LETTER FROM THE CHAIRMAN AND CEO

Dear Shareholders,

On behalf of your Board of Directors, we are pleased to present LiveTiles' Annual Report for the financial year ending 30 June 2017.

LiveTiles is a fast-growing, early-stage software company headquartered in New York City. We provide digital workplace software to organisations around the world. Our software improves employee collaboration, communication and productivity.

The 2017 financial year was another year of very strong growth for LiveTiles. Our annualised subscription revenue (**ASR**) grew by 293% in the 2017 financial year, driven by a growing sales and marketing footprint, ongoing product innovation and strengthening brand awareness. LiveTiles has now achieved six consecutive quarters of record ASR growth.

We finished the 2017 financial year with 366 paying customers, of which 202 were added during the year, representing an annual increase of 123%. Our customer list spans all major regions and industries and includes many of the world's leading brands.

Our commitment to ongoing product innovation has continued, with three new products introduced in the 2017 financial year: LiveTiles Cloud, LiveTiles MX and LiveTiles for SAP Software. In addition to expanding LiveTiles' addressable market, these new products provide us with an opportunity to upsell additional products to existing customers.

Subsequent to year-end, LiveTiles successfully raised \$12 million via a share placement of \$11 million to sophisticated and professional investors and a share purchase plan of \$1 million. The placement was heavily oversubscribed, with strong demand from existing and new institutional and high net worth investors. The funds raised will be used to expand the Company's sales reach, and drive global customer and revenue growth, as LiveTiles further invests in its sales, marketing and customer success teams.

In recent months, we have welcomed two new non-executive directors to the LiveTiles Board: Andy McKeon (April 2017) and Cassandra Kelly (September 2017).

Andy McKeon brings over 25 years of global marketing experience to LiveTiles. In his current role as Global Accounts and Agencies for Facebook and Instagram, Andy's team manages relationships with Facebook's most important customers. Prior to joining Facebook, Andy was Creative Director at Apple where he worked under Steve Jobs and helped launch iPhones, iPads, Macs and iOS software.

Cassandra Kelly has over 22 years of experience in leadership and executive roles at global organisations, including GMAC Commercial Mortgage, Deutsche Bank, HSBC and McKinsey. Cassandra is the founder of Pottinger Global, a global advisory firm combining expertise in strategy, innovation, financial analysis, M&A advisory and big data analytics. Cassandra holds a number of director and Chair positions and is the current Chair of Treasury Corporation Victoria and a former director of Flight Centre. Cassandra was voted one of Australia's Top 10 Chairs in 2017 by The Australian.

We have no doubt that both Andy and Cassandra will make valuable contributions to LiveTiles' global growth ambitions.

In conjunction with Cassandra Kelly joining the Board, Michael Hill stepped down as a non-executive director with effect from 5 September 2017. On behalf of the entire LiveTiles Board, we would like to express our sincere gratitude to Michael Hill and acknowledge the invaluable contributions he has made during his 3-year tenure, including his assistance with the Company's capital raising and ASX listing in 2015.

LETTER FROM THE CHAIRMAN AND CEO

Growth Strategy

Our growth strategy is focussed on the following four paths:

1. **Direct sales and marketing:** We are continuing to invest in growing our direct sales and marketing teams across the United States, United Kingdom, Europe and Australia to accelerate our customer and revenue growth.
2. **Growing our partner channel:** LiveTiles sells through partners to broaden our reach and accelerate our growth. We have achieved pleasing growth in our partner channel, with 67 transacting partners as at 30 June 2017, up 2.4x in the year.
3. **Close alignment with Microsoft:** LiveTiles' strategic relationship with Microsoft continues to strengthen, with multiple co-marketing initiatives contributing to revenue and pipeline growth.
4. **Increasing penetration with existing customers:** we have a significant opportunity to increase our existing customers' usage of LiveTiles software after their initial purchase. As at 30 June 2017, there were more than 2.5 million employees within our existing customer base that are not currently licensed to use LiveTiles.

Outlook

The Board and management team expect significant revenue growth in the 2018 financial year, driven by a larger sales and marketing footprint, an increasingly productive partner channel, growing brand awareness and an expanding pipeline of customer opportunities.

On behalf of the Board, we would like to express our thanks to our customers and partners for their ongoing support. We would also like to thank our team for their commitment towards delivering strong growth and value to shareholders.

In addition to its cash balance as at 30 June 2017, LiveTiles expects to receive a research and development grant of approximately \$3,058,195 in relation to the year ended 30 June 2017. As at 30 June 2017, 61% of LiveTiles' cash balance was held in US dollars (2016: 73%) and 39% was held in Australian dollars (2016: 27%).

Significant events since the end of the financial year

On 2 August 2017 LiveTiles Limited announced that it had raised \$11,000,000 via a share placement. Under the placement, \$11,000,000 will be raised (before costs) via the issue of 61,111,111 fully paid ordinary shares at \$0.18 per share. LiveTiles received \$10,600,000 (prior to fees) on 7 August 2017. The remaining \$400,000 will be invested by four Directors, subject to shareholder approval which is expected to be received in the first half of the 2018 financial year.

In conjunction with finalising the share placement, LiveTiles launched a share purchase plan, providing existing eligible shareholders an opportunity to increase their holding by up to \$15,000. The share purchase plan is capped at \$1,000,000 and the offer period closes on 31 August 2017.

