#### **Directors' Report**

The directors of DigitalX Limited submit herewith the financial report of DigitalX Limited ("Company") and its subsidiaries ("the Group") for the half year ended 31 December 2017. In order to comply with the provisions of the *Corporations Act 2001*, the directors report as follows:

Information contained within this report and the financial report is presented in United States dollars (US\$).

#### Directors

The names of directors of the Company during or since the end of the half year are:

- Mr Leigh Travers, Managing Director and Chief Executive Officer
- Mr Peter Rubinstein, Non- Executive Chair (appointed 15 October 2017)
- Mr Toby Hicks, Non-Executive Director
- Mr Samuel Lee, Non-Executive Director (appointed 15 October 2017)
- Mr Faisal Khan, Non-Executive Director (resigned 23 November 2017)

#### **Review of Operations**

The purpose of this review is to set out information that shareholders may require to assess DigitalX Limited's operations, financial position, business strategies and prospects for future financial years. This information complements and supports the Half year Financial Report presented herein.

Disclosure of Operations

During the period, DigitalX Limited was principally involved in the following activities:

- a) Providing Initial Coin Offering ("ICO") consulting services, marketing and technical feasibility advice.
- b) Development of software applications for global payments and financial technology products operating as AirPocket.

Our operations are conducted from our offices in Perth. Australia and New York.

Financial Review

| Revenue from continuing operations                                    | 3,531,602 |
|---|-----------|
| Earnings before interest, tax depreciation and amortisation (EBITDA)  | 8,050,372 |
| Earnings from continuing operations after tax attributable to members | 7,990,921 |
| Total comprehensive income for the period attributable to members     | 8,031,669 |

The consolidated profit after tax for the period ended 31 December 2017 was US\$8,031,669 (2016: net loss US\$1,590,182). The profit is mainly impacted by the growing revenue from ICO consulting commissions and change in the fair value of Digital Assets held.

#### Commentary

DigitalX posted a record profit in the first half of the financial year, with revenue primarily driven by strong growth in our Blockchain and Initial Coin Offering (ICO) advisory services.

We capitalised on the strength of our high quality technical talent, industry experience and cryptocurrency investor and exchange network to cement our position as a global leader for Blockchain and ICO consultation services.

The growth in these services overshadowed our Blockchain development and cryptography offerings, which were weaker during the period.

We also leveraged marketing partnerships and applied our robust focus on compliance to deliver a comprehensive consulting offering to ICO clients.

#### **ICO Advisory**

During the six month period, DigitalX commenced our ICO advisory services and secured five high profile corporate advisory engagements in this sector.

We consulted to Blockchain companies including CoinPoker, Bankera, Etherparty and Power Ledger. Collectively these companies raised more than AU\$300 million.

We provided ICO advisory services under three main categories; technical due diligence, marketing and promotion; and introductions to DigitalX's network.

Technical due diligence

The technical services typically included a crypto-economic review of the businesses token model, review of product at launch and review of smart contracts utilised in the ICO process.

The marketing and promotional services were guided by our marketing partners across cryptocurrency and mainstream media.

This enabled our clients to be featured in some of the world's highest profile media across print, digital and television. DigitalX and our marketing partners created high quality content including videos that were published and shared more than half a million times across mainstream news and social media networks.

As the world's first publicly listed Blockchain company and with a team that has been involved in the entire Blockchain ecosystem including mining, trading and Blockchain development, DigitalX has an enviable network.

We have generated value for our ICO clients by introducing them to high-net-worth cryptocurrency investors and digital currency exchanges.

DigitalX's strong brand and status as a thought leader in the cryptocurrency space resulted in the procurement of ICO advisory clients of an exceptional quality. This led to us advising on some of the world's leading and most high profile ICOs.

The demand for our ICO advisory service, prompted us to scale our staffing levels to continue to provide exceptional quality advice.

#### **Blockchain Consulting**

DigitalX has been ramping up consulting during the period to provide Blockchain strategy, design and development services to a growing list of clients seeking to realise the benefits of the technology.

We entered a joint venture agreement with Stargroup Limited to jointly offer and tailor ATM's for buying and selling Bitcoin. The agreement has subsequently been terminated due to the counterparty entering receivership. DigitalX is now actively looking for further partners in the sector.

The Company was appointed a consultant and advisor to the National Cryptocurrency eXhange (NCX) and provided services over a 6-month term. DigitalX is entitled to receive a share in revenue over the next 18 months in exchange for these services.

Owing to our depth of experience in managing the design, build and implementation of high value infrastructure and digital assets, DigitalX continues to offer expertise and guidance including technical code reviews of products, auditing of smart contracts and wallet security design and best practices.

#### **Blockchain-based Software Products**

#### Airpocket

While DigitalX continued our development of the Airpocket (<a href="www.Airpocket.com">www.Airpocket.com</a>) product, we also engaged in a review of the intellectual property (IP) that the AirPocket application represents by actively reviewing opportunities to direct the software at emerging markets in the cryptocurrency and Blockchain spaces.

