

INTEGRATED MEDIA TECHNOLOGY LIMITED

## ASX ANNOUNCEMENT

9 January 2018

### **Marvel Digital Limited Participating at the International Consumer Electronics Show 2018 in Las Vegas**

The Directors of Integrated Media technology Limited (“IMT” or the “Company”) are pleased to announce that the Company’s wholly owned subsidiary, Marvel Digital Limited (“MDL”) will be attending the upcoming Consumer Electronics Show (“CES”) 2018 held in Las Vegas USA from the 9th to 12th of January 2018 to display its latest products.

MDL representatives will be located at booth#6119 at North Hall of Las Vegas Convention Centre. MDL has been attending the CES exhibitions for the past years to showcase the global audiences our UHD 4K glasses-free 3D visualization technologies. This will be the first time MDL unveils its new image display solution under our brand – GOXD. GOXD will exhibit its flagship product Memto™ Live Picture Frame, which is the world-first cloud-based picture frame bringing 4K UHD (3400 x 2160) glasses-free 3D image displays to home at reasonable price, and it is the only digital frame that supports Live Photo™ and cinemagraph playback. In addition, it provides a revolutionary picture application including 2D to 3D conversion, PixBoost 4K upscaling, photo editing as well as a MemtoWorld marketplace where users can access and download unlimited masterpieces from global artist collaborations and show it on their Memto™ at home. From using our free cloud service, users can save and edit photos anytime anywhere, or send photos remotely to families and friends to share their exciting moments.

MDL will also display in the CES its 3x1 UHD 4K Glasses-free 3D Video Wall. Equipped with the most advanced lenticular 3D technology, the device can deliver a stunning 3D visual experience without the need of 3D glasses. MDL’s Glasses-free 3D Video Wall comes in different combinations of displays to fit in different venue size and requirement. Other glasses-free 3D products including a 65” large LCD display in 4K UHD glasses-free 3D visualization, glasses-free 3D tablets and smartphones will also be displayed at the exhibition.

We are delighted to showcase and introduce MDL’s latest products to customers, partners and stakeholders at the CES. We look forward to meeting you there.

**Cautionary Statement**

Certain statements contained in this announcement constitute forward looking statements within the meaning of applicable securities laws including, among others, statements made or implied relating to the Company's objectives, strategies to achieve those objectives, the Company's beliefs, plans, estimates and intentions, and similar statements concerning anticipated future events, results, circumstances, performance or expectations that are not historical facts. Forward looking statements generally can be identified by words such as "objective", "may", "will", "expect", "likely", "intend", "estimate", "anticipate", "believe", "should", "plans" or similar expressions suggesting future outcomes or events. Such forward looking statements are not guarantees of future performance and reflect the Company's current beliefs based on information currently available to management. Such statements involve estimates and assumptions that are subject to a number of known and unknown risks, uncertainties and other factors inherent in the business of the Company which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward looking statements.

Readers are cautioned not to place undue reliance on these forward looking statements, which speak only as of the date the statements were made and readers are advised to consider such forward looking statements in light of the risks set forth above. Except as required by applicable securities laws, the Company assumes no obligation to update or revise any forward looking statements to reflect new information or the occurrence of future events or circumstances.