There have been no other significant events affecting the Group since the end of the financial year.

Highlights

DIRECTORS' REPORT

Product development

LiveTiles continued to invest heavily in product innovation during the year, including the following:

- **LiveTiles SharePoint:** during the 2017 financial year, LiveTiles Design, LiveTiles Build and LiveTiles Blueprint were combined into a single product called LiveTiles SharePoint. LiveTiles SharePoint is continuously updated and improved with new features and integrations with a broad range of third party software products.
- **LiveTiles Cloud:** a digital workplace design tool delivered via a Software-as-a-Service (SaaS) model, LiveTiles Cloud gives LiveTiles the ability to deliver digital workplaces outside the Microsoft SharePoint environment. LiveTiles Cloud uses Microsoft Azure as its platform.
- **LiveTiles MX:** launched in April 2017, LiveTiles MX enables customised mobile applications to be built using the LiveTiles responsive page canvas and deployed via iOS and Android applications.
- **LiveTiles for SAP Software:** easily integrates and surfaces content from SAP applications within LiveTiles pages. LiveTiles for SAP Software expands LiveTiles' addressable market to any organisation that uses SAP software.

GROWTH STRATEGY & OUTLOOK

LiveTiles' Board and management team expect significant revenue growth in the 2018 financial year, driven by a larger sales and marketing footprint, an increasingly productive partner channel, growing brand awareness and an expanding pipeline of customer opportunities.

Indemnification and insurance of officers and directors

Under the Company's constitution, to the extent permitted by law and subject to the provisions of the Corporations Act 2001, the Company indemnifies every Director, executive officer and secretary of the Company against any liability incurred by that person as an officer of the Company. The Company has insured its Directors, executive officers and the Company Secretary for the 2017 financial year.

Under the Company's directors' and officers' liability insurance policy, the Company cannot release to any third party or otherwise publish details of the nature of the liabilities insured by the policy or the amount of the premium. Accordingly, the Company relies on section 300(9) of the Corporations Act 2001 to exempt it from the requirements to disclose the nature of the liability insured against and the premium amount of the policy.

Indemnification of auditors

The Company's auditor, BDO East Coast Partnership, has not been indemnified under any circumstance.

Non-audit services

The Company's auditor, BDO East Coast Partnership, has not provided any non-audit services to the Group during the year ended 30 June 2017 (2016: nil).

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out on page 25.

Corporate governance statement

The Directors of the Group support and adhere to the principles of corporate governance, recognising the need for the highest standard of corporate behaviour and accountability. Please refer to the corporate governance statement current as of 30 June 2017 as located on the Company's website: www.livetiles.nyc/investors/.

REMUNERATION REPORT

1. Introduction

This Remuneration Report for the year ended 30 June 2017 outlines the remuneration arrangements of LiveTiles Limited and its controlled entities in accordance with the requirements of the *Corporations Act 2001 (Cth), as amended (the Act)* and its regulations. This information has been audited as required by the Act.

This Remuneration Report details the remunerations arrangements for key management personnel (**KMP**) who are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Group, directly or indirectly, including any director (whether executive or otherwise) of the parent company.

The following individuals were classified as KMP of the Group during the financial year ended 30 June 2017. Unless otherwise indicated, the individuals were KMP for the entire financial year.

Executive Directors	
Karl Redenbach	Chief Executive Officer
Peter Nguyen-Brown	Chief eXperience Officer
Matthew Brown	Chief Financial Officer
Non-Executive Directors	
Andrew Gray	Chairman
Michael Hill	Non-Executive Director
Andrew McKeon	Non-Executive Director (appointed 1 April 2017)

There were no other changes to KMP after the reporting date and before the date the financial report was authorised for issue.

2. Remuneration governance

The Remuneration Committee is responsible for reviewing and recommending to the Board remuneration arrangements for the executive directors and executives reporting to the CEO. The Remuneration Committee also reviews and recommends to the Board the remuneration arrangements for the non-executive directors of the Board, including fees, travel and other benefits.

The Remuneration Committee consists of Andrew Gray (Chair), Michael Hill and Karl Redenbach. Non-committee members, including members of management, may attend all or part of the Remuneration Committee meetings by invitation of the chair.

Further information on the Remuneration Committee's role, responsibilities and membership can be seen in the Remuneration Committee's charter (schedule 4 of the Corporate Governance Statement) on the company's website at www.livetiles.nyc/investors/.

3. Executive remuneration arrangements

Remuneration principles

The Group's approach to executive remuneration is based on the following objectives:

- Ensuring the Company's remuneration structures are equitable and aligned with long-term interests of the Company and its shareholders;
- Attracting and retaining skilled executives; and
- Structuring short and long-term incentives that are challenging and linked to the creation of sustainable shareholder returns.

For personal use only

REMUNERATION REPORT

Remuneration structure

The following table outlines how the Group's executive remuneration structure aligns remuneration with performance.

