This Offer Price represents a 33% discount to the 10 day volume-weighted average price of Shares (being \$0.300) as at 20 September 2018.

This Entitlement Offer is to be undertaken in conjunction with a placement to institutional investors for 42,034,892 Shares at the Offer Price, raising approximately \$8.4 million (**Placement**). The Entitlement Offer comprises an accelerated institutional component to raise approximately \$20 million (**Institutional Entitlement Offer**), and a retail component to raise approximately \$6.7 million (**Retail Entitlement Offer**). The Institutional Entitlement Offer will be undertaken on 21 September 2018. This offer document (**Prospectus**) relates to the Retail Entitlement Offer only.

It is proposed that the funds raised from the Placement and the Entitlement Offer will be applied for the purposes of repayment of debt, acceleration of exploration activities and to meet the costs of the Placement and the Entitlement Offer.

A personalised Entitlement and Acceptance Form is attached to this Prospectus and sets out the number of New Shares you are entitled to subscribe for as an Eligible Shareholder (**Entitlement**). - (b) the Retail Entitlement Offer - an offer to Eligible Retail Shareholders.

Both the Institutional Entitlement Offer and the Retail Entitlement Offer are non-renounceable. Accordingly, Entitlements cannot be traded on the ASX, nor can they be sold, transferred or otherwise disposed of. If you do not participate in the Entitlement Offer, you will not receive any value for your Entitlement.

The Entitlement Offer is fully underwritten by the Joint Lead Managers, Bell Potter Securities Limited and Euroz Securities Limited.

The Placement will also be undertaken by the Company at the same Offer Price.

The Offer Price of \$0.20 per New Share represents a 33% discount to the 10 day volume-weighted average price for Shares (being \$0.300) as at 20 September 2018.

The Company has Vested Options and CRPS on issue, which could increase the number of New Shares to be issued if the holders of Vested Options exercise their Vested Options prior to the Record Date or if the CRPS Holders convert their CRPS to Shares prior to the Record Date. However, as outlined in section 5.2, the Company does not expect that any further New Shares will need to be issued as a result of the exercise of rights under the Vested Options or the CRPS.

On the same date as announcing the Offer, the Company applied to the ASX for the New Shares to be granted Official Quotation on the ASX. Official Quotation of the New Shares is expected to occur on or about 17 October 2018.

The Directors may at any time decide to withdraw this Prospectus and the offer of New Shares made under this Prospectus, in which case the Company will return all applications moneys (without interest) within 28 days of giving notice of such withdrawal.

1.3 Retail Entitlement Offer

The Retail Entitlement Offer constitutes an offer to Eligible Retail Shareholders only. The Retail Entitlement Offer will raise approximately \$6.7 million.

Eligible Retail Shareholders who are on the Company register on the Record Date are entitled to acquire 1 New Share for every 2.1 Shares held on the Record Date (**Entitlement**).

The Retail Entitlement Offer is non-renounceable. Accordingly, Entitlements do not trade on the ASX, nor can they be transferred or otherwise disposed of.

An Entitlement and Acceptance Form setting out your Entitlement accompanies this Prospectus. Eligible Retail Shareholders may subscribe for all or part of their Entitlement. Eligible Retail Shareholders who accept their Entitlement in full and do not apply for (and receive) a sufficient number of Additional New Shares from the Retail Entitlement Shortfall Facility will experience a reduction in their percentage holding as a consequence of the conduct of the Placement with the Entitlement Offer. Eligible Retail Shareholders who do not take up all of their Entitlements will have their percentage shareholding in the Company further diluted. See section 5.4 for further details.

Eligible Retail Shareholders should be aware that an investment in the Company involves risks. The key risks identified by the Company are summarised in Section 1.7 and set out in section 6 of this Prospectus.

- Broader long term copper thematic remains positive.

1.7 Risk factors

Investing in the Company involves risk. There are factors, both specific to the Company and of a general nature, which may affect the future operating and financial performance of the Company. Some of these factors can be mitigated by appropriate commercial action. However, many are outside the control of the Company, dependent on the policies adopted and approaches taken by regulatory authorities, or cannot otherwise be mitigated. If you are unsure about subscribing for New Shares, you should first seek advice from your stockbroker, accountant, financial or other professional adviser.

The following sets out a summary of some of the key risks relevant to the Company and its operations:

Risk	Details
Commodity Price Risk	The Company derives its revenue mainly from the sale of copper and/or associated minerals. Consequently, the Company's potential future earnings, profitability and growth are likely to be closely related to the demand for and price of copper and associated minerals. As copper is a traded commodity, its long-term price may rise or fall in accordance with demand for copper. The Company has entered into hedging arrangements to partially protect its position against changes in the copper price for deliveries out to February 2019. However, when these arrangements expire, there is no guarantee that the Company will be able to secure replacement hedging arrangements on terms satisfactory to the Company.
Foreign Exchange Risk	A number of the Company's commercial arrangements, including copper sale arrangements and finance arrangements, are based on US dollars. The Company also acquires equipment from overseas using foreign currency. Accordingly, the revenues, earnings, costs, expenses, assets and liabilities of the Company may be exposed adversely to exchange rate fluctuation.
Operational and Cost Risk	The Company is a producer of copper which is sold under commercial contracts. The Company's immediate plans and objectives are dependent upon a continuation of such production generating operating surpluses to assist the Company in funding its planned expenditure programs. Whether it can do this will depend largely upon an efficient and successful, operation and exploitation of the resources and associated business activities and management of commercial factors. Operation and exploitation may from time to time be hampered by unforeseen operating risks beyond the control of the Company which can negatively impact on the Company's activities, thereby affecting its profitability and ultimately, the value of its securities.
Development and Exploration Risk	Mineral exploration and development are high risk undertakings and involve significant risks. The Company's performance depends on the successful exploration and/or acquisition of resources or reserves and commercial production therefrom. There can be no assurances that the Company's exploration programs described in this Prospectus or those relating to any projects or tenements that the Company may acquire in the future, will result in the discovery of a significant base metal and/or precious metal deposit, and even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.
Acquisition Risk	The Company's growth plans require the availability of appropriate and suitable acquisition targets and the Company being able to successfully negotiate the acquisition of those targets. There is no guarantee that that Company will be able to identify and acquire suitable acquisition targets or that successful acquisitions will be able to be efficiently integrated into the operations of the Company. The failure to make and integrate suitable acquisitions could impact the Company's operations and financial results.
Contractual and	The Company's ability to efficiently conduct its operations in a number of

Risk	Details
Joint Venture Risk	<p>respects depends upon third party product and service providers and contracts. Accordingly, in some circumstances, contractual arrangements have been entered into by the Company and its subsidiaries. As in any contractual relationship, the ability for the Company to ultimately receive benefits from these contracts is dependent upon the relevant third party complying with its contractual obligations.</p> <p>Any current or future joint ventures entered into by, or interests in joint ventures assigned to, the Company could be affected by the failure or default of any of the joint venture participants.</p>
Additional capital requirements	The Company's capital requirements depend on numerous factors which may require the Company to seek further financing in addition to amounts raised under this Prospectus. There is no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company and such circumstances may require the Company to reduce the scope of its operations and scale back its exploration programs.
Regulatory Risk	The governments of the relevant States and Territories in which the Company has interests conduct reviews from time to time of policies in connection with the granting and administration of tenements. There is a risk that changes to policy may affect the Company's exploration, development and operational plans or, indeed, its rights and/or obligations with respect to the tenements.
Key Personnel Risk	The Company has a small senior management and technical team. Its ability to deliver on its operating plans and to progress its exploration and evaluation programs within the time frames and within the costs structure as currently envisaged could be dramatically influenced by the loss of key personnel. The resulting impact from such loss would be dependent upon the quality and timing of the replacement of such personnel.
Environmental	The Company's projects are subject to laws and regulations in relation to environmental matters. As a result, there is the risk that the Company may incur liability under these laws and regulations, which the Company proposes to manage by conducting its programs in a responsible manner with regard to the environment.
Native Title and Heritage Risk	In carrying out exploration and/or mining operations, the Company must (where applicable) observe Native Title legislation, Aboriginal heritage legislation and heritage legislation which protects sites and objects of significance and these may delay or impact adversely on the Company's operations.
Economic Risk	Changes in the general economic climate in which the Company operates, and which are beyond the control of the Company, may adversely affect the financial performance of the Company.
Share Market Risk	The market price of the Company's securities will be subject to varied and often unpredictable influences in the share market. Both domestic and world economic conditions may affect the performance of the Company. Factors such as the level of industrial production, inflation and interest rates impact all commodity prices.

