

ASX ANNOUNCEMENT

4 September 2018

ARGENTINA EXPORT TAX STATEMENT

Argosy Minerals Limited (ASX: **AGY**) ("**Argosy**" or "**Company**") provides the following with regard to an overnight announcement by the Argentina federal government in relation to export taxes.

President Macri has made a statement that the country will impose a new temporary tax of 3 Pesos per US Dollar of export value on goods shipped internationally (other than agricultural exports, which will be taxed at 4 Peso per US Dollar), which is equivalent to approximately 7.9% based on current exchange rates. In the statement, it was noted the tax will only be in place through to the end of 2020.

The Company is currently seeking more information from its Argentina-based advisers on this matter.

Argosy further notes that the Argentine Peso has fallen by approximately 50% against the US Dollar so far during 2018, thereby substantially reducing the US Dollar equivalent costs of any locally incurred capital and operating expenses by the Company.

The Company confirms that on-going works are progressing as planned, with continued focus on the Stage 1 industrial scale pilot plant lithium processing works, finalising the Preliminary Economic Assessment report and the Stage 1 LCE Product off-take agreement.