Component	Description	Purpose	Link to performance	Who participates?
Fixed remuneration	Base salary package including statutory superannuation contributions where applicable.	To provide competitive fixed remuneration determined with reference to role, experience and market.	Individual performance is considered during the annual remuneration review.	All executives.
Short term incentives (STI)	Paid in cash.	Rewards executives for their contribution to achievement of Group outcomes.	Linked to specific financial and non-financial targets.	Executives and other key employees who have an impact on the Group's performance.
Long term incentives (LTI)	Shares issued under Management Incentive Plan (MIP).	Rewards executives for their contribution to the creation of shareholder value over the longer term.	Shares issued under the MIP to executives who are key management personnel have been issued with vesting prices in excess of market value such that executives are remunerated only when the Company's share price exceeds the vesting price.	Executives and other key employees.

See section 7 of the Remuneration Report for further details of the Management Incentive Plan.

Company performance

A key underlying principle of the Group's executive remuneration framework is that remuneration levels should be linked to Group performance. Due to the early-stage nature of the Group's business, it is not appropriate at this stage to assess the Group's performance on the basis of profitability.

The Group's key financial measures of performance are summarised in the table below:

	30 June 2017	30 June 2016
Annualised Subscription Revenue ¹	\$4.0m	\$1.0m
Cash balance	\$3.5m	\$8.1m
Share price	\$0.23	\$0.22
Loss before income tax expense and non-recurring and non-cash items	\$(6.2)m	\$(4.9)m
Dividends	nil	nil

1. Annualised Subscription Revenue represents the subscription licence fees committed by LiveTiles customers on a full year basis

REMUNERATION REPORT

The Group's key financial measure of performance over the longer term is share price appreciation. As the Company re-listed on the ASX on 17 September 2015, there has been limited trading history since the change in the Company's operations. The Company's share price has appreciated from the re-listing price of \$0.15 to \$0.23 as at 30 June 2017. Share price appreciation drives value for executives through the increase in the value of shares issued under the Management Incentive Plan (refer to section 7 of the Remuneration Report).

4. Executive contracts

Remuneration arrangements for executives are formalised in employment agreements. The table below sets out the key terms and conditions of the employment contracts of the CEO and senior executives. All contracts are for unlimited duration.

	Base salary	Superannuation	Bonus	Notice period
Karl Redenbach, CEO and Executive Director	US\$250,000 plus \$120,000 cost of living adjustment	N/A	Discretionary bonus subject to meeting performance targets. Capped at 67% of base salary.	6 months
Peter Nguyen-Brown, CXO and Executive Director	\$250,000	Statutory minimum	Discretionary bonus subject to meeting performance targets. For the period from 1 April 2016 to 31 December 2016, the discretionary bonus is capped at \$40,000.	4 weeks
Matthew Brown, CFO and Executive Director	\$330,000 (plus \$50,000 to be accrued and paid when the Company can afford to pay the salary in full)	Statutory minimum	Discretionary bonus subject to meeting performance targets. Capped at 67% of base salary.	6 months

Deferred salaries have been accrued in the statement of financial position as at 30 June 2017. Any deferred salaries accrued by Directors in the 2017 financial year are included in salaries and fee remuneration where applicable.

In the case of each of the executives above, the Company may terminate the employment agreement without notice for misconduct or material breach of contract.

1. Matthew Brown's salary includes a deferred component of \$50,000.

2. Represents shares issued under the Management Incentive Plan, as approved by the Company's shareholders on 3 July 2015 (refer to section 7 of the Remuneration Report and note 19 of the financial statements).

6. Non-executive director fee arrangements

The Board seeks to set the fees for non-executive directors at a level which provides the Company with the ability to attract and retain directors of a high calibre, whilst incurring a cost which is acceptable to shareholders.

Under the Company's constitution and the ASX listing rules, the maximum aggregate amount of fees that can be paid to non-executive directors shall be determined from time to time by a general meeting of shareholders. The current aggregate fee pool for the non-executive directors is \$300,000.

Each non-executive director receives a fee for being a director of the Company. In addition, a non-executive director may be paid fees or other amounts as the Board determines where a non-executive director performs special duties or otherwise performs services outside the scope of the ordinary duties of a director. Non-executive directors are also entitled to be reimbursed for reasonable expenses incurred in performing their duties as directors.

Non-executive letters of appointment are in place with Andrew Gray, Michael Hill and Andrew McKeon.

For the year ended 30 June 2017, Mr Hill was entitled to remuneration of \$80,000 per annum (including superannuation). Mr Hill has agreed to receive only 50% of his remuneration in cash (being \$40,000) until such time as the Company can afford to pay the remuneration in full.

For the year ended 30 June 2017, Mr Gray was entitled to remuneration of \$100,000 per annum (including superannuation). Mr Gray has agreed to receive only 40% of his remuneration in cash (being \$40,000) until such time as the Company can afford to pay the remuneration in full.

For the period from 1 April 2017 to 30 June 2017, Mr McKeon was entitled to remuneration of \$80,000 per annum (including superannuation). Mr McKeon has agreed to receive only 50% of his remuneration in cash (being \$40,000) until such time as the Company can afford to pay the remuneration in full.

Deferred salaries have been accrued in the statement of financial position as at 30 June 2017. Any deferred salaries accrued by Directors in the 2017 financial year are included as fee remuneration where applicable.