We see potential for developing both the Blockchain transaction and identity management/verification technologies which underpin AirPocket and will soon release a review detailing future development and commercialisation options.

#### **Dividends**

No dividends have been paid or declared up to the date of this report. The directors considered but have not recommended the payment of a dividend in the current financial year.

Any future determination as to the payment of dividends by the Company (and the potential creation of a dividend policy for that purpose) will be at the discretion of the directors and will depend on the availability of distributable earnings and operating results and financial condition of the Company, future capital requirements and general business and other factors considered relevant by the directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.

#### **Future Developments**

After successfully scaling up our ICO advisory division, DigitalX is continuing to consider ways to expand our business verticals by building on our strong position as a leader in the Blockchain space.

The decision to open these businesses comes after significant strategic debate and strong demand, which has boosted management's confidence in the potential of these opportunities.

We remain focused on expanding our portfolio of clients across our core divisions of ICO advisory and Blockchain consulting and generating commercial value from Blockchain development.

DigitalX is in a strong position both financially and operationally and we are confident of delivering ongoing growth.

#### **Auditor's Independence Declaration**

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act* 2001 is set out on page 6.

#### **Auditor**

The Directors' Report is signed in accordance with a resolution of the directors made pursuant to s. 306(3) of the Corporations Act 2001.

On behalf of the directors

## Auditor's Independence Declaration to the Directors of DigitalX Limited

In accordance with the requirements of section 307C of the *Corporations Act 2001*, as lead auditor for the review of DigitalX Limited for the half-year ended 31 December 2017, I declare that, to the best of my knowledge and belief, there have been:

- No contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the review; and
- b No contraventions of any applicable code of professional conduct in relation to the review.

## Independent Auditor's Review Report to the Members of DigitalX Limited

#### **Report on the Half Year Financial Report**

#### Conclusion

We have reviewed the accompanying half year financial report of DigitalX Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2017, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half year ended on that date, a description of accounting policies, other selected explanatory notes, and the directors' declaration.

Based on our review, which is not an audit, nothing has come to our attention that causes us to believe that the half year financial report of DigitalX Limited does not give a true and fair view of the financial position of the Group as at 31 December 2017, and of its financial performance and its cash flows for the half year ended on that date, in accordance with the *Corporations Act 2001*, including complying with Accounting Standard AASB 134 *Interim Financial reporting*.

#### Directors Responsibility for the Half Year Financial Report

The Directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express a conclusion on the half year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half year financial report is not in accordance with the Corporations Act 2001 including giving a true and fair view of the Group's financial position as at 31 December 2017 and its performance for the half year ended on that date, and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of DigitalX Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

Grant Thornton Audit Pty Ltd ACN 130 913 594 a subsidiary or related entity of Grant Thornton Australia Ltd ABN 41 127 556 389

'Grant Thornton' refers to the brand under which the Grant Thornton member firms provide assurance, tax and advisory services to their clients and/or refers to one or more member firms, as the context requires. Grant Thornton Australia Ltd is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. GTIL and each member firm is a separate legal entity. Services are delivered by the member firms. GTIL does not provide services to clients. GTIL and its member firms are not agents of, and do not obligate one another and are not liable for one another's acts or omissions. GTIL is not an Australian related entity to Grant Thornton Australia Limited.

Liability limited by a scheme approved under Professional Standards Legislation.

A review of a half year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

#### 1. SIGNIFICANT ACCOUNTING POLICIES

#### (a) Statement of compliance

The half year financial report is a general purpose financial report prepared in accordance with the *Corporations Act 2001* and AASB 134: *Interim Financial Reporting*. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*. The half year report does not include notes of the type normally included in an annual financial report and shall be read in conjunction with the most recent financial report.

#### (b) Basis of preparation

The condensed consolidated financial statements have been prepared on the basis of historical cost except for the revaluation of certain current assets and financial instruments. Cost is based on the fair values of the consideration given in exchange for assets. The half year financial report is presented in US dollars unless stated otherwise.

The accounting policies and methods of computation adopted in the preparation of the half year financial report are consistent with those disclosed in the Company's 2017 annual financial report for the financial year ended 30 June 2017. Revenue recognition policies have been updated to address the Company's policies around Initial Coin Offering consulting revenues.

#### (c) Going Concern

The consolidated entity has incurred a net profit after tax for the half year ended 31 December 2017 of \$8,031,669 (2016: loss \$1,590,182) and generated net cash inflows from operating activities of \$443,353 (2016: net cash outflows \$1,063,422). As at 31 December 2017, the consolidated entity had cash assets of \$4,078,107 (2016: \$972,498) and a working capital surplus of \$14,988,460 (2016: \$485,724).

