

Titomic Appoints New CEO – Mr. Gilbert Michaca

Highlights:

- Titomic appoints former Siemens, Innothera and Grey Innovation executive Gilbert Michaca as new CEO to drive the company expansion into the global market;
- Proven success in navigating complex projects involving government sovereign capabilities across defence, medical, telecommunications and environment industries;
- Highly experienced in global market expansions in North America, Europe and Asia;
- As indicated in the IPO prospectus, founding Executive Director and current CEO & CTO, Jeff Lang, will now focus on his role as full-time Chief Technical Officer and Board Director.

Melbourne, Australia, 30th April, 2018: The Board of Australian metal additive manufacturing company, Titomic Limited (ASX: TTT) (“Titomic” or “Company”) is pleased to announce the appointment of high-level executive Mr. Gilbert Michaca to serve as the Company’s CEO to lead Titomic through the next phase of the Company’s global expansion. Mr. Michaca will commence the role on 18th June 2018.

Founding Director and current interim CEO & CTO Jeff Lang (Left) will become full-time CTO when new CEO Gilbert Michaca (Right) commences on 18 June 2018.

Mr. Michaca brings with him more than 20 years of industry experience. For the past 7 years, he has been the CEO of defence, environment and medical technology company, Grey Innovation, which also has leading innovative solutions across sectors including rail, transportation, and energy.

Mr. Michaca was instrumental in taking an Australian technology to the world market when he launched the first comprehensive inorganic explosive detection system, which is being deployed in government agencies, military, embassies, airports, oil & gas and rail locations around the world.

Having spent 14 years with Siemens in Switzerland, Germany, France and China, Mr. Michaca was a key member of the Executive Fixed Network Business Unit overseeing strategic R&D and product development responsibilities where he led the Company’s penetration into France; a challenging nationalistic market. Mr. Michaca has headed the expansion of major international operations for global companies into new markets. He holds a Masters in Electronic Engineering from Haute École d’Ingénierie et de Gestion du Canton de Vaud, Switzerland and an Executive MBA from HEC Paris.

Titomic founding Director and current interim CEO, Mr. Jeff Lang will become full time CTO and will focus on expanding the Company’s technical capabilities. Mr. Lang will work closely with Mr. Michaca

to deliver on domestic and international commercial projects and further the Company's vision as the global leader in industrial scale metal additive manufacturing.

Titomic's Chairman, Mr. Philip Vafiadis commented on Mr. Michaca's appointment:

"We are pleased to welcome such an experienced and transformational leader as Gilbert to Titomic. With a focus on international expansion, the Board is confident that we have the right CEO to set the foundations and deliver growth for the path ahead."

About Titomic:

Titomic (ASX:TTT) is headquartered in Melbourne, Australia. The company overcomes limitations of previous additive manufacturing (3D printing) for metals to manufacture complex parts without shape or size constraints. Titomic offers design and manufacturing methods to enable speed-to-market, superior products at lower production costs and using less resources for a more sustainable future.

Titomic additive manufacturing machines that can customise build size to customer requirements offer additive manufacturing advantages at industrial scale. Multiple robots can be utilised to build larger parts, competing with traditional manufacturing solutions for industries such as aerospace and defence, sporting goods, medical, automotive, industrial equipment, construction and marine.

Other benefits of the Titomic Kinetic Fusion technology include:

- Joining dissimilar metals and composites for engineered properties in a structure
- Stronger structures without welding, folding or bending
- Reduced time to market with industry-leading production speeds

Clients will be offered a licence to manufacture via the Titomic Kinetic Fusion technology. Titomic's revenue model will also provide clients with R&D prototyping services, Titomic equipment sales, powder and consumables supply, equipment service and maintenance.