REMUNERATION REPORT

- The FY2017 non-executive directors' fees for Andrew Gray, Michael Hill and Andrew McKeon include a deferred component of \$60,000, \$40,000 and \$10,000, respectively.
- Michael Hill's termination payment represents the 3 month notice period under his former Executive Services Agreement which was terminated by the Company on 25 August 2015, when he became a Non-executive Director. The payment was calculated based on the differential between the salary under his former Executive Services Agreement and the fee under his new Engagement Agreement commencing 26 August 2015.
- Hugh Warner and Philip Kapp's termination payments represent the 3 month notice period under their respective Executive Services Agreements which were terminated by the Company on 25 August 2015.
- FY2017 share based payments represent shares issued under the Management Incentive Plan, as approved by the Company's shareholders on 3 July 2015 (refer to section 7 of the Remuneration Report).
- At the date of the reverse acquisition (25 August 2015), 7,000,000 options were outstanding in Modun Resourced Limited. These options were modified to their fair value of \$0.08 per option on the date of the reverse acquisition. The vesting terms of these options are unchanged. The expiry date is 21 October 2017 with an exercise price of \$0.10.

7. Equity instruments held by key management personnel

Options held by key management personnel during the year

7,000,000 options were issued by the Company on 21 October 2014 (prior to the reverse acquisition). These options were revalued as at the date of the reverse acquisition based on the following inputs and assumptions:

Management Incentive Plan

The purpose of the Management Incentive Plan (**MIP**) is to assist in the reward, retention and motivation of eligible directors and management and to align the interests of these persons more closely with the interests of the Company's shareholders, by providing an opportunity for eligible directors and employees to acquire an ownership interest in the Company.

The issue price of shares issued under the MIP is funded by an interest free loan from the Company. Vesting of shares issued under the MIP is subject to the satisfaction or waiver of vesting conditions determined by the Board. Subject to the MIP rules, any unvested shares lapse immediately and are forfeited if the relevant vesting conditions are not satisfied within the applicable vesting period. Once vested, shares issued under the MIP are treated in the same way as all other ordinary shares, subject to the full repayment of any outstanding loan.

The Board has the sole discretion to determine the directors and employees who are eligible to participate in the MIP and the terms upon which shares are issued under the MIP, including the issue price, loan amount and vesting conditions.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2017

These consolidated financial statements and notes represent LiveTiles Limited and its Controlled Entities (the “**Consolidated Group**” or “**Group**”).

The financial statements were authorised for issue on 24 August 2017 by the directors of the company.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Preparation

These general purpose financial statements have been prepared in accordance with the Corporations Act 2001, Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board and International Financial Reporting Standards as issued by the International Accounting Standards Board. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise.

Except for cash flow information, the financial statements have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

a Principles of consolidation

The consolidated financial statements incorporate all of the assets, liabilities and results of the parent entity (LiveTiles Limited) and all of the subsidiaries. Subsidiaries are entities the parent controls. The parent controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. A list of the subsidiaries is provided in Note 10.

The assets, liabilities and results of all subsidiaries are consolidated into the financial statements of the Group from the date on which control is obtained by the Group. The consolidation of a subsidiary is discontinued from the date that control ceases. Intercompany transactions, balances and unrealised gains or losses on transactions between group entities are eliminated on consolidation. Accounting policies of subsidiaries have been changed and adjustments made where necessary to ensure uniformity of the accounting policies adopted by the Group.

b. Fair value of assets and liabilities

The Group measures some of its assets and liabilities at fair value on either a recurring or non-recurring basis, depending on the requirements of the applicable Accounting Standard.

Fair value is the price the Group would receive to sell an asset or would have to pay to transfer a liability in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset or liability (i.e. the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset or minimises the payments made to transfer the liability, after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

The fair value of liabilities and the entity's own equity instruments (excluding those related to share-based payment arrangements) may be valued, where there is no observable market price in relation to the transfer of such financial instruments, by reference to observable market information where such instruments are held as assets. Where this information is not available, other valuation techniques are adopted and, where significant, are detailed in the respective note to the financial statements.

c. Finance costs

Finance costs are expensed in the period in which they are incurred except if they relate to a qualifying asset.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2017

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

d. Leases

Operating lease payments, net of any incentives received from the lessor, are charged to profit or loss on a straight-line basis over the term of the lease.

e. Impairment of assets

At the end of each reporting period, the Group assesses whether there is any indication that an asset may be impaired. The assessment will include the consideration of external and internal sources of information including dividends received from subsidiaries deemed to be out of pre-acquisition profits. If such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs of disposal and value in use, to the asset's carrying amount. Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss.

Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Impairment testing is performed annually for intangible assets with indefinite lives and intangible assets not yet available for use.

f. Income tax

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by the changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to be applied when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed at each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entities which intend to settle simultaneously.

LiveTiles Limited (the '**head entity**') and its wholly-owned Australian subsidiaries have formed an income tax consolidated group under the tax consolidation regime. The head entity and each subsidiary in the tax consolidated group continue to account for their own current and deferred tax amounts. The tax consolidated group has applied the 'separate taxpayer within group' approach in determining the appropriate amount of taxes to allocate to members of the tax consolidated group.

In addition to its own current and deferred tax amounts, the head entity also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from each subsidiary in the tax consolidated group.

