WANGLE FAMILY INSITES LAUNCHED

Wangle Technologies Limited (Wangle or the Company) (ASX: WGL) is pleased to announce the launch of the Company's ground-breaking family protection software suite, **Wangle Family Insites (WFI)**.

The ground-breaking parent protection suite utilises behavioural analysis of live mobile network traffic across Wangle's best in class secure VPN network to help parents identify and manage online risks to their children. The platform also provides educational resources to parents, which has been prepared in collaboration with Telethon Kids Institute and Wangle's Head of Education, Robyn Treyvaud of Cyber Safe Kids, when risks are identified by the WFI software.

The iOS version of the WFI App is now publicly available with the Android version of the WFI App undergoing final preparations for launch on the Google Play Store shortly.

An informative video detailing how to setup Wangle Family Insites on your mobile device has today been uploaded to the WFI website:

<https://wanglefamilyinsites.com/support/>

Marketing activity has now commenced, with an initial focus on brand awareness via public relations and paid social media campaigns, supported by acquisition activity via a range of activities including content marketing and paid search.

The product is/will be available via the Apple and Android App stores on a monthly or annual family subscription and will initially target Australia's 6 million families before a planned international expansion.

- ENDS -

ABOUT WANGLE FAMILY INSITES

Wangle Family Insites (**WFI**) offers parents a unique approach to ensuring the safe use of the internet by children and teenagers. By utilising Wangle's world class VPN network, backed by the research insights of childhood development research organization Telethon Kids Institute, WFI monitors mobile network patterns in real time and advises parents of potential threats as well as providing greater details and resources to parents on the threats identified.

ABOUT WANGLE TECHNOLOGIES (ASX: WGL)

Wangle Technologies has developed patented algorithms that not only optimise, compress and secure the data flow to mobile devices, but facilitate real time analysis of network patterns and usage behaviours. Wangle's technology provides compelling value to consumers, service providers and enterprises looking for innovative low-cost solutions for managing network capacity and use.
