

**AVZ Minerals
Limited**

29 June 2018

Clarification of Twitter post by Michael Langford on 24 June 2018

On 24 June 2018, Mr Michael Langford posted on Twitter a table comparing AVZ Minerals Ltd (“AVZ” or the “Company”) to a number of other lithium companies (“Twitter Post”). The Twitter Post presented information in relation to AVZ which included, among other information, a mineral resource estimate and production cost estimates for the Company.

Michael Langford is a principal of Airguide International Pte Ltd (“Airguide”), which entity is engaged as the Company’s strategic advisor to facilitate and advise on key relationships and a broader work program aimed at securing value-added commercial agreements with relevant counter-parties in China.

The Company advises that it has yet to report a mineral resource estimate in accordance with the JORC Code 2012 or any technical studies involving production cost estimates to a level where it has ‘reasonable grounds’ under ASIC Regulatory Guide 170 to disclose this forecast financial information to the market.

The Company warns that investors should not rely on information in relation to AVZ securities other than the Company’s announcements made through the ASX Market Announcements Platform.
