Directors' Report

The Directors of Fastbrick Robotics Limited ("the Company") present their report together with the financial statements of the Consolidated Entity, being Fastbrick ("the Company") and its controlled entities ("the Group") for the half-year ended 31 December 2017.

Director details

The following persons were Directors of the Company during or since the end of the financial half-year:

- Mr Gabriel Chiappini
- Mr Mark Pivac
- Mr Mike Pivac
- Ms Shannon Robinson

Review of operations and financial results

During the period the Group continued its investment and development of the Hadrian X programme with the Group signing key Memorandum of Understandings ("MOU") with Caterpillar Incorporated and the Kingdom of Saudi Arabia. The Caterpillar MOU has the potential to develop into a global manufacturing and distribution agreement for the Hadrian X construction robot. The Group anticipates that Saudi Arabia MOU will be progressed into an early adopter agreement with discussions ongoing to develop this market.

During the period the group significantly de-risked its capital requirements by raising \$35 million via a capital raise which was secured through a share placement at 19 cents per share with Fidelity International as a cornerstone investor.

The Group also strengthened its management team by adding key executives to the team including the appointment of a General Manager of Operations and Chief Financial Officer. The Group also invested in expanding its operations team to meet the upcoming milestones associated with the construction and demonstration of the Hadrian X.

As part of the Hadrian X programme, the Group has invested in a 2nd Hadrian X prototype with both Hadrian X prototypes being assembled in parallel. During the period the Group has moved from the design phase into procurement with an expectation that assembly will commence in early 2018 with a view to demonstrating the Hadrian X in the 2nd half of 2018. The Group has continued to invest in developing and protecting its Intellectual Property. Fastbrick now has a global Intellectual Property portfolio comprising 18 patent cases, 2 design cases and a number of granted trademarks and trademark applications.

The loss for the period was \$3,016,131 (2016: \$809,029) comprising government grant revenue totalling \$62,553 (2016: \$108,957) offset by total expenditure \$3,114,624 (2016: \$936,894).

Notes to the Condensed Interim Consolidated Financial Statements

1 Nature of operations

Fastbrick Robotics Limited (“the Company”) and its controlled subsidiaries (“the Group”) is developing technology to build an automated robotic machine with the aim of it being capable of completing the brickwork of a Full Home Structure in approximately 3 days at potentially significantly lower cost and higher quality than traditional methods. Fastbrick Robotics has secured patents to protect its intellectual property rights in its technology in key markets.

2 General information and basis of preparation

The interim consolidated financial statements (“the interim financial statements”) of the Group are for the six (6) months ended 31 December 2017 and are presented in Australian Dollars (\$AUD), which is the functional currency of the Parent Company. The interim financial statements are “unaudited”.

These general purpose interim financial statements have been prepared in accordance with the requirements of the *Corporations Act 2001* and AASB 134 *Interim Financial Reporting*. They do not include all of the information required in annual financial statements in accordance with Australian Accounting Standards, and should be read in conjunction with the financial report for the year ended 30 June 2017 as well as any public announcements made by the Company during the half-year in accordance with continuous disclosure requirements arising under the Australian Securities Exchange Listing Rules and the *Corporations Act 2001*.

The interim financial statements have been approved and authorised for issue by the Board of Directors on 26 February 2018.

3 Significant accounting policies

The interim financial statements have been prepared in accordance with the same accounting policies adopted in the annual financial statements for the year ended 30 June 2017.

The accounting policies have been applied consistently throughout the Group for the purposes of preparation of these interim financial statements, except as stated below:

a) Research and development

Research costs are expensed in the period in which they are incurred. Patents costs that relate to projects that are in the research phase are expensed.

Development costs are capitalised when it is probable that the project will be a success considering its commercial and technical feasibility; the consolidated entity is able to use or sell the asset; the consolidated entity has sufficient resources; and intent to complete the development and its costs can be measured reliably. Capitalised development costs are amortised over the period of their expected useful life. Patents costs that relate to projects that are in the development phase are capitalised.

Research and development grants receivable are matched to their classification of expenditure. In the periods where research costs are expensed, the related research and development grant is reported in the Consolidated Statement of Profit or Loss and Other Comprehensive Income as other income. In periods where the Group incurs Development Costs, the related Research and Development grant is

For personal use only

recognised as a credit to capitalised development costs, reported in the Consolidated Statement of Financial Position (refer note 16).

b) Adoption of New and Revised Accounting Standards

In the half year ended 31 December 2017, the Group has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board that are relevant to its operations and effective for the current reporting period. These include:

- AASB 2016-1 Amendments to Australian Accounting Standards – Recognition of Deferred Tax Assets for Unrealised Losses
- AASB 2016-2 Amendments to Australian Accounting Standards – Disclosure Initiative: Amendments to AASB 107
- AASB 2017-2 Amendments to Australian Accounting Standards – Further Annual Improvements 2014-2016 Cycle

The adoption of all these new and revised Standards and Interpretations has not resulted in any changes to the Company's accounting policies and has no effect on the amounts reported for the current or prior periods. The Directors consider that these new and revised Standards and Interpretations has not had a material impact and therefore it has not resulted in changes to the Company's presentation of, or disclosure in, its half year financial statements.

c) Share-based payments

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled.

