NOTES TO THE PRELIMINARY FINAL REPORT
For the year ended 30 June 2017

NOTE 1: BASIS OF PREPARATION OF THE PRELIMINARY FINAL REPORT

This Preliminary Final Report has been prepared in accordance with ASX Listing Rule 4.3A and the disclosure requirements of ASX Appendix 4E.

This report has been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board (including Australian Interpretations) and the *Corporations Act 2001*.

As such this Preliminary Final Report does not include all the notes of the type included in an annual financial report and accordingly, should be read in conjunction with the annual report for the year ended 30 June 2017, and with any public announcements made by the Company during the reporting period in accordance with the disclosure requirements of the *Corporations Act 2001*.

Syntonic Limited is a company limited by shares. The Preliminary Final Report is presented in Australian currency. Syntonic Limited is a for-profit entity.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions to which they apply. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards. Material accounting policies adopted in the preparation of this financial report are presented below. They have been consistently applied unless otherwise stated.

Except for cash flow information, the financial report has been prepared on an accruals basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

Reverse Acquisition

On 8 July 2016, Syntonic Limited completed its acquisition of 100% of the issued shares of Syntonic Wireless, Inc. The acquisition has been accounted for as a reverse acquisition under AASB 3 *Business Combinations* because, as a result of the acquisition, the former owners of the legal subsidiary (Syntonic Wireless, Inc.) obtained accounting control of the legal parent (Syntonic Limited). Whilst the acquisition does not meet the definition of a business combination in accordance with AASB 3 *Business Combinations* (as Syntonic Limited is deemed for accounting purposes not to be a business), the acquisition has been accounted for as a share-based payment transaction using the principles of AASB 3 *Business Combinations* and AASB 2 *Share-Based Payment*.

Accordingly, the consolidated financial statements for the year ended 30 June 2017 are issued under the name of the legal parent (Syntonic Limited) but are presented as a continuation of the financial statements of the legal subsidiary (Syntonic Wireless, Inc.), with the assets and liabilities of the legal subsidiary being recognised and measured at their pre-combination carrying amounts rather than their fair values. The comparative information included in these financial statements, therefore represents the results and balances of Syntonic Wireless, Inc.

As the functional currency of Syntonic Wireless, Inc. is US dollars, results and balances have been translated in accordance with the requirements of AASB 121 *The Effects of Changes in Foreign Exchange Rates* to present the consolidated financial statements in Australian dollars.

Additionally, as a result of the financial statements being prepared as a continuation of the legal subsidiary, the Group has updated the classification of expenses to make the Statement of Profit or Loss and other Comprehensive Income more relevant to the users of the financial report.

Share Based Payments

Equity-settled share-based payments are provided to officers, employees, consultants and other advisors. These share-based payments are measured at the fair value of the equity instrument at the grant date. Fair value is determined using the Black Scholes option pricing model. Further details on how the fair value of equity-settled share based payments has been determined can be found in Note 15.

NOTES TO THE PRELIMINARY FINAL REPORT

For the year ended 30 June 2017

NOTE 1: BASIS OF PREPARATION OF THE PRELIMINARY FINAL REPORT (CONTINUED)

The fair value determined at the grant date is expensed on a straight-line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest. At each reporting date, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss over the remaining vesting period, with a corresponding adjustment to the option reserve.

Equity-settled share-based payments may also be provided as consideration for the acquisition of assets. Where ordinary shares are issued, the transaction is recorded at fair value based on the quoted price of the ordinary shares at the date of issue. The acquisition is then recorded as an asset or expensed in accordance with accounting standards.