Further details regarding risks which may affect the Company in the future are set out in section 6.

The New Shares offered under this Prospectus carry no guarantee of profitability, dividends, return of capital or the price at which they may trade on ASX. The past performance of the Company should not necessarily be considered a guide to its future performance.

The Company has agreed to pay the Joint Lead Managers the fees as set out in section 1.12 in relation to the Underwriting Agreement.

The Company has agreed to reimburse the Joint Lead Managers in respect of expenses incurred incidental to the Placement and the Entitlement Offer as set out in section 1.12 in relation to the Underwriting Agreement. The Company also indemnifies the Joint Lead Managers and related persons against losses, liabilities and claims in respect of the Placement and the Entitlement Offer.

See section 7.1 for more details in relation to the engagement of the Joint Lead Managers.

1.12 **Underwriters**

Bell Potter Securities Limited and Euroz Securities Limited have been appointed as the joint underwriters to the Entitlement Offer. Further details of the terms of appointment of the Joint Lead Managers as underwriters are set out in section 7.2.

The Underwriting Agreement is subject to standard terms and conditions.

The key terms of the Underwriting Agreement are as follows:

- (a) each of the Joint Lead Managers is severally liable for their respective portion of the underwritten amount, which is allocated equally between the Joint Lead Managers;
- (b) the fees payable under the Underwriting Agreement are as follows:

- (1) a management fee equal to 2% of the gross funds raised under the Placement, the Institutional Entitlement Offer and the Retail Entitlement Offer (**Management Fee**);
- (2) an equity raising fee equal to 3% of the gross funds raised under the Placement, the Institutional Entitlement Offer and the Retail Entitlement Offer plus GST (**Equity Raising Fee**); and
- (3) a discretionary equity raising fee equal to 0.5% of the gross funds raised under the Placement, the Institutional Entitlement Offer and the Retail Entitlement Offer (**Discretionary Fee**),

to be paid in equal proportions between the Joint Lead Managers. The Discretionary Fee is payable at the discretion of the Company and will be communicated to the Joint Lead Managers prior to the settlement date for the relevant component of the Entitlement Offer.

- (c) the Company has agreed to reimburse the Joint Lead Managers in respect of certain expenses incurred;
- (d) the underwriting is conditional upon a number of procedural conditions precedent being satisfied by the Company;
- (e) in addition, the underwriting of the Institutional Entitlement Offer is conditional on SPOV having entered into the Commitment and Sub-Underwriting Agreement (refer to sections 1.13 and 7.3:
- (f) furthermore, the underwriting of the Retail Entitlement Offer is conditional on SPOV performing its obligations under the Commitment and Sub-Underwriting Agreement in relation to its participation in the Institutional Entitlement Offer and also on the Company issuing the New Shares under the Institutional Entitlement Offer;
- (g) the underwriting obligations can be terminated by the underwriters in a number of circumstances where there is a contravention of the agreement or other legal requirements or where an adverse change occurs which materially impacts or is likely to impact, the assets, operational or financial position of the Company or the terms of the Entitlement Offer (further details of which are set out in section 7.2); and
- (h) the Company gives various warranties, indemnities and covenants in favour of the Underwriters that are considered standard for an agreement of this nature.

1.13 Firm Commitment and Sub-Underwriting

The Joint Lead Managers have secured agreement from the Company's largest shareholder, SPOV, to provide a firm commitment to subscribe for \$7,000,000 of New Shares under the Institutional Entitlement Offer and to fully sub-underwrite the Retail Entitlement Offer.

The Commitment and Sub-Underwriting Agreement is subject to standard terms and conditions.

The key terms of the Sub-Underwriting Agreement are as follows:

- (a) SPOV will receive a sub-underwriting fee equal to 1% of the final sub-underwritten amount in relation to the Retail Entitlement Offer (but will not receive a fee in relation to its commitment to the Institutional Entitlement Offer);
- (b) the sub-underwriting obligations can only be terminated if the Underwriters obligations under the Underwriting Agreement cease or are terminated.

1.14 **Applying for Additional Shares**

Entitlements not taken up under the Retail Entitlement Offer may become available as Additional New Shares. Eligible Retail Shareholders may, in addition to their Retail Entitlements, apply for New Shares over and above their Retail Entitlement at the Offer Price (**Additional New Shares**) regardless of the size of their present holding.

It is an express term of the Retail Entitlement Offer that applicants for Additional New Shares will be bound to accept a lesser number of Additional New Shares allocated to them than applied for. If a lesser number is allocated to them, excess Application Money will be refunded without interest. There is no guarantee that such Eligible Retail Shareholders will receive the number of Additional New Shares applied for, or indeed, any Additional New Shares at all.

The number of New Shares issued under the Retail Entitlement Shortfall Facility will not exceed the Retail Entitlement Shortfall following the Retail Entitlement Offer. The Company reserves the right to scale back any applications for Additional New Shares in their absolute discretion.

The ability for the Company to issue Additional New Shares is dependent upon the extent of any Retail Entitlement Shortfall. Applications for Additional New Shares must be made in the Additional New Shares section on the Entitlement and Acceptance Form accompanying this Prospectus.

As the Retail Entitlement Offer is fully underwritten, the Directors, in conjunction with the Joint Lead Managers, shall allot and issue Additional New Shares in accordance with the allocation policy for the Retail Entitlement Shortfall set out in Section 3.7.

The allocation of Additional New Shares will also be done in a manner which will ensure that no Shareholder (excluding SPOV) or other investor (including the Joint Lead Managers as the Underwriters) will as a consequence of taking up their Entitlement and being issued any Additional New Shares (or New Shares from the Retail Entitlement Shortfall) hold a relevant interest of more than 19.99% of all of the Shares in the Company after the Placement and this Issue. In the case of SPOV, who already hold a relevant interest of more than 19.99%, they will not be permitted to increase their relevant interest from the current level of 50%.

1.15 **Allotment and allocation policy**

The Company will proceed to allocate New Shares as soon as possible after the Closing Date and receiving ASX permission for official quotation of the New Shares.

Allocation of New Shares applied for under the Retail Entitlement Shortfall Facility will be allocated and allotted in accordance with the allocation policy set out in Section 3.7. Successful Applicants will be notified in writing of the number of New Shares allocated to them as soon as possible following the allocation being made.

It is the responsibility of Applicants to confirm the number of New Shares allocated to them prior to trading in New Shares. Applicants who sell New Shares before they receive notice of the number of New Shares allocated to them do so at their own risk.

2. Details of the Offer

2.1 Offer to Eligible Shareholders

The Entitlement Offer is for an accelerated non-renounceable entitlement offer of approximately 133,444,104 New Shares at an Offer Price of \$0.20 per New Share, on the basis of 1 New Share for every 2.1 Shares held by Eligible Shareholders as at the Record Date.

The Entitlement Offer has two components:

- (a) the Institutional Entitlement Offer - an initial offer to Eligible Institutional Shareholders; and
- (b) the Retail Entitlement Offer - an offer to Eligible Retail Shareholders.

Both the Institutional Entitlement Offer and the Retail Entitlement Offer are non-renounceable. Accordingly, Entitlements cannot be traded on the ASX, nor can they be sold, transferred or otherwise disposed of.

The Institutional Entitlement Offer and the Retail Entitlement Offer are both underwritten by the Joint Lead Managers, Bell Potter Securities Limited and Euroz Securities Limited, with sub-underwriting provided by the Company's largest shareholder, SPOV.

The Company is also undertaking the Placement at the Offer Price to raise an additional \$8.4 million, for a total amount received of \$35.1 million.

