

ASX/Media Release

Dated: 19 June 2018

INTERMIN CONSOLIDATES TENURE ON THE HIGHLY PROSPECTIVE IDA SHEAR ZONE

HIGHLIGHTS

- New tenure pegged making up the Yarmany Gold Project, 65km west of Kalgoorlie-Boulder in the Western Australian goldfields
- Project area now covers 320km² of greenstone belt including two new Exploration Licence applications contiguous with the Company's 100% owned Yarmany and Area 54 prospects
- Yarmany is located on the highly prospective Ida and Reptile shear zones in close proximity to all required infrastructure
- Data compilation and target generation underway for initial drilling upon final granting of applications expected in the first half of 2019 ¹

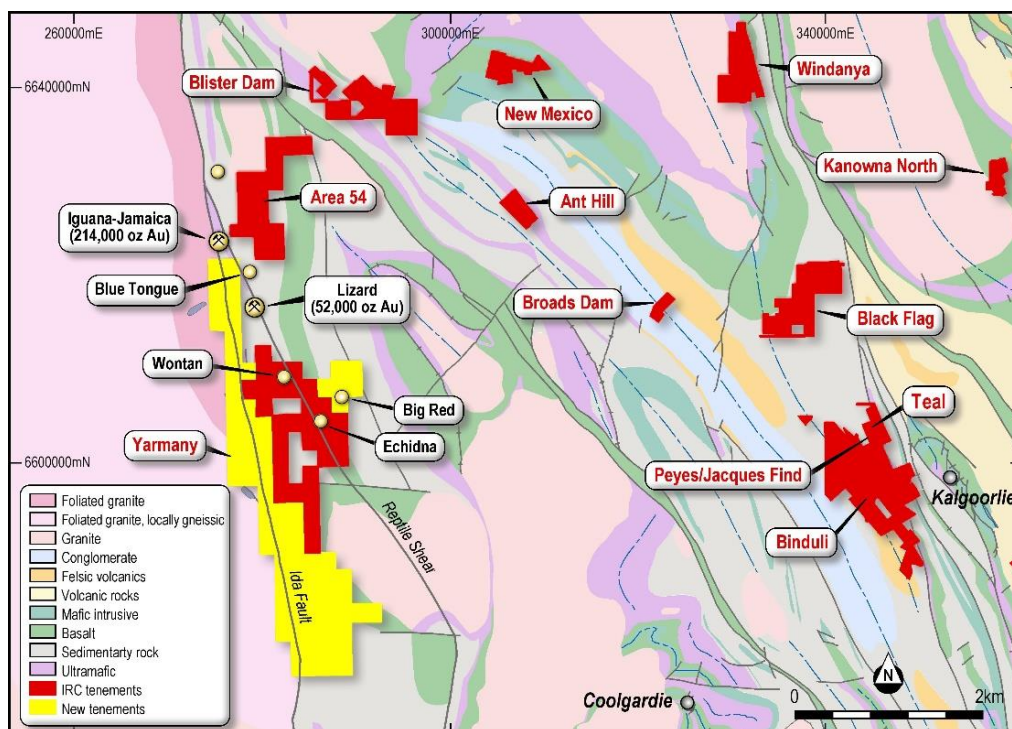

Figure 1: Yarmany Gold Project Area location (in yellow) and regional geology

Commenting on the acquisition, Intermin Managing Director Mr Jon Price said:

"The consolidation of the Yarmany tenure is in line with the Company's strategy of acquiring quality assets on major geological structures contiguous with existing landholding and in close proximity to supporting infrastructure. The area has had limited work completed in the last 20 years and was consolidated through pegging at very low cost."

"The Company now holds a commanding position in the Yarmany project area of over 320km² and has commenced data compilation and target generation for initial drilling upon final granting of the applications. We see great opportunity for Yarmany to join Teal, Anthill and Blister Dam as a key growth project for Intermin in this world class gold producing region."

Overview

Intermin Resources Limited (ASX: IRC) ("Intermin" or the "Company") is pleased to announce the consolidation of tenure making up the Yarmany Gold Project, 65km west of Kalgoorlie-Boulder in Western Australia (Figures 1 and 2). The Company is currently conducting a self-funded 55,000m drilling program targeting resource growth and new discoveries on major geological structures in the world class Western Australian goldfields.

