaller tenants and further diversify the lease expiry profile. Undertake a lift upgrade and progressively refurbish bathrooms and lift foyers to enhance presentation and tenant amenity.

Property portfolio

2 Eden Park Drive, North Ryde, New South Wales

Property overview and strategy

- Modern industrial complex comprising 16 attached units incorporating office and warehouse components. The three level office areas are at the front of the property with the warehouse at the rear, split over two levels
- Located in the Macquarie Park business park, within close proximity to the Macquarie Park railway station on the Sydney Metro Northwest railway link
- The unique nature of the property being predominantly small quality offices attached to high clearance warehouse has meant the property has sustained a relatively high level of occupancy since construction

Strategy: Continue with a proactive property management strategy targeted at addressing tenant retention and improving the Property's WALE.

Property portfolio

64 Northbourne Avenue, Canberra, ACT

Property overview and strategy

- B grade property comprising six levels of office accommodation
- Located on a prominent corner within the Canberra CBD within close proximity of the prime retail precinct and the City Bus Interchange
- The main station of the Canberra Light Rail Network, currently under construction, will be adjacent to the building
- The vacant space within the property has been subdivided and fitted out and base building services upgraded to ensure a 4.5 stars NABERS energy rating

Strategy: To capture higher rents, satisfy tenant demand, and diversify the lease expiry profile, the Fund will consider subdividing floors to attract smaller tenancies. Actively pursue a diversified mix of smaller tenants so as to avoid a future lumpy expiry profile.