The Offer Price of \$0.20 per New Share represents a 33% discount to the 10 day volume-weighted average price for Shares (being \$0.300) as at 20 September 2018.

The Company has 44,370,041 Vested Options and 93,410,609 CRPS currently on issue, and the Entitlement Offer would be increased by a total of 21,128,592 New Shares if holders of Vested Options exercise their Vested Options prior to the Record Date and by an additional 44,481,243 New Shares if CRPS Holders convert their CRPS prior to the Record Date. However, the Company has received notification that no Vested Options are to be exercised and that no CRPS are to be converted before the Record Date (see sections 2.12 and 2.13 for details). Accordingly, the number of New Shares to be issued should not increase.

On the same date as announcing the Entitlement Offer, the Company applied to the ASX for the New Shares to be granted official quotation on the ASX. Official quotation of the New Shares is expected to occur on or about 17 October 2018.

2.2 Institutional Entitlement Offer

The Company proposes to raise approximately \$20 million under the Institutional Entitlement Offer.

New Shares issued under the Institutional Entitlement Offer will be issued at the same price and at the same ratio as those being offered under the Retail Entitlement Offer. The announcement of the results of the Institutional Entitlement Offer will be made on 25 September 2018 and the issue of New Shares under the Institutional Entitlement Offer is expected to occur on 1 October 2018.

2.3 Retail Entitlement Offer

The Retail Entitlement Offer constitutes an offer to Eligible Retail Shareholders only. The Retail Entitlement Offer will raise approximately \$6.7 million.

Eligible Retail Shareholders who are on the Company register on the Record Date are entitled to acquire 1 New Share for every 2.1 Shares held on the Record Date (**Retail Entitlement**).

Fractional Entitlements will be rounded up to the nearest whole number of New Shares.

The Retail Entitlement Offer is non-renounceable. Accordingly, Retail Entitlements do not trade on the ASX, nor can they be transferred or otherwise disposed of.

An Entitlement and Acceptance Form setting out your Entitlement accompanies this Prospectus. Eligible Retail Shareholders may subscribe for all or part of their Retail Entitlement. Eligible Retail Shareholders who only accept their Entitlement, in full, without applying for Additional New Shares under the Retail Entitlement Shortfall Facility will experience a reduction in their percentage holding of 9.22% as a consequence of the Placement. Eligible Retail Shareholders can apply for an appropriate number of Additional New Shares to either avoid or minimise the dilution of their percentage holding. Eligible Retail Shareholders who do not take up all of their Retail Entitlements will have their percentage shareholding in the Company diluted by up to 38.51%.

Eligible Retail Shareholders should be aware that an investment in the Company involves risks. The key risks identified by the Company are summarised in Section 1.7 and set out in section 6 of this Prospectus.

2.4 Minimum subscription

There is no minimum subscription. The Retail Entitlement Offer is fully underwritten. See sections 1.12 and 7.2 for details of the Underwriting Agreement.

In the case that there is less than full subscription by Shareholders of their Entitlements under this Prospectus, the Directors in consultation with the Joint Lead Managers, will allocate the Retail Entitlement Shortfall between Eligible Shareholders who apply for Additional New Shares, the Underwriters and SPOV in accordance with the allocation policy in section 3.7.

If granted, Quotation of the New Shares will commence as soon as practicable after allotment of the New Shares to Applicants and is expected to occur on or about 17 October 2018. It is the responsibility of the Applicants to determine their allocation of New Shares prior to trading. ASX Participating Organisations (as defined in the ASX Business Rules) cannot deal in the New Shares either as principal or agent until Official Quotation is granted.

Should the New Shares not be granted Official Quotation on the ASX within three months after the date of this Prospectus, none of the New Shares offered under this Prospectus will be issued and all Application Money will be refunded without interest to Applicants within the time prescribed by the *Corporations Act*.

2.8 CHESS

The Company will apply to ASX Settlement for the New Shares to participate in the Securities Clearing House Electronic Subregister System known as CHESS.

The Company will not issue certificates to Shareholders with respect to the New Shares. After allotment of the New Shares, those who are issuer sponsored holders will receive an issuer sponsored statement and those who are CHESS holders will receive an allotment advice.

The CHESS statements, which are similar in style to bank account statements, will set out the number of New Shares allotted to each successful applicant pursuant to this Prospectus. The statement will also advise holders of their holder identification number. Further statements will be provided to holders which reflect any changes in their holding in the Company during a particular month.

2.9 No rights trading

Entitlements to New Shares pursuant to the Entitlement Offer are non-renounceable and accordingly will not be traded on the ASX.

2.10 Lead Manager

Bell Potter and Euroz have been appointed as the Joint Lead Managers to the Entitlement Offer. Further details of the appointment of the Joint Lead Managers are set out in section 7.1.

2.11 Underwriting

The Offer is fully underwritten by the Joint Lead Managers. Further details regarding the appointment of the Joint Lead Managers as Underwriters are set out in sections 1.12 and 7.2.

The Retail Entitlement Offer is also sub-underwritten by SPOV, the Company's largest shareholder. Further details regarding the appointment of SPOV as a sub-underwriter are set out in sections 1.13 and 7.3.

2.12 Option Holders

Option Holders will not be entitled to participate in the Offer unless they:

- (a) have become entitled to exercise their Vested Options under the terms of their issue and do so prior to the Record Date; and
- (b) participate in the Offer as a result of being an Eligible Shareholder at 7.00pm (Sydney time) on the Record Date.

Details of the Vested Options are set out in section 5.2.

If all holders of Vested Options were to elect to exercise their Vested Options prior to the Record Date, and become eligible to participate in the Offer, a further 21,128,592 (approximately) New Shares may be issued under this Prospectus. However, the holders of the Vested Options have notified the Company that they will not exercise their Vested Options prior to the Record Date, therefore no additional New Shares will be issued under the Prospectus on account of the exercise of the Vested Options.

2.13 CRPS Holders

CRPS Holders will not be entitled to participate in the Offer unless they:

- (a) have become entitled to convert their CRPS under the terms of their issue and do so prior to the Record Date; and
- (b) participate in the Offer as a result of being an Eligible Shareholder at 7.00pm (Sydney time) on the Record Date.

If all holders of CRPS were to convert their CRPS into Shares prior to the Record Date, and become eligible to participate in the Retail Entitlement Offer, a further 44,481,243 (approximately) New Shares may be issued under this Prospectus. Details of the CRPS are set out in section 5.2.

However, the conversion of the CRPS into Shares takes effect on the 5th business day after notice of conversion has been received by the Company and, as at the date of this Prospectus, the Company has not received a notice of conversion from the CRPS Holders. In addition, the CRPS Holders have advised the Company that they do not propose to convert any of the CRPS prior to the Record Date. Therefore no additional New Shares will be issued under the Prospectus on account of the conversion of CRPS.

2.14 Eligibility of Retail Shareholders

The Retail Entitlement Offer is being offered to all Eligible Retail Shareholders only. Eligible Retail Shareholders are Retail Shareholders on the Record Date who:

- (a) have a registered address in Australia, New Zealand, United Kingdom, Singapore and Hong Kong or is a Shareholder that the Company has otherwise determined is eligible to participate;
- (b) are not in the United States and are not a person (including a nominee or custodian) acting for the account or benefit of a person in the United States; and
- (c) are eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer without any requirement for a prospectus or other disclosure document to be lodged or registered.

2.15 Ineligible Shareholders

The Retail Entitlement Offer will only be made to those shareholders with registered addresses in Australia, New Zealand, United Kingdom, Singapore and Hong Kong.

The Retail Entitlement Offer will be made in New Zealand, United Kingdom, Singapore and Hong Kong as these are jurisdictions in which the Company has sought advice or is otherwise satisfied that it may make the Retail Entitlement Offer without breach of the relevant jurisdictions law and regulations.

