Progress during the Quarter

North American Bulk Export Terminal

County International Limited (CCJ.ASX) ceased spending on this project while the Board considers the future of the Washington port project. The project is not viable without common carrier rights and rail access, key items that County has not been able to secure despite its best efforts.

Ongoing Business Opportunities

County is offering for sale a surplus parcel of freehold land in Wyoming.

County is actively looking at and analysing additional projects, particularly in coal, where its management team has experience to enhance value. A number of new projects have been reviewed during the quarter.

The economic climate for coal has improved with improvements in thermal and coking coal prices.
