WANGLE ENTERS PARTNERSHIP WITH WA PRIMARY PRINCIPALS' ASSOCIATION

Wangle Technologies Limited (Wangle or the Company) (ASX:WGL) is pleased to announce it has entered into a partnership agreement with the **Western Australia Primary Principals Association (WAPPA)** in support of its child protection software, **Wangle Family Insites (WFI) (WAPPA Partnership Agreement)**.

WAPPA is the professional association for leaders of primary school education across Western Australia, providing support, services and recognition to over 1,100 members across the state to impact educational outcomes and strengthen school leadership.

WAPPA membership is open to primary school leaders (principals and deputy principals) as well as teachers who are aspiring to a leadership role. Weekly communication with members reaches 92% of all public primary schools.

The WAPPA Partnership Agreement gives the Company access to school leaders across Western Australia as the exclusive child protection software partner for **WAPPA**, with the partnership including presentation opportunities directly to members throughout the year, advertising in the **WAPPA** members' magazine, and exclusive opportunities for involvement in future **WAPPA** events including regional professional learning activities. The partnership also includes introductions to other state-based organisations within the national umbrella body, **APPA**.

Wangle Technologies CEO Mr Sean Smith said:

*"Primary schools have a key role as they prepare students and parents for the increasing role and influence the internet will have on children's educational, entertainment and social experience. We're excited to be partnering with **WAPPA** so that we can better prepare educators, parents and children for this challenge".*

WAPPA President Mr Ian Anderson said:

*"The educational and child-parent-trust approach Wangle Family Insites is taking in regards to the safety of children on the internet is aligned strongly with **WAPPA's** philosophy of education. We are pleased to partner with them on this important and developing issue."*

WFI is available via the Apple and Android App stores on a monthly or annual family subscription and will initially target Australia's 6 million families before a planned international expansion.

- ENDS -

ABOUT WANGLE FAMILY INSITES

Wangle Family Insites (**WFI**) offers parents a unique approach to ensuring the safe use of the internet by children and teenagers. By utilising Wangle's world class VPN network, backed by the research insights of childhood development research organization Telethon Kids Institute, WFI monitors mobile network patterns in real time and advises parents of potential threats as well as providing greater details and resources to parents on the threats identified.

ABOUT WANGLE TECHNOLOGIES

Wangle Technologies has developed patented algorithms that not only optimise, compress and secure the data flow to mobile devices, but facilitate real time analysis of network patterns and usage behaviours. Wangle's technology provides compelling value to consumers, service providers and enterprises looking for innovative low-cost solutions for managing network capacity and use.