We note that the Institutional Entitlement Offer will be made in British Virgin Islands, Bermuda and Ireland, being jurisdictions in which the Company has sought advice or is otherwise satisfied that it may make the Institutional Entitlement Offer without breach of the relevant jurisdictions law and regulations. As the remaining number of Retail Shareholders in those jurisdictions will be small (if any), the Retail Entitlement Offer will not be made in those jurisdictions.

The Company has decided that it is unreasonable to make offers under the Retail Entitlement Offer to Shareholders with registered addresses outside of Australia, New Zealand, United Kingdom, Singapore and Hong Kong (including those additional jurisdictions in which the Institutional Entitlement Offer will be made, being British Virgin Islands, Ireland and Bermuda) having regard to the number of Shareholders in those places, the number and value of the New Shares they would be offered and the cost of complying with the legal and regulatory requirements in those places. Accordingly, the Retail Entitlement Offer is not being extended to, and does not qualify for distribution or sale by, and no New Shares will be issued to, shareholders having registered addresses outside Australia, New Zealand, United Kingdom, Singapore and Hong Kong.

This Prospectus and Entitlement and Acceptance Form do not, and are not intended to, constitute an offer of New Shares in any place outside of Australia, New Zealand, United Kingdom, Singapore and Hong Kong in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Retail Entitlement Offer. The distribution of this Prospectus and Entitlement and Acceptance Form in jurisdictions outside of Australia, New Zealand, United Kingdom, Singapore and Hong Kong may be restricted by law and persons who come into possession of this Prospectus and the accompanying form should seek advice on and observe those restrictions. Any failure to comply with those restrictions may constitute a violation of applicable securities laws.

In particular the Retail Entitlement Offer is not made in the United States or to persons (including nominees or custodians) acting for the account or benefit of a person in the United States, or to any person who is ineligible under applicable securities laws in any country to receive an offer under the Prospectus without any requirement for a prospectus to be lodged or registered.

2.16 Notice to nominees and custodians

Nominees and custodians may not distribute any part of this document in the United States or in any other country outside of Australia, New Zealand, United Kingdom, Singapore and Hong Kong, except to beneficial Shareholders in another country (other than the United States) where the Company may

determine it is lawful and practical to make the Offer. Any person in the United States with a holding through a nominee may not participate in the Offer.

2.17 **Electronic prospectus**

An electronic version of this Prospectus is available on the Internet at www.aerisresources.com.au.

The Entitlement and Acceptance Form may only be distributed together with a complete and unaltered copy of the Prospectus. The Company will not accept a completed Entitlement and Acceptance Form if it has reason to believe that the investor has not received a complete paper copy or electronic copy of the Prospectus or if it has reason to believe that the Entitlement and Acceptance Form or electronic copy of the Prospectus has been altered or tampered with in any way.

While the Company believes that it is extremely unlikely that in the Offer period the electronic version of the Prospectus will be tampered with or altered in any way, the Company cannot give any absolute assurance that it will not be the case. Any investor in doubt concerning the validity or integrity of an electronic copy of the Prospectus should immediately request a paper copy of the Prospectus directly from the Company or the Share Registry.

For personal use only

3. How to apply

3.1 Your choices as an Eligible Retail Shareholder

The number of New Shares to which each Eligible Retail Shareholder is entitled (**Retail Entitlement**) is calculated as at the Record Date of **7:00pm Sydney time on 25 September 2018** and is shown on the personalised Entitlement and Acceptance Form accompanying this Prospectus. If you have more than one registered holding of Shares, you will be sent more than one Entitlement and Acceptance Form and you will have separate Retail Entitlements for each separate holding.

Eligible Retail Shareholders may:

- (a) take up their Retail Entitlement in full, refer to section 3.2;
- (b) take up their Retail Entitlement in full, and apply for Additional New Shares under the Retail Entitlement Shortfall Facility (refer to Section 3.3);
- (c) take up part of their Retail Entitlement, in which case the balance of their Retail Entitlement would lapse (refer to Section 3.4); or
- (d) allow their Retail Entitlement to lapse (refer to Section 3.5).

Ineligible Shareholders may not take up any of their Retail Entitlement.

Please note that the Retail Entitlement stated on your Entitlement and Acceptance Form may be in excess of the actual Entitlement you may be permitted to take up where, for example, you are holding Shares on behalf of a person in the United States (refer to the definition of Eligible Retail Shareholders in Section 2.15). Eligible Retail Shareholders should be aware that an investment in the Company involves risks. The key risks identified by the Company are set out in Section 6.

The Company reserves the right to reject any Application that is received after the Closing Date. Unless extended in the discretion of the Company in consultation with the Joint Lead Managers, the Closing Date for acceptance of the Retail Entitlement Offer is **5:00pm (Sydney time) on 9 October 2018**.

3.2 How to accept your Retail Entitlement in full

If you wish to accept the whole of your Retail Entitlement, complete and return the Entitlement and Acceptance Form which is attached to this Prospectus in accordance with the instructions set out on the Form and forward the completed Form together with payment for the full amount so as to reach the Share Registry by no later than **5.00pm (Sydney time) on 9 October 2018**. Payment may be made by cheque, bank draft or BPAY®. The Offer Price of \$0.20 per New Share is payable in full on acceptance of part or all of your Entitlement.

Cheques should be in Australian currency and made payable to "Aeris Resources Limited - Rights Issue Account" and crossed "not negotiable".

Completed Forms and accompanying cheques should be lodged at or forwarded to the following address:

Link Market Services Limited	OR	Link Market Services Limited

Entitlement and Acceptance Forms will not be accepted at the Company's registered office.

If you make payment by BPAY®, you do not need to return your Entitlement and Acceptance Form, however, your payment must be received by no later than **5:00pm (Sydney time) on 9 October 2018**. It is your responsibility to ensure that your BPAY payment is received by the Company's share registry by no later than 5:00pm on the Closing Date. You should be aware that your financial institution may implement earlier cut-off times with regards to electronic payment and you should take this into consideration when making payment.

No brokerage, handling fees or stamp duty is payable by Applicants in respect of their applications for New Shares under this Prospectus. The amount payable on acceptance will not vary during the period of the Retail Entitlement Offer and no further amount is payable on allotment. Application Money will be held in trust in a subscription account until allotment of the New Shares. The subscription account will be established and kept by the Company on behalf of the Applicants. Any interest earned on the Application Money will be retained by the Company irrespective of whether allotment takes place.

3.3 How to accept your Retail Entitlement in full and apply for Additional New Shares

If you wish to accept all of your Retail Entitlement and also apply for Additional New Shares under the Retail Entitlement Shortfall Facility, complete the accompanying Entitlement and Acceptance Form for New Shares and also the Top Up section in accordance with the instructions set out in the Form.

In order to apply for Additional New Shares under the Retail Entitlement Shortfall Facility you must be an Eligible Retail Shareholder and must have first taken up your Retail Entitlement in full.

Amounts received by the Company in excess of the Offer Price multiplied by your Retail Entitlement (**Excess Amount**) will be treated as an Application to apply for as many additional New Shares as your Excess Amount will pay for in full.

If you apply for Additional New Shares under the Retail Entitlement Shortfall Facility and your Application is successful (in whole or in part), your Additional New Shares will be issued at the same time that other New Shares are issued under the Retail Entitlement Offer. The basis on which the Directors will allocate and issue Additional New Shares under the Retail Entitlement Shortfall Facility is set out in Section 3.7.

Refund amounts, if any, will be paid in Australian dollars. You will be paid either by cheque sent by ordinary post to your address as recorded on the share register (the registered address of the first-named in the case of joint holders), or by direct credit to the nominated bank account as noted on the share register as at the Closing Date of the Retail Entitlement Offer.

3.4 How to accept your Retail Entitlement in part

Eligible Retail Shareholders may accept their Retail Entitlement in part and allow the balance to lapse.

If you wish to take up only a part of your Retail Entitlement, complete the Entitlement and Acceptance Form for the number of New Shares that you wish to apply for and follow the other steps in accordance with section 3.2.

You may arrange for payment through BPAY in accordance with the instructions on the Entitlement and Acceptance Form. If the Company receives an amount that is less than the Offer Price multiplied by your Retail Entitlement (**Reduced Amount**), your payment will be treated as an Application for as many New Shares as your Reduced Amount will pay for in full.