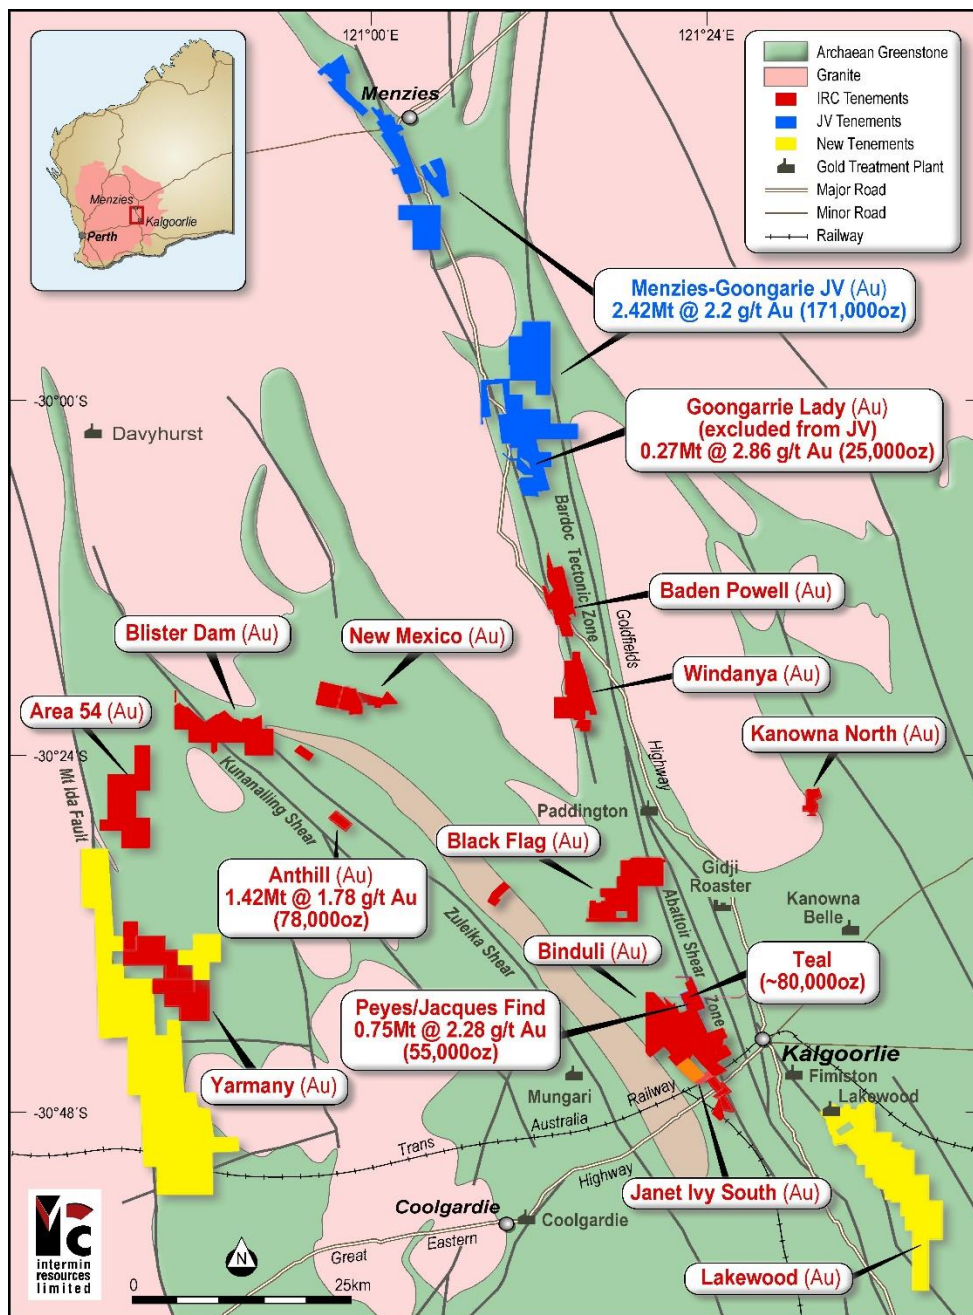

Figure 2: Intermin's project locations and surrounding infrastructure (new acquisitions in yellow)

The Yarmany project area comprises 5 granted tenements and 5 applications. ELA15/1655 (220 km²) and ELA 16/510 (18 km²) are recent applications and cover newly available ground contiguous with the Company's 100% owned Yarmany and Area 54 prospects. Intermin now holds a dominant position overlying the Ida and Reptile Shear zones and covering over 320km².

Previous geochemical work completed (Delta Gold in 1992-2001 and others) identified numerous anomalies, many of which have yet to be followed up. The Iguana - Jamaica and Lizard gold mines along strike of the Company's tenure were developed between 2000 and 2009 producing 68,000 ounces of gold grading 3g/t and have current resources of 201,000oz². Intermin has commenced data compilation and target generation for drilling in early 2019 upon final granting of applications¹.