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the tax consolidated group. The tax funding arrangement ensures that the intercompany charge equals the current tax liability or benefit of each tax consolidated group member, resulting in neither a contribution by the head entity to the subsidiaries nor a distribution by the subsidiaries to the head entity.

g. Reverse acquisition

In the prior financial year, on 26 August 2015, LiveTiles Limited (formerly Modun Resources Limited) acquired 100% of LiveTiles Holdings Pty Ltd for total consideration of 225,000,000 shares in LiveTiles Limited. Modun Resources Limited was previously engaged in the coal sector and owned a coal deposit in Mongolia. The Mongolian coal deposit was sold via the sale of 100% of Modun Resources LLC on 26 August 2015. The sole business of LiveTiles Limited is now the development and sale of software.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2017

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Reverse acquisition (continued)

The reverse acquisition did not meet the requirements of AASB 3 Business Combinations because Modun Resources Limited was not deemed a business for accounting purposes, instead the reverse acquisition has been accounted for as a share-based payment transaction using the principles of share based payment transactions in AASB 2, and in particular the guidance in AASB 2 that any difference in the fair value of the shares issued by the accounting acquirer (LiveTiles) and the fair value of the accounting acquiree's (formerly Modun Resources Limited) identifiable net assets represents a service to enable a listing on the ASX.

Accordingly, the consolidated financial report of LiveTiles Limited has been prepared as a continuation of the business and operations of LiveTiles Holdings Pty Ltd. As the deemed accounting acquirer LiveTiles Holdings Pty Ltd has accounted for the acquisition from 25 August 2015. The comparative information for the 12 months ended 30 June 2015 presented in the financial report is that of LiveTiles Holdings Pty Ltd.

The statement of financial position of the accounting acquired entity, Modun Resources Limited, upon completion of the reverse acquisition was as follows:

	Fair value at acquisition date \$
Cash and equivalents	2,318,441
Other assets	509,984
Trade and other payables	(461,340)
Net identifiable assets acquired	2,367,085
Representing:	
Fair value of Modun Resources Limited shares on issue prior to completion of the acquisition	5,321,845
Listing expense on acquisition of Modun Resources Limited	2,954,760

h. Research and development

Research costs are expensed in the period in which they are incurred.

Development costs are only capitalised when it is probable that the project will be a success, the Group will use or sell the asset, the Group has sufficient resources and intent to complete the asset and the development costs can be measured reliably. If one or more of these criteria are not met, development costs are expensed in the period in which they are incurred. Capitalised development costs are amortised on a straight line basis over the period of their expected pattern of consumption, up to 5 years.

i. Foreign currency transactions and balances

Functional and presentation currency

The functional currency of each of the Group's entities is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars, which is the parent entity's functional currency.

Transactions and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in profit or loss.

Exchange differences arising on the translation of non-monetary items are recognised directly in other comprehensive income to the extent that the underlying gain or loss is recognised in other comprehensive income; otherwise the exchange difference is recognised in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2017

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currency transactions and balances (continued)

Group companies

The financial results and position of foreign operations, whose functional currency is different from the Group's presentation currency, are translated as follows:

- assets and liabilities are translated at exchange rates prevailing at the end of the reporting period;
- income and expenses are translated at average exchange rates for the period; and
- retained earnings are translated at the exchange rates prevailing at the date of the transaction.

Exchange differences arising on translation of foreign operations with functional currencies other than Australian dollars are recognised in other comprehensive income and included in the foreign currency translation reserve in the statement of financial position. The cumulative amount of these differences is reclassified into profit or loss in the period in which the operation is disposed of.

j. Employee benefits

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled.

Other long-term employee benefits

The liability for annual leave and long service leave not expected to be settled within 12 months of the reporting date are measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on corporate bond rates with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Defined contribution superannuation benefits

All employees of the Group who are based in Australia receive defined contribution superannuation entitlements, for which the Group pays the fixed superannuation guarantee contribution (currently 9.5% of the employee's average ordinary salary) to the employee's superannuation fund of choice. All contributions in respect of employees' defined contribution entitlements are recognised as an expense in the period in which they are incurred.

k. Share-based payments

Equity-settled share-based compensation benefits are provided to employees and related parties. Equity-settled transactions are awards of shares, or options over shares, that are provided to employees and suppliers in exchange for the rendering of services.

The cost of equity-settled transactions are measured at fair value on grant date. Fair value is independently determined using the Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option, together with non-vesting conditions that do not determine whether the Group receives the services that entitle the employees to receive payment. No account is taken of any other vesting conditions.

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made.

An additional expense is recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification.

If the non-vesting condition is within the control of the Group or employee, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the Group or employee and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period, unless the award is forfeited.

If equity-settled awards are cancelled, it is treated as if it has vested on the date of cancellation, and any remaining expense is recognised immediately. If a new replacement award is substituted for the cancelled award, the cancelled and new award is treated as if they were a modification.

FOR THE YEAR ENDED 30 JUNE 2017

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

l. Provisions

Provisions are recognised when the Group has a present (legal or constructive) obligation as a result of a past event, it is probable the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation.

m. Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

n. Revenue and other income

Revenue is recognised when it is probable that the economic benefit will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

Software subscription revenue

Software is sold on a subscription basis and revenue is recognised over the term of the subscription once the users can use the system on a fully functional basis.

Research and development grant income

Research and development grant income is recognised when the Group is entitled to the research and development grant. The amount is treated as other income in the period in which the research and development costs were incurred.

Interest income

Interest income is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

o. Trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment. Trade receivables are generally due for settlement within 30 days.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectable are written off by reducing the carrying amount directly. A provision for impairment of trade receivables is raised when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation and default or delinquency in payments (more than 60 days overdue) are considered indicators that the trade receivable may be impaired. The amount of the impairment allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial.