If you do not take up all of your Entitlement in accordance with the instructions set out above, any New Shares that you would have otherwise been entitled to under the Retail Entitlement Offer may be offered under the Retail Entitlement Shortfall Facility or issued to the Joint Lead Managers (as the Underwriters) or SPOV (as a sub-underwriter). See sections 1.14 and 3.7 for further details.

3.5 If you do not wish to accept any of your Retail Entitlement

Eligible Retail Shareholders do not have to accept any of their Retail Entitlement.

If you do not wish to accept any of your Retail Entitlement, do not take any further action and your Retail Entitlement will lapse and any New Shares that you would have otherwise been entitled to under the Retail Entitlement Offer may be offered under the Entitlement Shortfall Facility or issued to the Joint Lead Managers (as the Underwriters). See sections 1.14 and 3.7 for further details.

3.6 Binding effect of Entitlement and Acceptance Form

A completed and lodged Entitlement and Acceptance Form, or a payment made through BPAY®, constitutes a binding offer to acquire New Shares on the terms and conditions set out in this Prospectus and, once lodged or paid, cannot be withdrawn. If the Entitlement and Acceptance Form is not completed correctly it may still be treated as a valid application for New Shares. The Directors' decision whether to treat an acceptance as valid and how to construe, amend or complete the Entitlement and Acceptance Form is final.

By completing and returning your personalised Entitlement and Acceptance Form with the requisite Application Money or making a payment by BPAY, you will also be deemed to have acknowledged, represented and warranted on behalf of each person on whose account you are acting that:

- (a) you are an Eligible Retail Shareholder and are not in the United States and are not a person (including nominees or custodians) acting for the account or benefit of a person in the United States and are not otherwise a person to whom it would be illegal to make an offer or issue New Shares under the Retail Entitlement Offer;
- (b) you acknowledge that the New Shares have not been, and will not be, registered under the US Securities Act or under the laws of any other jurisdiction outside of Australia, New Zealand, United Kingdom, Singapore and Hong Kong; and
- (c) you have not and will not send any materials relating to the Retail Entitlement Offer to any person in the United States or to any person (including nominees or custodians) acting for the account or benefit of a person in the United States.

3.7 Allotment and allocation policy

A Retail Entitlement Shortfall will exist if any Eligible Retail Shareholder does not take up their full Retail Entitlement. Additional New Shares applied for will only be allocated and issued if a Retail Entitlement Shortfall exists – resulting in the Retail Entitlement Offer being undersubscribed.

Allocation and allotment of any Additional New Shares applied for will be made in accordance with the following policy:

- (a) the Directors will allocate the Entitlement Shortfall Shares to Eligible Retail Shareholders that have applied to take up their full Retail Entitlements and in addition have indicated that they wish to take up Additional New Shares as provided for in Section 3.3.
- (b) AERIS reserves the right to allocate Additional New Shares to Eligible Retail Shareholders who wish to take up Additional New Shares at its discretion. In exercising its discretion AERIS will have regard to facilitating the increase in the number of Shareholders with marketable parcels of Shares.
- (c) Once Directors have exhausted the allotment and allocation of Additional New Shares under the Retail Entitlement Shortfall Facility to Eligible Retail Shareholders, the Company will call on the Joint Lead Managers (as the Underwriters) to take up the remaining New Shares under the Retail Entitlement Shortfall in accordance with its underwriting obligations under the Underwriting Agreement. These remaining New Shares will be allocated by the Underwriters to SPOV as the sub-underwriter to the Retail Entitlement Offer. New Shares taken up by the Joint Lead Managers

(as the Underwriters) and SPOV will be issued at approximately the same time as all other New Shares are issued under the Retail Entitlement Offer.

- (d) No Related Party (except for SPOV as a sub-underwriter of the Retail Entitlement Offer) or Eligible Retail Shareholder associated with the Directors will participate in the Retail Entitlement Shortfall Facility.
- (e) The Company will not allocate or issue Additional New Shares under the Retail Entitlement Shortfall Facility, where it is aware that to do so would result in a breach of the Corporations Act, the Listing Rules or any other relevant legislation or law. Eligible Retail Shareholders wishing to apply for Additional New Shares must consider whether or not the issue of the Additional New Shares applied for would breach the Corporations Act or the Listing Rules having regard to their own circumstances.
- (f) There is no guarantee that Eligible Retail Shareholders will be successful in being allocated any of the Additional New Shares that they apply for. The Company may reject any Application for Additional New Shares or allocate fewer Additional New Shares than applied for by Applicants for Additional New Shares in accordance with the policy set out above. The Directors reserve the right at their discretion to place a maximum on the number of Additional New Shares that will be issued to Eligible Retail Shareholders who apply for Additional New Shares.

4. Company Information

4.1 Introduction

Aeris Resources Limited (**Aeris or Company**) is one of Australia's largest independent copper producers by volume produced.

The Company's flagship asset is the Tritton Copper Operations (Tritton) in Western NSW which operates two underground mines and a 1.8mtpa processing facility and is surrounded by an 1,800km² highly prospective tenement package which to date has discovered 750,000 tonnes of copper.

Aeris also holds a 70% interest in the exciting Torrens Project (EL5614) in South Australia through a Joint Venture with Argonaut Resources (ASX: ARE). The Torrens Project contains a regionally significant coincident magnetic and gravity anomaly (11km x 6.5km) with a footprint larger than Olympic Dam. In February 2018 the final regulatory approval was received, enabling on-ground exploration activities, including up to 70 drill holes, to commence. The Joint Venturers are planning to commence drilling at the Torrens Project before the end of calendar 2018.

The Company recently completed a five year operational and financial turnaround and is now focused on delivering on its strategic objective to become a mid-tier, multi-mine copper producer – through organic growth and M&A.

4.2 Company Update

(a) Operational Matters

Aeris produced 26,686 tonnes of copper (target: 27,000 tonnes) for the year ending 30 June 2018, a 14% increase compared to the previous financial year (FY2017: 23,404).

Ore production from the Tritton Underground Mine was impacted during the first half of the year due to stope sequencing. This was reversed during the second half as sequencing moved back on plan and the higher grade stopes were mined.

The Murrawombie Underground Mine ramped up to full production during the financial year. A revision of the geology model was completed during the period, incorporating grade control drilling information and mapping of development drives inside the orebody. The updated information has resulted in a change in mining method with stopes now designed to target more selective mining of higher grade areas of the orebody.

Approximately 1.6 million tonnes of ore was processed during the year with a copper recovery rate of more than 95%.

Aeris completed three major capital investment projects at its Tritton Copper Operations (**Tritton**) in FY2018, each representing a strategic investment in the future of Tritton:

- The Tritton Underground Mine ventilation shaft was commissioned in September 2017. This essential infrastructure ensures that production at Tritton can be maintained at more than one million tonnes per year as mining moves deeper;
- The Murrawombie Underground Mine which provides a second source of ore to the 1.8Mtpa Tritton processing plant attained full production levels during the year; and
- The geophysical survey portion of the two-year, \$7.5 million greenfields exploration program which commenced in the first half of FY2017 was completed during the period under review.

The ongoing greenfields exploration program also identified a further 65 kilometres of geological trend, and multiple new anomalies for further exploration in FY2019.

Drilling recently re-commenced at the Kurrajong prospect, which is approximately 20 kilometres from the Tritton processing plant. A six hole drilling program has been completed with excellent results including 17.0m @ 2.59% Cu (TKJD017), 19.4m @ 2.18% Cu (TKJD014), 4.65m @ 5.09% Cu (TKJD015) and 5.65m @ 2.52% Cu (TKJD015). High grade mineralisation has now been extended 800m down-plunge. A further twelve hole drill program is scheduled for FY2019.

Brownfields exploration at the Tritton deposit has identified a number of opportunities to extend the life of this operation, including extensions to the orebody, which remains open at depth. Further drilling and evaluation will be undertaken in FY2019.

At the Torrens Project an airborne geophysical survey was completed in April 2018 and identified 28 gravity anomalies. Drilling is scheduled to commence before the end of calendar 2018.

