

7 February 2018

WiseTech Global acquires leading Belgian logistics solutions provider, Intris

Global logistics solutions group, WiseTech, today announced the acquisition of Intris N.V. (Intris) the leading Belgian provider of freight forwarding, customs and warehousing management solutions.

Headquartered in Antwerp, Intris provides its integrated software and cloud-based solutions to customers including Panalpina World Transport, Bollore Netherlands, Rhenus, Gosselin Support Services, AML and many other logistics services providers in Belgium and, more recently, the Netherlands.

WiseTech CEO, Richard White, said, "Bringing Intris into the WiseTech Global group is another step in deepening our reach and capacity in Belgium, one of Europe's largest and most important trade gateways. We welcome the Intris team and management, as we value their deep industry experience and product development knowledge. We understand the complexities and challenges borne by logistics providers facing EU trade changes, growing transaction volumes and increasing cross-border compliance requirements. This transaction, as part of the continued expansion of our global footprint and broader pan-European capability, will, over time, build further capabilities and productivity for all our customers."

For Intris, the purchase cost comprises ~\$11.9m (EUR 7.5M) upfront, with a further multi-year earn-out potential of up to ~\$5.5m (EUR 3.5M) related to integration, product development and customer conversion. With 2016 annual revenue of ~\$7.1m (EUR 4.5M) and ~\$1.1m (EUR 0.7m) contribution to EBITDA, this transaction is not material to the WiseTech Global group. Intris is expected to be consolidated into WiseTech Global accounts from March 2018.

Along with our recent acquisitions in Ireland, North America, Brazil, Taiwan, Australasia and the Netherlands, this transaction is in line with our stated strategy of accelerating long-term organic growth through targeted, valuable acquisitions across new geographies and larger, globally capable adjacencies. We are continuing to progress our pipeline of opportunities in key target regions of Europe, Asia and Latin America and additional adjacencies.