At the date of this report the consolidated entity's cash flow forecast indicates that it expects to be able to meet its minimum commitments and working capital requirements for the twelve month period from the date of signing the financial report, but this is dependent on the factors as described below.

- Given the volatile nature of the industry in which the consolidated entity operates and the "start-up"
  nature of the businesses, the consolidated entity is subject to a number of risks and uncertainties
  that may adversely impact future cash flows which may in turn result in the consolidated entity
  requiring additional funding, either through raising additional equity or debt.
- Fluctuations in the price of Digital Assets given the consolidated entity's reliance on the success of
  its ICO consulting segment, which is difficult to predict and is highly volatile. The price directly
  influences the profitability of the consolidated entity and the value of Digital Assets inventory held,
  with falls in price lowering profitability and rises in price increasing profitability.

If the consolidated entity is unable to continue as a going concern, it may be required to realise its assets and extinguish its liabilities other than at amounts recorded in the year-end financial statements. No adjustments have been made to the year-end financial report relating to the recoverability and classification of recorded asset amounts, or to the amounts and classification of liabilities that might be necessary should the consolidated entity not continue as a going concern.

#### (d) New Accounting Standards and Interpretations

In the half year ended 31 December 2017, the Company has reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to its operations and effective for annual reporting periods beginning on or after 1 January 2017. It has been determined by the Company that none of the new accounting standards adopted during the reporting period have any impact, material or otherwise, and therefore no change is necessary to Company accounting policies

#### (e) Revenue Recognition

Initial Coin Offering ("ICO") Consulting Revenue

The company provides consulting services for its customers, assisting in the customers' sale of its digital assets, with the sale being conducted as an ICO or a Pre-ICO. In either case, these services are rendered over a period of time until the close of the sale. For the provisioning of its consulting services, the company is remunerated by its customers through the distribution of cash, the customers' digital asset, other digital assets, or a combination of these sources.

The company recognises ICO consulting revenue when all of the following are met:

- Its services have been fully rendered under contract and the company no longer has any continuing involvement in the sale of digital assets by its customers;
- The digital assets have been transferred to a wallet owned by the company, or into an exchange account belonging to the company; and
- The digital asset's value is measurable, which is determined:
  - by referencing publically available pricing data from digital asset exchanges; or
  - o for those digital assets not yet listed on exchanges, by referencing the results of the ICO or Pre-ICO (i.e. the unit price of a digital asset can be measured by dividing the dollar amounts raised in the ICO by the number of units issued in the ICO).

The company measures its ICO consulting revenue at the fair value of the consideration received. Where digital assets are received, the fair value is determined with reference to the price of the digital asset on the date at which the digital asset is transferred to the company's wallet or exchange account.

#### 2. SEGMENT INFORMATION

#### **Segment reporting**

AASB 8 requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance.

Based on the information used for internal reporting purposes by the chief operating decision maker, being the Board and executive committee which makes strategic decisions, at 31 December 2017 the Group operated two reportable segments being, ICO Advisory and software development.

| Total trade and other receivables | 176,359   | 87,754    |

#### 6. CURRENT LIABILITIES - TRADE & OTHER PAYABLES

|                                | 31-Dec-17 | 30-Jun-17 |
|--------------------------------|-----------|-----------|
|                                | US\$      | US\$      |
| Trade payables                 | 96,503    | 169,773   |
| PAYG withholding payable       | 12,517    | 9,430     |
| Total trade and other payables | 109,020   | 179,203   |

#### 7. DISCONTINUED OPERATIONS

#### 1.1 Wind up of Bitcoin mining operations

On the 8 January 2016 the Group and the Bitcoin mining power and hosting provider Verne had actioned an amendment to the master service agreement between the two parties, releasing the Group as at 2 June 2016 from any future financial obligation as was stipulated under the master service agreement.

The termination of the master service agreement marked the full wind up of the bitcoin mining operations.

#### 1.2 Wind up of Bitcoin trading operations

In December 2016, the Group started to wind down its Bitcoin trading operations to concentrate resources on other business segments.

On 7<sup>th</sup> February 2017, the Group announced that it has entered into a binding agreement with Blockchain Group Limited (BGL) , owner of ACX.io, the largest Bitcoin exchange in Australia by volume and order book. The agreement will see the Company wind down its DigitalX Direct operations by introducing DigitalX Direct customers to BGL in consideration for which it will receive 50% of all profit for customers introduced to the BGL digital currency exchange and on their rollout of other exchanges over a five year term. No material amounts have been derived in revenue from this agreement in the half-year financial report.

#### 1.3 Analysis of profit or loss for the year from discontinued operations

The combined results of the discontinued operations (i.e. Bitcoin mining and Bitcoin trading) included in the loss for the year are set out below. The comparative profit and cash flows from discontinued operations have been re-presented to include those operations classified as discontinued in the current year.