About Intermin

Intermin is a gold exploration and mining company focussed on the Kalgoorlie and Menzies areas of Western Australia which are host to some of Australia's richest gold deposits. The Company is developing a mining pipeline of projects to generate cash and self-fund aggressive exploration, mine developments and further acquisitions. The Teal gold mine has been recently completed.

Intermin is aiming to significantly grow its JORC-Compliant Mineral Resources, complete definitive feasibility studies on core high grade open cut and underground projects and build a sustainable development pipeline.

Intermin has a number of joint ventures in place across multiple commodities and regions of Australia providing exposure to Vanadium, Copper, PGE's, Gold and Nickel/Cobalt. Our quality joint venture partners are earning in to our project areas by spending over \$20 million over 5 years enabling focus on the gold business while maintaining upside leverage.

Notes:

1. **Competent Persons Statement** - The information in this report that relates to Exploration results, Mineral Resources or Ore Reserves is based on information compiled by Messrs David O'Farrell, Simon Coxhell and Andrew Hawker. All are Members of the Australasian Institute of Mining and Metallurgy and are consultants to Intermin Resources Limited. The information was prepared and first disclosed under the JORC Code 2004 and has been updated to comply with the JORC Code 2012. Messrs O'Farrell, Coxhell and Hawker have sufficient experience that is relevant to the style of mineralisation, type of deposit under consideration and to the activity that they are undertaking to qualify as a Competent Person as defined in the 2012 edition of the 'Australasian Code for Reporting of Exploration, Results, Mineral Resource and Ore Reserves'. Messrs O'Farrell, Coxhell and Hawker consent to the inclusion in this report of the matters based on their information in the form and context in which they appear.

2. **Forward Looking Statements** - No representation or warranty is made as to the accuracy, completeness or reliability of the information contained in this release. Any forward looking statements in this release are prepared on the basis of a number of assumptions which may prove to be incorrect and the current intention, plans, expectations and beliefs about future events are subject to risks, uncertainties and other factors, many of which are outside of Intermin Resources Limited's control. Important factors that could cause actual results to differ materially from the assumptions or expectations expressed or implied in this release include known and unknown risks. Because actual results could differ materially to the assumptions made and Intermin Resources Limited's current intention, plans, expectations and beliefs about the future, you are urged to view all forward looking statements contained in this release with caution. The release should not be relied upon as a recommendation or forecast by Intermin Resources Limited. Nothing in this release should be construed as either an offer to sell or a solicitation of an offer to buy or sell shares in any jurisdiction.

Forward Looking and Cautionary Statements

Some statements in this report regarding estimates or future events are forward looking statements. They include indications of, and guidance on, future earnings, cash flow, costs and financial performance. Forward looking statements include, but are not limited to, statements preceded by words such as “planned”, “expected”, “projected”, “estimated”, “may”, “scheduled”, “intends”, “anticipates”, “believes”, “potential”, “could”, “nominal”, “conceptual” and similar expressions. Forward looking statements, opinions and estimates included in this announcement are based on assumptions and contingencies which are subject to change without notice, as are statements about market and industry trends, which are based on interpretations of current market conditions. Forward looking statements are provided as a general guide only and should not be relied on as a guarantee of future performance. Forward looking statements may be affected by a range of variables that could cause actual results to differ from estimated results, and may cause the Company’s actual performance and financial results in future periods to materially differ from any projections of future performance or results expressed or implied by such forward looking statements. These risks and uncertainties include but are not limited to liabilities inherent in mine development and production, geological, mining and processing technical problems, the inability to obtain any additional mine licenses, permits and other regulatory approvals required in connection with mining and third party processing operations, competition for among other things, capital, acquisition of reserves, undeveloped lands and skilled personnel, incorrect assessments of the value of acquisitions, changes in commodity prices and exchange rate, currency and interest fluctuations, various events which could disrupt operations and/or the transportation of mineral products, including labour stoppages and severe weather conditions, the demand for and availability of transportation services, the ability to secure adequate financing and management’s ability to anticipate and manage the foregoing factors and risks. There can be no assurance that forward looking statements will prove to be correct.

Statements regarding plans with respect to the Company’s mineral properties may contain forward looking statements in relation to future matters that can only be made where the Company has a reasonable basis for making those statements.

This announcement has been prepared in compliance with the JORC Code (2012) and the current ASX Listing Rules.

The Company believes that it has a reasonable basis for making the forward looking statements in the announcement, including with respect to any production targets and financial estimates, based on the information contained in this and previous ASX announcements.