(b) Financial Result

For the year ended 30 June 2018 Aeris reported a Net Profit attributable to members of \$55.3 million (a 266% increase on the prior year) and Net cash inflows from Operations of \$50.5 million (165% increase on FY2017). The improved financial result was supported by higher copper prices and higher copper production, resulting in a 40% increase in Revenue compared to the prior period, and in March 2018 the Company completed a corporate and debt restructure which:

- Reduced senior debt by 53% from US\$63.3 million to US\$30 million;
- Reduced Aeris' share capital by 50%, with 467 million (80%) of Convertible Redeemable Preference Shares held by Standard Chartered Bank (SCB) redeemed for \$1 and subsequently cancelled; and
- Cancelled the Copper Price Participation Agreement with SCB for \$1, allowing Aeris to retain the benefit of copper prices above \$8,000/t.

5. Effect of the Offer on the Company

5.1 Financial position

To illustrate the effect of the issue on the Company, the pro-forma consolidated balance sheet has been prepared based on the audited balance sheet as at 30 June 2018.

The pro-forma balance sheet shows the effect of the Offer as an underwritten offer and as if the Offer (under this Prospectus) had been made on 30 June 2018. The pro-forma balance sheet assumes that the Offer is fully subscribed.

The accounting policies adopted in preparation of the pro-forma consolidated balance sheet are consistent with the policies adopted and as described in the Company's financial statements for the year ended 30 June 2018.

The significant effects of the Placement and the Entitlement Offer (assuming the Placement and Entitlement Offer are fully subscribed) will be to:

- (a) reduce the debts of the Company by \$26.1 million;
- (b) increase cash reserves by approximately \$7.0 million (after the reduction of debt by \$26.1 million and payment of the cash expenses of the Offer which are estimated to be \$2.1 million); and
- (c) increase the number of issued ordinary shares by 175,478,996 to 455,711,613.

Eligible Retail Shareholders who accept their Entitlement in full and do not apply for (and receive) a sufficient number of Additional New Shares under the Retail Entitlement Shortfall Facility will experience a reduction in their percentage as a consequence of the conduct of the Placement with the Entitlement Offer. If an Eligible Retail Shareholder does not take up their Entitlement in full it will result in their percentage holding in the Company being diluted further by the Offer. See section 5.4 for further details.

5.2 Capital structure

The share capital structure of Aeris immediately following the Offer, on the basis that the Offer is fully subscribed (excluding rounding of Entitlements), will be as follows:

	Number	%
Ordinary Shares on issue at the date of this Prospectus	280,232,617	61.49
Ordinary Shares issued under the Placement	42,034,892	9.22
Maximum number of New Shares under Prospectus ¹	133,444,104	29.29
Total:	455,711,613	100

Notes:

1. If any of the Vested Options or CRPS are exercised or converted prior to the Record Date, additional New Shares will be issued under the Offer under this Prospectus. Refer below for details.

As at the date of this Prospectus, the Company has 93,410,609 Existing Options on issue, of which 44,370,041 are Vested Options, as follows:

No of options issued	No of options vested	Holder	Exercise price	Expiry date
37,364,244	17,748,016	Andre Labuschagne (executive chairman)	\$Nil	31 December 2021

11,209,273	5,324,405	John Miller (GM - Tritton Operations)	\$Nil	31 December 2021

If all holders of Vested Options were to elect to exercise their Vested Options prior to the Record Date, and become eligible to participate in the Offer, a further 21,128,592 (approximately) New Shares may be issued under this Prospectus. However, the Company has obtained confirmation in writing from each of the Option Holders that they will not be exercising their Vested Options before the Record Date. Accordingly, no additional New Shares will be issued under this Prospectus on account of the exercise of the Vested Options.

The remaining 49,040,568 Existing Options on issue which have not vested are not capable of exercise as at the date of this Prospectus.

As at the date of this Prospectus, the Company also has 93,410,609 CRPS on issue. These CRPS are held by Standard Chartered Bank, Singapore Branch and are capable of redemption and conversion in accordance with the terms of those CRPS. If all holders of CRPS were to elect to convert their CRPS into Shares prior to the Record Date, and become eligible to participate in the Offer, a further 44,481,243 (approximately) New Shares may be issued under this Prospectus. The conversion of the CRPS into Shares does not take effect until the 5th business day after notice of conversion has been received by the Company and, as at the date of this Prospectus, the Company has not received a notice of conversion from the CRPS Holders. In addition, the CRPS Holders have indicated to the Company that they do not intend to convert any CRPS to Shares before the Record Date. Therefore no additional New Shares will be issued under the Prospectus on account of the conversion of CRPS.

5.3 Present shareholder position

The substantial Shareholders of the Company prior to the date of this Prospectus are as follows:

Name	Shares	%
SPOV	140,115,913	50.00%
BCC Launchpad Ireland Holdings Designated Activity Company	21,466,373	7.66%

5.4 Potential effect of the Placement, the Institutional Entitlement Offer and the Retail Entitlement Offer

Whilst the Retail Entitlement Offer is a fully underwritten pro-rata offer, the conduct of the Placement in conjunction with the Entitlement Offer means that all Eligible Retail Shareholders will have their percentage

interest in the Company diluted if they only accept their Entitlement and do not apply for (and receive) a sufficient number of Additional New Shares from the Retail Entitlement Shortfall Facility. If Eligible Retail Shareholders take up their Entitlements in full without receiving Additional New Shares, the voting power of Eligible Retail Shareholders will be reduced by a maximum of 9.22%.

However, Shareholders who do not take up all of their Entitlements will have their interest in the Company further diluted. Given the terms of the Offer, the maximum possible dilution to an Eligible Retail Shareholder's interest in the Company would be 38.51%. In addition, the proportional shareholdings of Retail Shareholders who are not resident in Australia, New Zealand, United Kingdom, Singapore or Hong Kong may be diluted as those Shareholders are not entitled to participate in the Retail Entitlement Offer. The holdings of those Ineligible Shareholders will be diluted by a maximum of 38.51%.

Accordingly, Eligible Retail Shareholders can reduce the extent of the dilution of their voting power in the Company by accepting their Entitlement in full and applying for Additional New Shares under the Retail Entitlement Shortfall Facility.

If no Eligible Shareholders were to take up their Entitlements under the Entitlement Offer, the Joint Lead Managers (as the Underwriters) would be obliged to receive 175,478,996 New Shares under the Placement and the Entitlement Offer, to be shared equally between Bell Potter and Euroz. Neither Bell Potter nor Euroz currently hold any Shares, Vested Options or CRPS, therefore the total number of shares held by Bell Potter would become 87,739,498 for voting power of 19.25% and the total number of shares held by Euroz would become 87,739,498 for voting power of 19.25%.

In addition to this, the Company's largest shareholder, SPOV has agreed to:

- (a) accept its Entitlements under the Institutional Entitlement Offer to the amount of \$7 million;
- (b) sub-underwrite the whole of the Retail Entitlement Offer.

SPOV currently holds 140,115,913 Shares (with no Vested Options or CRPS) with voting power in the Company of 50%.

By accepting its Entitlements under the Institutional Entitlement Offer to the amount of \$7,000,000, SPOV will receive 35,000,000 New Shares under the Institutional Entitlement Offer. However, as a consequence of the conduct of the Placement, SPOV's voting interest will be reduced to 41.48% upon completion of the Institutional Entitlement Offer.

By sub-underwriting the Retail Entitlement Offer, SPOV could receive a maximum of 33,554,700 New Shares under the Retail Entitlement Offer and increase its voting power to 45.79% upon completion of the Retail Entitlement Offer, which is still a reduction of its voting power from 50% as at the date of this Prospectus.

As a result of SPOV receiving a maximum number of 68,554,700 New Shares under the Entitlement Offer, this will reduce the maximum number of New Shares available to be issued to the Joint Lead Managers (as the Underwriters) to 106,924,296 New Shares, being a maximum number of 53,462,148 New Shares for Bell Potter and a maximum number of 53,462,148 New Shares for Euroz. This would result in a maximum voting power in the Company of 11.73% for Bell Potter and 11.73% for Euroz.