Other receivables are recognised at amortised cost, less any provision for impairment.

p. Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the reporting dates and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

q. Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows included in receipts from customers or payments to suppliers.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

r. Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

s. Earnings per share

Basic earnings per share is calculated by dividing the profit or loss attributable to the owners of LiveTiles Limited, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial period, adjusted for bonus elements in ordinary shares issued during the financial period.

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

t. Critical accounting estimates and judgements

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

u. Key estimates

(i) *Share-based payment transactions*

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using the Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity.

(ii) *Recovery of deferred tax assets*

Deferred tax assets are recognised for deductible temporary differences only if the Group considers it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

(iii) *Research and development grant receivable*

The Group measures the research and development grant income and receivable taking into account the time spend by employees on eligible research and development activities. The research and development grant receivable is recognised as the Group considers it probable that the amount will be recovered in full through a future claim.

FOR THE YEAR ENDED 30 JUNE 2017

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

v. **New Accounting Standards not yet mandatory or early adopted**

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Group for the annual reporting period ended 30 June 2017. The new or amended Accounting Standards and Interpretations, most relevant to the Group, are set out below.

AASB 9 Financial Instruments

This standard is applicable to annual reporting periods beginning on or after 1 January 2018. The standard replaces all previous versions of AASB 9 and completes the project to replace IAS 39 'Financial Instruments: Recognition and Measurement'. AASB 9 introduces new classification and measurement models for financial assets. The standard introduces additional new disclosures.

The directors anticipate that the adoption of AASB 9 will not significantly impact the Group's financial statements.

AASB 15 Revenue from Contracts with Customers

This standard is applicable to annual reporting periods beginning on or after 1 January 2018. The standard provides a single standard for revenue recognition. The core principle of the standard is that an entity will recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Credit risk will be presented separately as an expense rather than adjusted to revenue. For performance obligations satisfied over time, an entity would select an appropriate measure of progress to determine how much revenue should be recognised as the performance obligation is satisfied.

In assessing the impact of this standard on the Group's financial statements, the following revenue categories have been identified:

- Annual licence fees
- Perpetual licence fees
- Fees for implementation services

The Group has performed an initial review of each revenue category, including a combination of revenue categories, and, based on the preliminary assessment performed, the Directors anticipate that the adoption of AASB 15 will not significantly impact the Group's financial statements.

AASB 16 Leases

This standard is applicable to annual reporting periods beginning on or after 1 January 2019. When effective, this Standard will replace the current accounting requirements applicable to leases in AASB 117 Leases and related Interpretations. AASB 16 introduces a single lessee accounting model that eliminates the requirement for leases to be classified as operating or finance leases.

The directors anticipate that the adoption of AASB 16 will not significantly impact the Group's financial statements.

w. **Going concern**

For the year ended 30 June 2017, the Group made a loss of \$7,394,511 (2016: \$13,219,604) and had net cash flows used in operating activities of \$4,497,533 (2016: \$8,225,203). At 30 June 2017, the Group had a cash balance of \$3,500,473.

The Directors are of the opinion that the Group will be able to continue as a going concern and also note the \$11,000,000 equity raising announced by the Group on 2 August 2017, of which \$10,600,000 (before costs) was received on 7 August 2017.

Credit risk

The Group has no significant concentration of credit risk with respect to any single counterparty or group of counterparties. The class of assets described as "trade and other receivables" is considered to be the main source of credit risk related to the Group.

On a geographical basis, the Group has credit risk exposures in Australia, North America, Europe and the Middle East. The Group's exposure to credit risk for trade receivables at the end of the reporting period in those regions is as follows:

	2017 \$	2016 \$
AUD		
Asia Pacific	438,768	172,846
North America	327,956	154,267
Europe	163,528	65,146

Total receivables exposed to credit risk	1,002,469	482,439

The following table details the Group's trade and other receivables exposed to credit with ageing analysis and impairment provided for thereon. Amounts are considered as "past due" when the debt has not been settled, with the terms and conditions agreed between the Group and the customer or counterparty to the transaction. Receivables that are past due are assessed for impairment by ascertaining solvency of the debtors and are provided for where there are specific circumstances indicating that the debt may not be fully repaid to the Group.

The balances of receivables that remain within initial trade terms (as detailed in the table) are considered to be of high credit quality.

Modun Resources Pte Ltd	Singapore	100%	100%

b. Significant restrictions

There are no restrictions over the Group's ability to access or use assets, and settle liabilities, of the Group.

c. Acquisition of controlled entities

In the prior year on 26 August 2015, LiveTiles Limited (formerly Modun Resources Limited) acquired 100% of LiveTiles Holdings Pty Ltd for total consideration of 225,000,000 shares in LiveTiles Limited. Modun Resources Limited was previously engaged in the coal sector and owned a coal deposit in Mongolia. The Mongolian coal deposit was sold via the sale of 100% of Modun Resources LLC on 26 August 2015. The sole business of LiveTiles Limited is now the development and sale of digital workplace software.

d. Disposal of controlled entities

On 15 May 2017, Nuurst Mineral Corporation LLC, a dormant subsidiary previously involved in the Group's Mongolian coal operations (which were sold on 26 August 2015), was wound up. As at 15 May 2017, Nuurst Mineral Corporation LLC had a cash balance of \$681 which was written off.