If the terms of an equity-settled award are modified, as a minimum, an expense is recognised as if the terms had not been modified. An additional expense is recognised for any modification that increases the total fair value of the share based arrangement, or is otherwise beneficial to the recipient, as measured at the date of modification.

If an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect, if any, of outstanding options is reflected as additional share dilution in the computation of diluted loss per share.

d) Plant and Equipment

All plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the profit or loss during the reporting period in which they are incurred.

For personal use only

Depreciation is calculated over the estimated useful life of the asset as follows:

	Method	Useful Lives
Plant and equipment	Straight Line	3 years
Office fitout and equipment	Straight Line	2-10 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss.

e) Basis of Consolidation

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee;
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption, and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement(s) with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary. Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and

liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

4 Estimates

When preparing the interim financial statements, management undertakes a number of judgements, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgements, estimates and assumptions made by management, and will seldom equal the estimated results.

The judgements, estimates and assumptions applied in the interim financial statements, including the key sources of estimation uncertainty were the same as those applied in the last annual financial statements for the year ended 30 June 2017.

Additional significant estimates and judgements include:

Key estimate – Share based payment transactions

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value of the options issued during the reporting period has been determined by using the Binomial formula. Details of the estimates used to determine the fair value are detailed in Note 15.

5 Significant events and transactions

On 4 July 2017, the Company completed the issue of 26,466,000 fully paid ordinary shares in the capital of the Company. These shares were allotted at \$0.10 per share and raised a net total of \$2,646,600.

On 22 November 2017, the Company completed the issue of 184,210,526 fully paid ordinary shares in the capital of the Company. These shares were allotted at \$0.19 per share and raised a net total of \$33,231,218.

During the period the Group continued its investment and development of the Hadrian X programme with the Group signing key Memorandum of Understandings (“MOU”) with Caterpillar Incorporated and the Kingdom of Saudi Arabia. The Caterpillar MOU has the potential to develop into a global manufacturing and distribution agreement for the Hadrian X construction robot. We anticipate the Saudi Arabia MOU will be progressed into an early adopter agreement with discussions ongoing to develop this market.

The Group also strengthened its management team by adding key executives to the team including the appointment of a General Manager of Operations and Chief Financial Officer. The Group also invested in expanding its operations team to meet the upcoming milestones associated with the construction and demonstration of the Hadrian X.

As part of the Hadrian X programme, the Group has invested in a 2nd Hadrian X prototype with both Hadrian X prototypes being assembled in parallel. During the period the Group has moved from the design phase into procurement with an expectation that assembly will commence early 2018 with a view to demonstrating the Hadrian X in the 2nd half of 2018. The Group has continued to invest in developing and protecting its Intellectual Property. Fastbrick now has an Intellectual Property portfolio comprising 18 patent cases, 2 design cases and a number of granted trademarks and trademark applications.

8 Segment reporting

The Group has identified one operating segment based on the internal reports that are reviewed and used by the executive management team (the chief operating decision makers) in assessing performance and in determining the allocation of resources.

The Group operates in Australia (building technology) and prepares reports internally by this location.

Other prospective opportunities outside of this geographical location are also considered from time to time, and if they are secured, will then be attributed to the geographical location where they are located.

All of the Group's non-current assets are held in Australia and all interest revenue is derived from funds invested in short-term money market instruments, all of which are held within Australia.

Independent Auditor's Review Report to the Members of Fastbrick Robotics Limited

Report on the Half Year Financial Report

Conclusion

We have reviewed the accompanying half year financial report of Fastbrick Robotics Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2017, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half year ended on that date, a description of accounting policies, other selected explanatory notes, and the directors' declaration.

Based on our review, which is not an audit, nothing has come to our attention that causes us to believe that the half year financial report of Fastbrick Robotics Limited does not give a true and fair view of the financial position of the Group as at 31 December 2017, and of its financial performance and its cash flows for the half year ended on that date, in accordance with the *Corporations Act 2001*, including complying with Accounting Standard AASB 134 *Interim Financial reporting*.

Directors' Responsibility for the Half Year Financial Report

The Directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2017 and its performance for the half year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Fastbrick Robotics Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

For personal use only

A review of a half year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
