ONGOING CO-MARKETING WITH MICROSOFT DRIVING STRONG DEMAND

Designed in collaboration between LiveTiles and Microsoft, the AI Spark Partner Program launched in August to participating Microsoft partners in Australia. The AI Spark Program, which has now been expanded to the United States, is designed to accelerate the rate at which partners can deploy AI solutions for their customers by lifting the AI capabilities of participating Microsoft partners. The Program's launch has already generated strong interest, with several Microsoft partners already onboarded. This Program, in combination with a wide range of co-marketing initiatives with Microsoft, continues to drive strong awareness of LiveTiles' offering and robust demand.

In September, LiveTiles was a major sponsor of Microsoft's global Ignite conference in Las Vegas. This major marketing event, which was attended by over 25,000 participants, has already generated a substantial uplift in LiveTiles' sales pipeline.