Provision for employee benefits

Provision for employee benefits represents amounts accrued for annual leave and long service leave.

The current portion for this provision includes the total amount accrued for annual leave entitlements and the amounts accrued for long service leave entitlements that have vested due to employees having completed the required period of service. Based on past experience, the Group does not expect the full amount of annual leave or long service leave balances classified as current liabilities to be settled within the next 12 months. However, these amounts must be classified as current liabilities since the Group does not have an unconditional right to defer the settlement of these amounts in the event employees wish to use their leave entitlement. It is expected that \$72,629 will not be taken in the next 12 months.

The non-current portion for this provision includes amounts accrued for long service leave entitlements that have not yet vested in relation to those employees who have not yet completed the required period of service.

In calculating the present value of future cash flows in respect of long service leave, the probability of long service leave being taken is based on historical data. The measurement and recognition criteria relating to employee benefits have been discussed in Note 1.

(a) Management Incentive Plan shares

On 25 August 2015, LiveTiles Limited issued 35,000,000 shares to the Directors via a limited recourse loan under the Management Incentive Plan. The effect of this arrangement is equivalent to granting the Directors an option to purchase the shares at \$0.15. These shares were issued in Tranches A, B and C.

On 5 April 2016, LiveTiles Limited issued 1,200,000 shares to senior employees of the Company via a loan under the Management Incentive Plan. The effect of this arrangement is equivalent to granting the employees an option to purchase the shares at \$0.285. These were issued in Tranches D, E and F.

On 2 June 2017, LiveTiles Limited issued 300,000 shares to a senior employee of the Company via a loan under the Management Incentive Plan. The effect of this arrangement is equivalent to granting the employee an option to purchase the shares at \$0.245. These were issued in Tranches G, H and I.

Fair value is independently determined using a Black-Scholes option pricing model that takes into account the effective exercise price, the term of the non-recourse loans, the share price at grant date and expected price volatility of the underlying share. An adjustment has also been made to the valuation to reflect the time and price based vesting conditions. The volatility is based on the volatility in the Company's share price since the date of the reverse acquisition. The assumptions used to value the Management Incentive Plan shares are set out below:

	Tranches A, B and C	Tranches D, E and F	Tranches G, H and I
Share price	\$0.15	\$0.25	\$0.235

(b) Modified value of options on issue at the date of the reverse acquisition

As at the date of the reverse acquisition there were 9,080,000 options outstanding in Modun Resources Limited (renamed LiveTiles Limited). The options were modified to their fair value in the prior period on the date of the reverse acquisition using a Black-Scholes option pricing model:

	Group 1	Group 2	Group 3	Group 4
Share price	\$0.15	\$0.15	\$0.15	\$0.15

NOTE 21: RELATED PARTY TRANSACTIONS (CONTINUED)

Transactions with other related parties

rhipe Limited and its subsidiaries (**rhipe**) are considered to be related parties due to Michael Hill being an executive director of rhipe and a director of the Company. During the 2017 and 2016 financial years the Group paid rhipe for the temporary use of shared resources following the sale of the nSynergy Group to rhipe and rhipe was engaged by the Group to provide IT consulting services to LiveTiles customers.

rhipe is also a reseller and distributor of LiveTiles software. During the 2017 financial year the Group received revenue from rhipe representing the pass through of subscription licence fees (net of reseller margin) payable by end users of LiveTiles software sold by rhipe.

All transactions were made on normal commercial terms and conditions and at market rates.

NOTE 22: FINANCIAL RISK MANAGEMENT

The Group's principal financial instruments comprise receivables, payables and cash.

The Group manages its exposure to key financial risks, including interest rate, foreign currency, credit risk and liquidity risk, with the objective of providing support to the delivery of the Group's financial target while protecting financial security.

The main risks arising from the Group's financial instruments are credit risk, liquidity risk, interest rate risk and foreign currency risk. The Group uses different methods to measure and manage different types of risk to which it is exposed. These include analysis of aging reports to monitor and manage credit risk, analysis of future rolling cash flow forecasts to monitor and manage liquidity risk, monitoring levels of exposure to interest rate and foreign currency risk, and assessments of market forecasts for interest rate and foreign currency exchange rate movement.

The Board reviews and agrees risk management strategies for managing each of the risk identified above.

Primary responsibility for identification and control of financial risks rests with Management under authority of the Board.

Risks exposures and responses

(i) *Interest rate risk*

The Group's exposure to interest rate risk is minimal given the Group has no borrowings.

The Group does not enter into any interest rate swaps, interest rate options or similar derivatives.

At the balance date, the Group had the following mix of financial assets and liabilities exposed to Australian variable interest rate risk that are not designated in cash flow hedges:

(ii) *Foreign currency risk*

The Group's functional currency is Australian dollars (AUD) and the Group is exposed to transactional currency exposures. Such exposures arise primarily as a result of sales and expenses of LiveTiles Corporation being made in USD in addition to bank accounts being held in US dollars (USD). Foreign currency risk is managed by holding the Group's cash in a combination of USD and AUD. Management also reviews the USD denominated product pricing structure on a quarterly basis.