The number of New Shares to be received by the Joint Lead Managers, and their corresponding maximum voting power, will be further reduced by the Keet Agreements and an institutional bookbuild to be undertaken by the Joint Lead Managers for the shortfall under the Institutional Entitlement Offer.

The calculations in this section 5.4 assume that none of the Vested Options are exercised and none of the CRPS are converted and participate in the Retail Entitlement Offer. See section 5.2 for further detail.

6. Risk factors

6.1 Introduction

There are risks which may impact on the operating and financial performance of the Group and, therefore, on the value of the New Shares offered under this Prospectus. Some of these risks can be mitigated by the Group's systems and internal controls, but many are outside of the control of the Group and the Board. There can be no guarantee that the Company will achieve its stated objectives or that any forward-looking statements will eventuate.

The New Shares offered under this Prospectus carry no guarantee in respect of profitability, dividends, return of capital or the price at which they may trade on ASX. The past performance of the Company should not necessarily be considered a guide to the future performance of the Company. As with any equity investment, substantial fluctuations in the value of your investment may occur.

Potential investors should therefore carefully consider all associated risks before applying for New Shares under this Prospectus and should consider their personal circumstances (including financial and taxation issues) and seek advice from their stockbroker, accountant, solicitor or other professional advisers before deciding whether to invest.

A number of material risk factors which may adversely affect the Group and the value of the New Shares offered under this Prospectus are set out in this section. This is not an exhaustive list and there may be other factors which have an adverse effect on the Group and the value of the Shares offered under this Prospectus.

6.2 General Risks

The New Shares that are to be issued pursuant to this Prospectus are speculative because of the nature of the business of the Company. The Company is an established copper producer which is subject to a number of risks as outlined below and no assurances can be made that the Company's particular interests or projects will be successful.

A summary of the major general risks are described below:

(a) Dilution

Shareholders should be aware that:

- (1) as a result of the Placement, Shareholders who accept only their Entitlement and do not apply for any Additional New Shares under the Retail Entitlement Shortfall Facility will have their interest in the Company diluted;
- (2) to the extent that Shareholders do not accept their Entitlements in full, a Retail Entitlement Shortfall will arise and will be allocated to the Underwriters (and any sub-underwriters) all or part of any Retail Entitlement Shortfall may be placed by the Company with the Underwriters (and any sub-underwriters, including SPOV), in which case their interest in the Company may be significantly diluted (see section 5.2 for further details);
- (3) Shareholders with registered addresses outside of Australia, New Zealand, United Kingdom, Singapore and Hong Kong will not be able to participate in the Retail Entitlement Offer and the holdings of those Ineligible Shareholders will be diluted by the Entitlement Offer.

Given the terms of the Entitlement Offer, including the fact that it is fully underwritten and is being conducted in conjunction with the Placement, the interests of a Shareholder in the Company may be diluted by up to 38.51% in the event that they are not eligible to participate or elect not to accept their Entitlement in full.

If an Eligible Shareholder accepts their Entitlement in full and does not apply for Additional New Shares (or applies for Additional New Shares but does not receive any Additional New Shares), their interests in the Company may be diluted by up to 9.22%. Both of these calculations assume that none of the Option Holders exercise their Vested Options and none of the CRPS Holders convert their CRPS and participate in the Retail Entitlement Offer

Acceptance of Entitlements or the allocation of any Retail Entitlement Shortfall may also result in existing Shareholders or new investors significantly increasing their interest in the Company or obtaining a substantial interest in the Company. However, the Retail Entitlement Shortfall will only be placed to the extent that such placement is in compliance with the takeover provisions of the *Corporations Act*, which restrict a person and their associates from having a relevant interest in the Company of not more than 20.0%, subject to a number of exemptions.

(b) Share Market Risk

The market price of listed securities can be expected to rise and fall in accordance with general market conditions and factors specifically affecting the Australian resources sector and exploration companies in particular. The New Shares carry no guarantee in respect of profitability, dividends, return on capital, or the price at which they may trade on the ASX.

There are a number of factors (both national and international) that may affect the share market price and neither the Company nor its Directors have control of those factors.

(c) General Economic Conditions

Changes in the general economic climate in which the Company operates may adversely affect the financial performance of the Company. Factors that may contribute to that economic climate include the general level of economic activity, interest rates, inflation, supply and demand, industrial disruption and other economic factors. The price of commodities will also be of particular relevance to the Company. These factors are beyond the control of the Company and the Company cannot, with any degree of certainty, predict how they will impact on the Company.

(d) Share price fluctuations

The market price of the Company's securities will be subject to varied and often unpredictable influences in the share market. Both domestic and world economic conditions may affect the performance of the Company. Factors such as the level of industrial production, inflation and interest rates impact all commodity prices.

(e) Legislative change

Changes in government regulations and policies may adversely affect the financial performance or the current and proposed operations generally of the Company.

(f) Unforeseen expenses

While the Company is not aware of any expenses that may need to be incurred that have not been taken into account, if such expenses were subsequently incurred, the expenditure proposals of the Company may be adversely affected.

6.3 Risks specific to an investment in the Company

In addition to the general market and economic risks noted in section 6.2, Applicants should be aware of risks specific to an investment in the Company, which may include, but are not limited those risks described below.

(a) Products Sales and Commodity Price Risk

Aeris derives its revenues mainly from the sale of copper and/or associated minerals. Consequently, Aeris's potential future earnings, profitability and growth are likely to be closely related to the demand for and price of copper and associated minerals.

Copper is a traded commodity in Australia and its long-term price may rise or fall.

Additionally, Aeris's prospects and perceived value will be influenced from time to time by the prevailing short-term prices of the commodities targeted in its exploration programs. Commodity prices fluctuate and are affected by factors including supply and demand for mineral products, hedge activities associated with commodity markets, the costs of production and general global economic and financial market conditions.

These factors may cause volatility which in turn, may affect the Company's ability to finance its future exploration and/or bring Aeris's products to market.

Aeris has entered into hedging arrangements to partially protect its position against changes in the copper price for deliveries out to February 2019. When these arrangements expire, there is no guarantee that the Company will be able to secure replacement hedging arrangements on terms satisfactory to the Company.

(b) Exchange Rate Risk

A number of the Company's commercial arrangements, including copper sale arrangements and finance arrangements, are based on US dollars. The Company also acquires equipment from overseas using foreign currency. Accordingly, the revenues, earnings, costs, expenses, assets and liabilities of the Company may be exposed adversely to exchange rate fluctuation. Further, the future value of the Company's Shares may fluctuate in accordance with movements in the exchange rates and interest rates.

(c) Operations and Costs Risk

The Company is a producer of copper which is sold under commercial contracts. The Company's immediate plans and objectives are dependent upon a continuation of such production generating operating surpluses to assist the Company in funding its planned expenditure programs. Whether it can do so will depend largely upon an efficient and successful, operation and exploitation of the resources and associated business activities and management of commercial factors.

Operation and exploitation may from time to time be hampered on occasions by unforeseen operating risks, as would any other industry. For example, force majeure events, power outages, critical equipment or pipe failures, and environmental hazards such as noise, odours, hazardous substances spills, other weather events, industrial accidents and other accidents, unforeseen cost changes and other incidents beyond the control of Aeris can negatively impact on the Company's activities, thereby affecting its profitability and ultimately, the value of its securities.

Ultimate success depends on the discovery and delineation of economically recoverable mineral resources, establishment of efficient exploration operations, obtaining necessary titles and access to projects, as well as government and other regulatory approvals.

The exploration and mining activities of the Company may be affected by a number of factors, including but not limited to geological conditions; seasonal weather patterns; equipment difficulties and failures, technical difficulties and failures; continued availability of the necessary technical equipment, plant and appropriately skilled and experienced technicians; improper, defective and negligent use of technical plant and equipment; improper, defective and negligent conduct by employees, consultants and contractors; adverse changes in government policy or legislation; and access to the required level of funding.