At balance date, the Group had the following exposure to USD foreign currency that is not designated in cash flow hedges:

AUD	2017	2016

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2017

NOTE 22: FINANCIAL RISK MANAGEMENT (CONTINUED)

(iii) *Liquidity risk*

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments.

	Less than 6 months	6 to 12 months	1 to 5 years	Total
2017				
Trade and other payables	2,414,089	-	-	2,414,089
	<u>2,414,089</u>	<u>-</u>	<u>-</u>	<u>2,414,089</u>
2016				
Trade and other payables	819,001	-	-	819,001
	<u>819,001</u>	<u>-</u>	<u>-</u>	<u>819,001</u>

(iv) *Credit risk*

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group assesses the credit worthiness of the counterparty before entering into a sales contract. Further mitigating this risk is the ability to turn off the customer's software if a customer begins to default on their contractual obligations. The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment to those assets, as disclosed in the statement of financial position and notes to the financial statements.

(v) *Fair value of financial instruments*

Unless otherwise stated, the carrying value of financial instruments reflect their fair value. The carrying amounts of trade receivables and trade payables are assumed to approximate their fair values due to their short-term nature. The fair value of financial liabilities is estimated by discounting the remaining contractual maturities at their current market interest rate that is available for similar financial instruments.

NOTE 23: EVENTS AFTER THE REPORTING PERIOD

On 2 August 2017 LiveTiles Limited announced that it had raised \$11,000,000 via a share placement. Under the placement, \$11,000,000 will be raised (before costs) via the issue of 61,111,111 fully paid ordinary shares at \$0.18 per share. LiveTiles received \$10,600,000 (before costs) on 7 August 2017. The remaining \$400,000 will be invested by four Directors, subject to shareholder approval, which is expected to be received in the first half of the 2018 financial year.

In conjunction with finalising the share placement, LiveTiles launched a share purchase plan, providing existing eligible shareholders an opportunity to increase their holding by up to \$15,000. The share purchase plan is capped at \$1,000,000 and the offer period closes on 31 August 2017.

No other matter or circumstance has arisen since 30 June 2017 that has significantly, or may significantly affect, the Group's operations, results or state of affairs.

INDEPENDENT AUDITOR'S REPORT

To the members of LiveTiles Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of LiveTiles Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2017, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial report, including a summary of significant accounting policies and the directors' declaration.

In our opinion the accompanying financial report of the Group, is in accordance with the *Corporations Act 2001*, including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2017 and of its financial performance for the year ended on that date; and
- (ii) Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Revenue recognition

<i>Key audit matter</i>	<i>How the matter was addressed in our audit</i>
As disclosed in Note 3, the Group recognised software subscription revenue of \$1,769,399 for the year ended 30 June 2017. Revenue was identified as a key audit matter as it is a key performance indicator to the users of the financials and because of the extent of judgement involved in the recognition of revenue over the period the services were provided.	<p>Our procedures, amongst others, included:</p> <ul style="list-style-type: none"> • Considering whether the revenue recognition policies are in accordance with Australian Accounting Standards and the Group's accounting policies described in Note 1; • analysing the revenue trends for the year ended 30 June 2017 against our expectations; • selecting a sample of revenue transactions throughout the financial year and traced to supporting documentation, cash receipts and considered the deferral of revenues for the year ended 30 June 2017; and • obtaining and inspecting the deferred revenue schedules in order to ensure that correct adjustments were recorded to recognise the revenue in the appropriate reporting period.

Research and development (R&D) tax incentive

<i>Key audit matter</i>	<i>How the matter was addressed in our audit</i>
As disclosed in Note 9, the Group recognised an R&D grant receivable of \$3,058,195. The R&D grant receivable was identified as a key audit matter because of the extent of judgement involved in considering the recoverability of the receivable as at the reporting date and the complexities involved in the computation.	<p>Our procedures, amongst others included:</p> <ul style="list-style-type: none"> • obtaining and analysing the evidence provided by the Group to support the carrying value of the R&D tax incentive receivable; • evaluating the competence and objectivity of the independent expert used by management. This included understanding the independent expert's calculations, reviewing their correspondence with management and evaluating the accuracy of the underlying information used. • evaluating the underlying assumptions applied; and

For personal use only

- discussing and analysing management's assessment of the recoverability of the R&D tax incentive receivable with reference to the tax legislation, discussions with internal tax specialists, management's historical accuracy in estimating these claims in prior periods and historical findings obtained.

Other information

The directors are responsible for the other information. The other information comprises the information in the Directors' Report (excluding the audited Remuneration Report) for the year ended 30 June 2017, but does not include the financial report and our auditor's report thereon, which we obtained prior to the date of this auditor's report, and the Annual Report to Shareholders (including the Letter from the Chairman and CEO and FY17 Financial and Business Highlights), which is expected to be made available to us after that date.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Letter from the Chairman and CEO, FY17 Financial and Business Highlights, Shareholder Information and Company Information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the directors and will request that it is corrected. If it is not corrected, we will seek to have the matter appropriately brought to the attention of users for whom our report is prepared.

Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (<http://www.auasb.gov.au/Home.aspx>) at:

http://www.auasb.gov.au/auditors_files/ar2.pdf

This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 17 to 24 of the directors' report for the year ended 30 June 2017.

In our opinion, the Remuneration Report of LiveTiles Limited, for the year ended 30 June 2017, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