(d) Uncertainty of Development of Projects and Exploration Risk

Mineral exploration and development are high risk undertakings and involve significant risks. The Company's performance depends on the successful exploration and/or acquisition of resources or reserves and commercial production therefrom. There can be no assurances that the Company's exploration programs described in this Prospectus or those relating to any projects or tenements that the Company may acquire in the future, will result in the discovery of a significant base metal and/or precious metal deposit, and even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.

Aeris's potential future earnings, profitability and commercialisation of base metal and/or precious metal reserves and resources will be dependent on the successful discovery and subsequent extraction of those resources to the extent that may be required to fulfil commercial obligations.

Successful commodity development and production is dependent on obtaining all necessary consent and approvals and the successful design, construction and operation of efficient gathering, processing and transportation facilities. No assurance can be given that the Company will be able to obtain all necessary consents and approvals in a timely manner, or at all.

(e) Acquisition Risk

The Company's growth plans require the availability of appropriate and suitable acquisition targets and the Company being able to successfully negotiate the acquisition of those targets. There is no guarantee that that Company will be able to identify and acquire suitable acquisition targets or that successful acquisitions will be able to be efficiently integrated into the operations of the Company. The failure to make and integrate suitable acquisitions could impact the Company's operations and financial results.

(f) Regulatory Risk and Government Policy

The availability and rights to explore and produce base metal and/or precious metal, as well as operational profitability generally, can be affected by changes in government policy that are beyond the control of Aeris.

The governments of the relevant States and Territories in which Aeris has interests conduct reviews from time to time of policies in connection with the granting and administration of petroleum tenements. Changing attitudes to environmental, land care, cultural heritage or traditional religious artefacts and indigenous land rights issues, together with the nature of the political process, provide the possibility for future policy changes. There is a risk that such changes may affect the Company's exploration, development or operational plans or, indeed, its rights and/or obligations with respect to the tenements.

(g) Health and Safety Risk

As with any mining project, there are health and safety risks associated with the Company's operations in Australia. The Company manages these risks, through the application of structured health and safety management systems. As the operator of plant and equipment, the Company has specific legislative obligations to ensure that its personnel and contractors operate in a safe working environment.

(h) Insurance Risk

The Company maintains insurance within ranges of coverage the Company believes to be consistent with industry practice and having regard to the nature of activities being conducted. No assurance, however, can be given that the Company will be able to continue to obtain such insurance coverage at reasonable rates or that any coverage it arranges will be adequate and available to cover any such claims.

(i) Competition Risk

Aeris is one of a large number of exploration and mining companies that operate in the base metals and precious metals industry in Australia. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which may positively or negatively affect the operating and financial performance of the Company's projects and business. There can be no assurance that the Company can compete effectively with other base metals and precious metals exploration and mining companies in the search for reserves and resources of base metals and precious metals.

(j) Business Risks

There are risks inherent in doing business, such as unexpected changes in regulatory requirements, trade barriers, longer payment cycles, problems in collecting accounts receivable, network and infrastructure issues, natural disasters, and potentially adverse tax consequences, any of which could adversely impact on the success of Aeris's operations.

(k) Contractual and Joint Venture Risks

Aeris's ability to efficiently conduct its operations in a number of respects depends upon third party product and service providers and contracts. Accordingly, in some circumstances, contractual arrangements have been entered into by Aeris and its subsidiaries. As in any contractual relationship, the ability for Aeris to ultimately receive benefits from these contracts is dependent upon the relevant third party complying with its contractual obligations.

To the extent that such third parties default in their obligations, it may be necessary for Aeris to enforce its rights under any of the contracts and pursue legal action. Such legal action may be costly and no guarantee can be given by Aeris that a legal remedy will ultimately be granted on appropriate terms.

Additionally, some existing contractual arrangements have been entered into by Aeris and its subsidiaries may be subject to the consent of third parties being obtained to enable Aeris to carry on all of its planned business and other activities and to obtain full contractual benefits.

No assurance can be given that any such required consent will be forthcoming. Failure by Aeris to obtain such consent may result in Aeris not being able to carry on all of its planned business and other activities or proceed with its rights under any of the relevant contracts requiring such consent.

A number of the Company's projects are already the subject of joint venture arrangements. Additionally, the Company may wish to develop its projects or future projects through further joint venture arrangements. Any joint ventures entered into by, or interests in joint ventures assigned to, the Company could be affected by the failure or default of any of the joint venture participants.

(l) Tenements

A failure to adhere to the requirements to exceed certain levels of expenditure on tenements held by Aeris (or its subsidiaries) in various jurisdictions may make certain tenements subject to possible forfeiture. All granted tenements are currently in good standing and, in accordance with normal industry practice, Aeris surrenders some or all un-prospective parts of its tenements at the appropriate time so as to manage its minimum expenditure obligations and to retain the capacity to apply for additional prospective areas.

In respect of granted tenements, no assurance can be given that the Company will be successful in managing its minimum expenditure obligations and retaining such tenements.

(m) Unforeseen Expenses

The Company's cost estimates and financial forecasts include appropriate provisions for material risks and uncertainties and are considered to be fit for purpose for the proposed activities of the Company. If risks and uncertainties prove to be greater than expected, or if new currently unforeseen material risks and uncertainties arise, the expenditure proposals of the Company are likely to be adversely affected.

(n) Additional Requirements for Capital

The Company's capital requirements depend on numerous factors. Depending on such factors as:

- the continuation of receipt of operating revenue from its operations;
- the outcome of the Company's exploration programs; and
- the availability of third party debt finance;

the Company may require further financing in addition to amounts raised under this Prospectus.

Any additional equity financing will dilute shareholdings and debt financing (if available) and may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programs. In addition, the Company's ability to continue as a going concern may be diminished.

There is no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company and such circumstances will adversely affect the Company.

(o) Contractors

The Company is dependent on contractors and suppliers to supply vital services to its operations. The Company is therefore exposed to the possibility of adverse developments in the business environments of its contractors and suppliers. Any disruption to services or supply may have an adverse effect on the financial performance of the Company.

(p) Reliance on Key Personnel

The Company has a small senior management and technical team. Its ability to deliver on its operating plans and to progress its exploration and evaluation programs within the time frames and within the costs structure as currently envisaged could be dramatically influenced by the loss of key personnel. The resulting impact from such loss would be dependent upon the quality and timing of the replacement of such personnel.

(q) Employees

The ability of the Company to achieve its objectives depends on being able to retain certain key employees, skilled operators and tradespeople. Whilst the Company has entered into employment contracts with key employees, the retention of their services cannot be guaranteed. The loss of key employees or skilled operators and tradespeople could significantly affect the performance of the Company's operations.

Labour disputes could also lead to lost production and/or increased costs.

(r) Environmental Risks

The Company's projects are subject to laws and regulations in relation to environmental matters. As a result, there is the risk that the Company may incur liability under these laws and regulations. The Company proposes to comply with applicable laws and regulations and conduct its programs in a responsible manner with regard to the environment.

(s) Native Title and Heritage Risk

The Native Title Act 1993 (Cth) recognises certain rights of indigenous Australians over land where those rights have not been extinguished. These rights, where they exist, may impact on the ability of the Company to carry out exploration and in future, mining activities, or obtain exploration or mining licences in Australia. In applying for licences over crown land, the Company must observe the provisions of Native Title legislation.

There are also laws of the States and Territories which impose duties of care which require persons, including the Company, to take all reasonable and practical measures to avoid damaging or destroying Aboriginal cultural heritage.

In carrying out exploration and/or mining operations, the Company must observe Native Title legislation (where applicable), Aboriginal heritage legislation and heritage legislation which protects sites and objects of significance and these may delay or impact adversely on the Company's operations in Australia.

Shareholders should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for the New Shares.

- (d) The Underwriters will not be required to take up New Shares to the extent that to do so would cause the Underwriters to have to give notice under or cause of breach of the FATA, FIRB policy or the takeover provisions of the Corporations Act provided that this will not prevent the Underwriting from needing to comply with its obligations to procure subscribers for New Shares under the Underwriting Agreement;
